ARCHITECT SUBMITS HIGH SCHOOL DATA

Consulting Architect at Council Meeting — Dummer Street Extension Put Over

James B. McLaughlin, the consulting architect chosen by the mayor in connection with the new high school, appeared before the municipal council today and submitted a program for the selection of school plans. The program was adopted by the council.

The proposition for the extension of Dummer street was to have been taken up today but was postponed because of the absence of the city solicitor. It

was decided to hold a special meeting Friday morning for the discussion of the Dummer street extension. Other business before the meeting included the drawing of traverse jurors to serve at the November term of the superior court in Cambridge.

The first business before the meeting had to do with the petition of Harry L. Gonzalez for the sale of gun

SUPERIOR COURT

Woburn Man Guilty of Illegal Liquor Sale—Other Cases

The case of C. Mostofio of Woburn, charged with maintaining a liquor nuisance, took up the greater part of this morning's session of superior criminal court before Judge Raymond. Lawyer Kenney, a young barrister from Woburn, appeared for the defendant. The case was tried through an interpreter. Assistant District Attorney Crowley conducted the case for the government.

The wife of the defendant was the first to go on the stand. She testified that her husband always kept liquor in the house for the use of his family and boarders, but denied that he ever sold any of it. Mr. Mostofio offered similar testimony.

Officer Gorman, a Woburn inspector, told of watching the house and of finally raiding the premises. A case of beer and an empty quarter keg, he said, were seized in the raid.

In his argument to the jury, Lawyer Kenney sought to impress upon the jurors' minds that the government had failed to prove beyond a reasonable doubt that liquor was kept in the house for sale. Assistant District Attorney Crowley related the story of the seizure by Woburn police officers and their subsequent finding of the case of beer and the keg, and what Officer Gorman had to say while watching the house. He cited the danger of the liquor nuisance, which he said, is commonly called a "kitchen barroom." At the conclusion of his argument the matter was given to the jury by Judge Raymond and about a half hour later the foreman announced a finding of guilty. Mostofio was fined \$100, but a few minutes later Judge Raymond continued the case until November for sentence.

Elmer E. Hobart appeared on a complaint charging him with deserting his wife, Lillian Hobart and their child, on March 16, and of refusing to contribute towards their support since that time. His case was continued and he was asked to recognize in the sum of \$1000 for his appearance before any future session of the court.

Agrippina Cassary, charged with assault with intent to murder, was told that her case will be tried tomorrow morning and that if her present counsel cannot represent her, she will have to engage other counsel. According to the statement of District Attorney Crowley, this case has been needlessly delayed several times.

Tony Silva, who it is alleged assaulted Officer Jerome Cullen on June 12 was next called for trial. Assistant District Attorney McCarthy represented the government in this case and Lawyer Frank Goldman looked after the defendant's interests.

On direct examination Officer Cullen told of his visit to Silva's house in Pearl street on the evening of June 12. He said that it was then about 12 o'clock and that the occupants of the premises were making considerable noise. He went in and found that a party was in progress, he said, and called for the "boss."

The Case of Rossol
Owing to the large list of criminal cases to come before the present session of the court and the fact that the district attorney would like to have a greater part of the business of his office finished in this city by Thursday, Lorenzo Rossol, one of the defendants in the pickpocket cases tried at yesterday morning's session, whose case was to come up again on Thursday, was brought before Judge Raymond yesterday afternoon following the dismissal of the jury. Lawyer Murphy,

of Boston, counsel for the defendant, sought to have his client dismissed on the ground that after 1913 he had never been brought before the court and had since been living an honorable life. It seems that after his arraignment and release on bail in the Cambridge court, Rossol went to New Jersey and married a girl of wealthy parentage. Although the parents of the girl knew nothing of Rossol, they nevertheless disapproved of the marriage and told their daughter that they would have nothing more to do with her if she married him. But their advice was not heeded. Some time after the girl came to Cambridge to live with Rossol who started in the bar-bering business. Lawyer Murphy said that if his client was not released, the young wife would be cast aside without means of support, and he also laid particular stress on the fact that Inspector Claffin, the well known Boston investigator of crime, did not believe that Rossol was connected with the pickpocket affair. Judge Raymond, however, refused to let any of these facts have any bearing on the case and Rossol was sentenced to one year at hard labor, the same punishment meted out to his companions at the morning session.

WHAT THE Y.M.C.A. MEMBERSHIP

Offers to Young Men of Lowell.

The use of the most modern and up-to-date building in the city in which will be found—

FEDERAL OFFICERS HOLD GERMAN BOMB PLOTTERS

Fay, Scholz and Daeche Released — Taken by Federal Agents on Charges of Conspiracy — Police Seek Fifth Man in Plot—Spy Said Way to Stop Shipment of Munitions Was to Blow Up Chemical Works

NEW YORK, Oct. 26.—Robert Fay, a lieutenant in the German army; Walter L. Scholz and Paul Daeche were arraigned in police court in Weehawken, N. J., today, on charges in connection with an alleged plot to blow up steamships sailing from New York with munitions for the allies.

The three men were discharged by the court but were immediately rearrested by federal agents on charges of conspiracy sworn to by Chief Flynn of the secret service.

Fay and Scholz left for New York in custody of the federal officers. They will be arraigned later before United States Commissioner Houghton on the complaint sworn to yesterday by Chief Flynn. The complaint charges that they, in conjunction with Dr. Herbert Klenzle held in \$2500 bail yesterday, and Max Breitung, still at liberty, conspired to commit an offense against the United States.

Daeche at first agreed to go to New York with the federal officers, but when his counsel advised him that he had the right of arraignment before

the nearest federal commissioner, he claimed that privilege, saying he had nothing in common with the others and did not care to go to New York without arraignment. He was then turned over to the custody of an assistant of Chief Flynn, who will care for him.

While waiting for the men to be transferred to his custody today Chief Flynn said he was in possession of information which showed that Fay had told a man named Veltz that the proper way to stop the shipment of munitions to the allies was to blow up the chemical works. He explained that it was useless to try and blow up the shell factories and the powder works, because those plants could make repairs easily and the worst damage that could be done there would delay them only a week or so. If the chemical plants were attacked they would be at the fountain head and repairs could not be quickly made.

Fay had also, the chief said, ridiculed some of the bombs which had been found on various ships in the harbor and declared they were no good and

made by amateurs. "Joke bombs," he termed them.

Fay has also said, the chief asserted, that when he left Holland for America on the Rotterdam he had with him a letter to a very high official, but on the first day out he destroyed it, fearing he might be searched and the letter found.

Chief Flynn was asked if he considered that Capt. Boy-Ed and Capt. Papen had been implicated in any way. He replied that Fay absolved them from all participation.

When Fay and Scholz reached New York, shortly after noon, they were taken to the office of Chief Flynn at the Battery, where, it is understood, they were again questioned. Arrangements were made to keep them there until their arraignment at 4 p. m. before United States Commissioner Houghton.

After failing to locate Max Breitung at either his home or office here, police today sent out a general alarm for him. Breitung is secretary and treasurer of the Oil Well Device Co., with offices in Wall street.

least prevent the Austrians from reinforcing their Balkan army.

Russians Defend Riga
Russia, by her stubborn defense of Riga and Dvinsk and her continued offensive in Galicia is keeping her opponents engaged busily along the whole eastern front. In the west there is evidence the entente allies are again preparing for an offensive which will prevent the Germans from diverting any of their forces.

FEATURES OF LAST NIGHT'S WAR NEWS IN BRIEF

FORM

French troops defeat Bulgarian army 40 miles north of Greek border.

Austro-Germans stormed heights in Serbia and Bulgarians captured pass north of Ploet, says Berlin.

French capture important fortification in Champagne and hold most of it against German counter attacks.

Germans driven back across the Iloukist river near Dvinsk.

Russian attacks southeast of Riga and northeast of Dvinsk repelled, according to Berlin.

Austrians report capture of Russian positions near Galician border.

Austrian aeroplanes bombard Venice, badly damage Scala church, and destroy its famous frescoes and narrowly miss St. Mark's.

NEW HAVEN TRIAL

NEW YORK, Oct. 26.—With Charles S. Mellen on the witness stand in the trial of New Haven railroad directors on a charge of conspiracy to monopolize New England traffic, counsel for the United States government was prepared today to submit to the federal court more letters and records from the files of the New Haven company to show the various steps in its consolidation.

It was expected that Frank M. Swacker, special prosecutor, would continue today to question Mr. Mellen about the moves made by the New Haven road to crush the New York & New England Railroad Co., which it regarded as its bitterest antagonist.

When the hearing adjourned yesterday the inquiry had covered the demands of the New Haven for the prepayment of freight charges by the New England road and the abandonment of the Poughkeepsie bridge route by certain railroads.

Some of the letters produced in court touched upon the Goldsmith suit, a result of which it is charged that the New England road went into the hands of a receiver and was absorbed by the New Haven.

J. E. CAMPBELL, DEAD

John E. Campbell, who for a number of years conducted a wine shop at the corner of South and Summer streets, was found dead on the floor of the front room at his home, 73 Summer street, this morning, the gruesome find having been made by the mother of deceased, with whom he was living.

Mr. Campbell was about 43 years of age. He was last seen alive by his mother last night. This morning the woman entered the front room and found her son lying on the floor. She called help, but after an examination it was found that the man was dead.

Dr. J. V. Meigs, medical examiner, viewed the body and pronounced death due to natural causes.

POOR DEBTOR HEARING FOR HON. GEO. H. BROWN

In Reply to Lawyer Howard Mr. Brown Told of His Finances—What He Got From Libel Suit

Hon. George H. Brown, formerly mayor and commissioner of the city of Lowell, was summoned before the police court today on a poor debtor's process which proved very spicy. The process was relative to a judgment secured by Albert S. Howard in the superior court last April for legal services performed for Mr. Brown on certain libel suits against a Sunday morning paper and a bill in equity growing out of the purchase of a Knox automobile by the city government.

The proceedings are based on Mr. Howard's charges. That Mr. Brown has property not exempt from being taken on execution which he does not intend to apply to the payment of Mr. Howard's claim.

The hearing was not presided over by any justice, although Judge Enright was called several times to pass on the admittance of several questions asked by Attorney Howard and objected to by Mr. Brown's counsel, Edward J. Tierney. A stenographer took a report of the proceedings for the court. Mr. Brown was put through a lengthy examination by Mr. Howard and at 12.30 o'clock the hearing was continued until Thursday morning at 10 o'clock.

When questioned about what he owed Mr. Howard, Mr. Brown said that he owed him for legal services performed in the case in which the city council voted to buy a Knox automobile. Mr. Howard then attempted to have an injunction brought against the members of the council, except Brown, to prevent the purchase of the machine.

"When I contracted that bill," said Mr. Brown, "I honestly believed that the city of Lowell would pay it, but 12 men decided that I owed it to you and I intend to pay it."

Mr. Brown was asked about his salary during his term as mayor and said that he had not saved any of it. He then intimated that the proceedings brought against him were for political purposes and were backed by the proprietor of a Sunday newspaper.

"In May, 1913, did you borrow any money from Arthur S. Lyons, a Boston broker?" asked Mr. Howard.

"Yes, \$1000."

"Did you in March, 1914?"

"Yes, the same amount."

Mr. Brown said that he did not put any of the money in the bank so far as he remembered. "I might have carried some of it in my pocket or left it in my desk at city hall," he said. "In the days we had honest law enforcement, and I did not consider it dangerous to carry large sums of money."

"Did you put any of it in the banks?" asked Mr. Howard.

"No, I don't think so."

Mr. Howard then intimated that Mr. Brown put his money where his creditors could not get it. Mr. Brown denied emphatically.

"Did you deposit any money in banks after you were mayor?"

"I think so. I had a bank account in 1910 and probably in 1911. I wouldn't be here today if I hadn't stood up in a council meeting and done my duty by voting for the Pillsbury site for a contagious hospital."

Mr. Brown then assailed Mr. Howard, and claimed that Howard wanted him to vote against the hospital site but he refused.

"How much did you owe in 1913?"

"I probably owed \$1200."

"Your stepmother died recently in New Brunswick, didn't she?"

"Yes, in May."

"Did she leave property?"

"A farm and estate."

"To whom was that left?"

"A little girl."

"Any interest that I had in that property I signed it off in 1905."

"How much did you get out of that libel suit when you were mayor?"

"I don't know."

"Did you get \$1000?"

"Yes."

"\$2000?"

"Yes."

"\$4000?"

"Yes."

"\$6000?"

"I don't know."

This small showing after a \$8000 verdict brought a remark from Mr.

Tierney that caused some laughter. "Have you any money now?"

"No."

"Have you advertised in newspapers?"

"No, perhaps my friends have done some for me."

The hearing was then adjourned until Thursday morning at 10 o'clock.

TERMS OF PEACE

Report Former German Chancellor Will Submit Conditions

LONDON, Oct. 26, 1.33 p. m.—A report reached here today that Prince von Buelow, former German chancellor, will shortly submit to President Wilson and King Alfonso of Spain an outline of the conditions on which Germany might be disposed to discuss terms of peace.

The report is contained in a Reuter despatch from Madrid and has not been corroborated from any other source. The despatch gives as authority Prince Camporeale, an Italian nobleman, who is a brother-in-law of Prince von Buelow. The report was first published in Madrid, the correspondent says in the form of a message from Rome.

At last reports Prince von Buelow was ill. A message from Berlin on Sunday said he was confined to his room in Cologne as the result of a slight indisposition.

GERMAN LOSSES

57,424 in 9 Days—Total Losses of Central Powers 5,000,000

LONDON, Oct. 26, 11.48 a. m.—The Nieuwe Rotterdamse Courant, as quoted by Reuters' Amsterdam correspondent gives German losses from Oct. 11 to 20, at 57,424 in dead, wounded and missing. The total Prussian losses are given as 2,021,078.

The newspaper says there have also been issued 228 Bavarian, 209 Saxon, 255 Wurttemberg and 53 naval lists, as well as lists of officers and under officers with the Turkish army. The Courant figures the total losses to the central powers at 6,000,000.

Heat The Comforter

Sudden illness at night can often be relieved by heat.

To have it ready in the room is of untold value.

It would be well for every electric lighted home to have an electric heating pad on hand.

LECTURE ON MASEFIELD

MISS HELOISE E. HERSEY GAVE DELIGHTFUL TALK BEFORE WOMEN'S CLUB

The speaker at the Women's club yesterday afternoon was Miss Heloise E. Hersey, who talked on the personality and poetry of John Masefield. In view of the fact that Mr. Masefield will himself speak before the club in January, the talk was especially timely, but apart from all other considerations, it was a delight in its keen analysis, sincerity and real appreciation of the true and beautiful. Miss Hersey knows and loves the poetry of Masefield, and she has the rare ability to arouse a like feeling in the hearts of her hearers.

HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a lazy, no-good feeling—you should take Olive Tablets.

with the Red Cross at the Dardanelles. Miss Hersey enlarged on this bare outline by drawing a picture of the Masefield who is revealed in his poems. He does not enthuse about the writers of the day and he is wisely original. Shaw and Masefield, she said, stand at the poles. Both are fond of comparing us to the Romans, but in a different manner; Shaw thinks the Romans were as small as we are; Masefield thinks we are as great as the Romans. Masefield loves the open water, the primitive life of those who live hard and die hard. At this point the lecturer read many beautiful lyrics and descriptive poems to illustrate the qualities of the poet, and the lovely little metres sang themselves in her sympathetic interpretation. They showed his love of the sea and the land and his hope—"The City of God at the other end of the road."

From the selections chosen the lecturer gathered that Masefield is an impressionist with the eye of a realist. With him the heroic is not so beautiful as the pitiful. He turns from high visions to the lowly and he cares more for man than for morality. He discovered beauty in helliness and made poetry from what men call prose. She ascribed his power to two ruling considerations: he is alive with the passion of our time for remedying the miseries of life and he is a firm believer in the power of salvation in Christ. His message and his mission are for human betterment and all he has written is permeated with a Christian inspiration. Though he may seem morbid occasionally he is a strong man dealing with terrible things.

DESTROYED BY A MINE

MEN SAVED FROM STEAMER RUSSIA HAVE ARRIVED AT STOCKHOLM

COPENHAGEN, Oct. 25, via London, 2:04 a. m.—Five men saved from the Swedish steamer Russia, which was destroyed by a mine, have arrived at Stockholm. The German Lieutenant, Metz, who was in charge of the steamer as a prize officer when she struck the mine was with them. He has been interned.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend 25 cents! Dandruff disappears and hair stops coming out.

Try this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that gleams with beauty and is radiant with life, has an incomparable softness and shiny and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and it not overcome it produces a feverishness and itching of the scalp; the hair roots loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

LOWELL IS FIFTH

New Bedford Gets Ahead of Us in Population

The census bureau at Washington has compiled its estimates up to July 1, 1915, of the population of all places of more than 3000 inhabitants. Massachusetts as a whole has grown steadily. In 1910 she possessed only five cities with a population of more than 100,000. These were Boston, Worcester, Fall River, Lowell and Cambridge. She now has eight cities in this class, having added to the previous list Lynn, New Bedford and Springfield. Lawrence comes very near the 100,000 mark, with an estimated population of 95,197. In 1910 Lowell was strongly entrenched in fourth place in the list of Massachusetts cities by a population of 146,244. Cambridge was a close second with a population of 104,832. New Bedford's population at that time was 95,672, and now New Bedford leads both Lowell and Cambridge. The following table tells the story:

	1910	1915
Boston	675,585	745,132
Worcester	145,582	169,513
Fall River	117,495	125,204
New Bedford	95,672	114,531
Lowell	146,244	152,121
Cambridge	104,832	117,633
Springfield	85,224	102,216
Lynn	95,232	109,316

CHASED BY SUBMARINES

ESCAPE OF SEVERAL GERMAN OIL STEAMERS FROM BRITISH IN THE BALTIC SEA

LONDON, Oct. 25, 2:09 a. m.—The escape of several German oil steamers from British submarines in the Baltic sea is described by a Copenhagen newspaper just received here. The steamship Baltic headed at full speed toward Swedish territorial waters. The submarine made vigorous efforts to cut off her escape but as soon as the steamer was within Swedish limits the "under sea boat" retired.

The Swedish pilot station has issued warning that many floating mines are adrift off the Swedish coast between Gribshamn and Helsingborg.

ITALIANS CALLED TO COLORS
LONDON, Oct. 25, 3:52 a. m.—Reuters' Malta correspondent reports that more Italian classes are being summoned to the colors to enable Italy to co-operate with the allies in the near east as soon as possible.

OBSERVED 20TH ANNIVERSARY
Mr. and Mrs. Fred L. Fletcher of Chelmsford observed their 20th anniversary of marriage at their home Saturday evening and on this occasion they were joined by a valuable older friend, the presentation being made by East Commander Drake of the Sons of Veterans. A pleasant evening was spent and the guests who were members of the Sons of Veterans and the daughters of Veterans were royally entertained.

POPE BENEDICT TALKS

EXPRESSES DEEP AFFLICTION BY TRAGIC EVENTS RAVAGING EUROPE

ROME, via Paris, Oct. 25, 4:50 a. m.—Pope Benedict, in an interview published in the Avenir d'Italia of Bologna, expressed his deep affliction by the tragic events ravaging Europe and his suffering at being obliged to look powerless upon such a spectacle.

But in his father's heart, which cherished alike all his children, the pope said he thought only of the day when the rulers of warrior peoples shall understand the necessity and duty of endeavoring to bring about a overthrowing of all human and divine laws.

The holy father abstained, he said, from passing judgments which have no practical result, but would on the contrary cause fresh recriminations and new fresh disorders. He deplored the violence and the barbarities practiced in a war wherein the conquests of science were placed at the service of murder.

In conclusion, the pope declared that his appeal for peace having been unheard, he would continue his charitable work for the benefit of the wounded.

WENT THROUGH BRIDGE

TWO MEN HAD MIRACULOUS ESCAPE WHEN AUTO FELL FORTY FEET

STRONG, Me., Oct. 25.—Roy Morrill of Turner and Harold Andrews of Auburn had an escape little short of miraculous when a five and a half ton motor truck which they were driving went through the old suspension bridge here last night, plunging 40 feet to the river's brink below. Neither man suffered injury other than slight bruises, but the truck, which was loaded with boxes, was damaged considerably.

BIG RUSSIAN ORDER

PRESSED STEEL CAR CO. COMPLETES ORDER FOR 7500 FOREIGN CARS—NEW CONTRACT

PITTSBURGH, Pa., Oct. 25.—It became known here today that the Pressed Steel Car Co., having completed an order for 7500 steel freight cars for the Russian government, yesterday closed a contract for an additional 5500.

REPUBLICAN RALLIES HELD

Republican rallies were held last night at the town hall, Haverhill, and at Union hall, North Andover, with good sized audiences of men and women. Among the speakers were Congressman John Jacob Rogers, Senator Charles A. Kimball, Rep. Burton H. Crosby, former District Attorney John J. Higgins, Immature, Editor of Bedford and Philip M. Clark of Newton.

PROF. KAPPEL IS DEAD

CHICAGO, Oct. 25.—Prof. J. Henry Kappel, an authority on music, died at the home of a son in Evanston, a suburb, last night at the age of 81. Prof. Kappel was born in Worms, Germany, and while a student at the University of Heidelberg became a leader in the secret society pledged to unity Germany. As a result he was imprisoned, but escaped to France whence he sailed for America in 1818. He was a protégé of Felix Mendelssohn and was intimately associated with many great composers.

CASCARETS SELL TWENTY MILLION BOXES PER YEAR

Best, safest cathartic for liver and bowels, and people know it.

They're fine! Don't stay bilious, sick, headachy or constipated.

Enjoy life! Keep clean inside with Cascarets. Take one or two at night and enjoy the most, gentlest liver and bowel cleansing you ever experienced. Wake up feeling grand. Your head will be clear, your tongue clean, breath rich, stomach sweet and liver and thirty feet of bowels active. Get a box at any drug store and straighten up. Stop the headaches, bilious spells, bad colds and bad days—Brighten up. Cheer up. Clean up. Mothers should give a whole Cascaret to children when cross, bilious, feverish or listless. It is coated they are harmless—never gripe or sicken.

BULGARIAN HOLD RAILROAD

SALONIKI, Oct. 25, 7 p. m., via Paris, Oct. 26, 12:15 p. m.—With Uskup in their possession, the Bulgarians now hold with strong forces the Nish-Saloniki railroad between Franja and Uskup, a distance of about 60 miles. They have thus cut direct communication between Nish and Saloniki, leaving open only the uncertain means of transit over the Monastir-Prishtina line.

The situation in Serbia is grave, of course, but it is no wise desperate, said a French officer this evening. "The Austrians and Germans have advanced less than 12 miles on the Danube front, notwithstanding their numerical superiority."

AMUSEMENT NOTES

LOWELL OPERA HOUSE

"Bought and Paid For," a drama in four acts from the pen of George Broadhurst, is proffered by the Stiles Emerson players at the Lowell Opera House this week. The play is a wonderful one and is bound to be one of the real successes of the season. Last night it was witnessed by a large and appreciative audience and the performance was indeed a splendid one for an "opener."

The cast of characters is as follows: Robert Stafford.....Homer Barton (Lena's waif).....Forrest Gordon (Josephine's maid).....Dora Gordon (Virginia Blaine).....Miss Ann O'Day (Fannie Blaine).....Miss Dora Booth (James Gilley).....Joseph Crehan

"Bought and Paid For" unfolds a story of unusual interest and also affords the members of the cast a splendid opportunity to display their skill. It concerns a young man who upon meeting with success in the business world, has a strong desire to marry. He meets and marries a young woman who holds but a small position in the walk of life and for one year is happy. The second year brings trouble, however, on account of the man's intemperate habits. When he comes to go home under the influence of liquor, his wife shrinks from him and this arouses his anger. He tells her that she has no right to neglect him no matter how much his actions affect her as he has bought and paid for her by placing her in a position of wealth. The couple are married for a month but are finally brought together through the influence of a relative.

The story of the play is one of real life. Its situations are humorous and amusing and it is sure to make a strong impression on patrons of this theatre during its one week's stay here.

At Virginia Blaine, at first telephone operator and later the wife of the millionaire, Miss Ann O'Day is superb. By investing into this part all the realism and feeling that the author intended, Miss O'Day outshines every other character that she has ever played. Homer Barton as Robert Stafford, the chairman husband, is splendid. Mr. Barton has a wonderful opportunity to exhibit his talents and he plays the character strongly.

Joe Crehan plays Jimmy Gilley, Lena's waif, and plays his brilliant scenes. From the start to the end there is a ready flow of laughter caused by this young man, which makes the character one of the funniest in the play.

Both Dora Booth and Dora Gordon as Mrs. Gilley and makes a splendid side partner of Joe Crehan's in furnishing fun and merriment.

The scenic effects in the play are up to the usual standard set by the company and the promptness in changing the scenes is very much appreciated by the theatre patrons.

There are seven numbers on the R. F. Keith theatre bill this week and each one is in a class by itself. At the close of last evening's performance a war of prizes were heard from many of the spectators, who credit the management with providing the patrons this week with one of the greatest and most interesting programs for a long time. The bill deals with a variety of states, magicians, singers, dancers and clever actors who perform in a most superb way.

Then comes the vaudeville program which is headed by Heenan & Anderson, comedy roller skaters, who can do anything on the rollers (from the ordinary skating to the lunge and dancing). Their act is good and will prove very interesting to the roller amateurs.

Robert Wallace comes next. She is booked as a singing comedienne and well deserves the title. She is possessed of a fairly good voice, while her selections are up-to-date and very catchy.

Carl Rossini, who could well be called "Herman the Great," for he is as clever a magician as has appeared on a Lowell stage, entertains in a very pleasing manner. He is ably assisted in performing his tricks by two charming young women, who add greatly to the success of the sketch.

"Get Out of This Theatre," is the title of a sketch produced by Sylvester and Vance, a couple who sing to advantage and who are check full of new jokes. The delightful one-act sketch entitled "Our Husbands" is presented by Bertha Creighton & Co. This sketch with a husband who has deserted his wife after robbing her of her dollars and then marries again. He is later found by the first wife, who in a very wise way manages to get her money and more too. The playlet is very interesting and contains just enough comedy to make it enjoyable.

Albert F. Hawthorne and Jack Ingalls, "A Fool There Is," or in other words direct from Brazil where the nuts come from, are there with the goods. The pair are decidedly funny and so good is their sketch that last evening they were recalled several times.

A feature of the bill is the last number on the program, Harry Slakko's Midnight Rollers, who present a real show show as is proper to every night in New York. The staging of this piece is ideal and very attractive, while the musical numbers given in the course of the performance will make any lover of music sit up and take notice. The sketch is produced by four real musicians, a pianist, violinist, banjoist and drummer and their execution of the dance numbers is enough to make many local musicians sick with envy.

Although the musicians are of the real kind they have nothing on the two who are to be seen in the dancing stunt. Their first demonstration was a pretty waltz movement and this was followed by a cross between a maxie and hesitation, and then one pair goes into acrobatic feats while dancing to the strains of the cabaret orchestra. The conclusion is exciting. All in all the bill is real good and well worth seeing. The attendance last night taxed the capacity of the large theatre.

MERRIMACK SQUARE THEATRE

Those who wished their way to the Merrimack Square theatre either yesterday afternoon or evening were delighted with the finished impersonation of Miss Cleo Ridgely in the five act Paramount drama, "The Chorus Lady," which is the elaborate screen adaptation of the play of the same name which brought fame to Miss Rose Stahl when she appeared in it several years ago on the legitimate stage. The 7th episode of the adventurous "Neat of the Navy" serial led the interest of the audience which was thrilled by the latest adventures of Neat and Annette. The two act comedy brought forth many hearty laughs and proved the mirth-making qualities of the farce. The Jalls News showed the latest event of importance. This excellent bill will be continued at all the performances at this theatre today and tomorrow. Amateurs tonight.

OWL THEATRE

Madam Petrova, the brilliant dramatic actress, scored a big hit at the Owl theatre yesterday in the great part Metro feature, "My Madonna." This is a very powerful film and in it this screen star has many opportunities to display her great emotional ability. Many other excellent photographs will be seen at the Owl today in conjunction with this feature.

MEN-OF-WAR TORPEDOED IN POLICE COURT

Fourteen British, One French, Three Russian, One Japanese and Three German Sunk

BERLIN, Oct. 26.—(By wireless to Sayville, N. Y.)—The Overseas News agency says:

"German newspapers, commenting on the loss of the cruiser Prinz Adalbert, state that up to the present time there have been sunk by German torpedoes 16 British men-of-war, one French, three Russian and one Japanese. Only three German men-of-war—the Prinz Adalbert, Hela and the torpedo boat F-116—have been sunk by torpedoes.

"Reports from Sofia say that the greater part of the fortified city of Dedaghat was destroyed by the bombardment of the allied fleet. Twenty-five women and children were killed and others were buried under the ruins. This inhuman and brutal deed of the British and French has provoked the deepest indignation.

"A demonstration organized in Bucharest yesterday by friends of the entente powers was a complete failure. The Rumanian government has taken energetic measures and the friends of the quadruple entente are deeply depressed.

"Installments paid in cash in the third German war loan up to October 23 amount to 8,732,000,000 marks, (\$2,325,000,000) or 72 per cent. of the total."

CITY HALL NEWS

Continued

powder and ammunition, and the matter was referred to Commissioner Morse and Fire Chief Samuels.

The petition of the Lowell Co-operative association for a garage and gasoline license was properly referred, as were petitions of the Lowell Electric Light corporation for pole locations in Marginal and West Sixth streets.

Petitions for the acceptance of Daniels street, Harvard avenue, Bertha and Upham streets were ordered to lay seven days in the city clerk's office.

D. J. Ring was given leave to withdraw on his petition for edgelines in Davenport terrace, it having been discovered that the petitioner had trespassed and had laid the stones before the city got around to it.

Various petitions for street lights, wire attachments, etc., were properly referred.

Memorial Building

Commissioner Putnam was instructed to complete his contract with Matthias Connor for the taking down of the turrets and wall on the Colburn street side of the Memorial building.

Change Traffic Ordinance

On motion of Mayor Murphy the city solicitor was instructed to revise the traffic ordinance so as to include Middle street in the 20-minute period.

Garages and Gasoline

Hearings on the following petitions for garages and gasoline will be held Tuesday morning, Nov. 16: George E. Mongeau, 414 Fletcher street, garage and gasoline; City Hall garage, gasoline; Gulf Refining company, garage; Napoleon Desmarais, garage, 775 Lakeview avenue.

The Heating System

The following bids on the reconstruction of the heating system in the Memorial building were announced by Com. Putnam: Clisbourn & Co., \$1850; Farrell & Condon, \$1860; John A. Carter & Co., \$1873; Welch Bros., \$1870; H. R. Barker Co., \$1870; T. Costello & Co., \$1876. Mr. Putnam was authorized to enter into a contract with T. Costello & Co., for the reconstruction of the system.

The City Engineer

On motion of Commissioner Carmichael the city clerk was instructed to notify the city engineer to attend all meetings of the municipal council and remain until the council adjourned.

Dummer Street Matter

The matter of the Dummer street extension was not taken up as City Solicitor Hennessy was called to Boston and was unable to reach it. A special meeting to discuss the extension was suggested by the city solicitor and it was voted to hold a special meeting on Friday morning at 10 o'clock.

Assessment Abatement

A report by the commissioner of streets and highways relative to the abatement of assessment on edgelines at 30 Pine street did not agree with the order accompanying it and was laid over till the next meeting.

Four Jurors Drawn

The following reverend jurors to serve at the November session of the superior court to be held in Cambridge were drawn by Commissioner Carmichael:

Ernest J. Dupont, 443 Moody street, clerk.

Harry E. Clay, 10 Orford street, operator.

John H. Beaulieu, 202 Hildreth street, storekeeper.

Edward Burns, 34 Pleasant street, wool sorter.

Architect's Program

Mr. McLaughlin, the consulting architect on the new high school, was present at the meeting and submitted his program to the council. The program was accepted and adopted. The program deals with the selection of an architect; all plans to be received by the council. Mr. McLaughlin's plans called for numbers in the building of plans and Mr. Putnam thought the numbers were not necessary and on his motion the numbers were eliminated. No drawing, however, will reveal the name of a competitor.

Mr. McLaughlin also submitted a form of advertising for the news-papers which was approved by the council.

Architect McLaughlin's program for competition for the selection of an architect confines competition to Lowell architects, and those having a usual place of business in Lowell, Draught, Tynesboro, Chelmsford, Billerica and Tewksbury.

The drawings submitted must be the actual bona fide work of the architect so competing or work under his immediate direction in his own office, and the council reserves the right to reject any plan in case it is found that the drawings are not the actual work of the architect competing.

The competition is to be absolutely

anonymous and no drawings will be considered which in any way reveal the name of the competitor, and no award will be made to any competitor who directly or indirectly seeks to influence the council or to make his drawings known to them. There shall be no number, name or device of any sort upon any drawing. After the award is made public, the competitors will be expected to identify their drawings to the satisfaction of the council.

"To Act as Jury

The council, with the advice of its advisory architect, will act as a jury in this competition and will make a selection from the plans submitted, and the architect so chosen will be awarded the commission for the building under the usual terms of professional practice for new work, as set forth in the schedule of minimum charges of the American Institute of Architects. The plans placed second in the competition will be paid a prize of \$250. The plans placed third in the competition will be paid a prize of \$150.

In working out the completed drawings, all matters of construction, plan or design shall be subject to revision and approval by the council and the advisory architect.

The councillors ask for high school accommodations for about 3500 pupils. For the purpose of this competition, it may be assumed that the present high school building will accommodate approximately 800 pupils and the new building is to be planned for 2500 pupils.

In general, the usages of the Boston schoolhouse department are to be followed in planning this building. Simplicity of corridor circulation and ample light and air for the classrooms will receive first consideration. The new building is to be connected with the present building in the most direct manner and without interfering with light and air to present classrooms.

Drawings Required

A plan of basement and of each floor, elevation on Kirk street and a section through the building including the auditorium. All these drawings to be made to scale of 1/4" = 1' to the foot. The plans are to be drawn in ink or pencil with the walls blacked in solid, and the rooms designated by name and dimensions of each given. At least one room of each type shall have arrangement of seats and desk indicated. On each plan also is to be a note giving the area of the building in each story outside the walls.

The elevation and the section are to be in blue, drawn in ink or pencil but without any rendering of any description or any cast shadows. The walls in section will be indicated by cross hatching or by filling in solid with black. The cube of the building shall be indicated by a note on the section, and shall be computed from outside walls, top of basement floor and high point of roof.

No perspective of any kind will be considered and no color or wash work of any description shall be put on any of the drawings. The council wishes to particularly emphasize the fact that this competition is to select an architect rather than to decide on plans, and a preference will be given to those in every case rather than to mere elaboration of drawings.

Each drawing is to be on a single sheet of white paper mounted on cardboard, the mounts measuring 24x30". The program for this competition has been approved by the committee on competitions of the Boston Chapter of the American Institute of Architects.

Word to Architects

Architects intending to compete are requested to register their names at once with the commissioner of public property.

Copies of the program and outline plans of present building and place of the new high school may be obtained from the commissioner of public property upon application any time before November 5, 1915. This program is assumed to provide for all the requirements of this competition and no communications relative to the competition will be considered by the council. If any additional instructions are to be issued to competitors, they will be mailed simultaneously to the addresses on file with the commissioner.

The drawings are to be delivered to the office of the commissioner of public property at city hall, on or before 12 o'clock noon, Tuesday, November 2, 1915.

Before any conference is held with the successful competitor, and before the council determines the identity of the prize contestant, the winning numbers will be published in the Lowell newspapers.

FRACTURED RIGHT ARM

Raymond Deschenaux, son of Mr. and Mrs. Deschenaux, 136 Moody street, fractured his right arm while cranking his brother's automobile in Merrimack street this afternoon. The young man was removed to the Lowell hospital, where he was treated.

Five Months for Assault

—Alleged Cruelty to Horse

Charles Willett was sentenced to five months in jail by Judge Knight in the local police court this forenoon after being adjudged guilty of assault and battery on a horse. Two counts upon William A. McDermott and Kachadon Tiklyan, the latter one of the proprietors of the Jewel bowling alleys. A companion, Charles Soucier, was fined \$20 for assault upon Tiklyan. A. O. Hamel appeared for the government and Henry Charbonneau represented Soucier.

The government contended that late last Friday night, Willett and Soucier entered the pool room and started to convert the place into a rough house. They refused to leave the premises when ordered and a boy was sent to the street in search of an officer, but returned and said he could not find one. The pair then played pool and at the conclusion of the game refused to pay the proprietor. When Mr. Tiklyan told them to leave the premises, it is alleged, Soucier hit him and then Willett assaulted him and McDermott, who was sitting at a table. Both were then placed under arrest.

Cruelty to Horse

Albert Gagnon of Lawrence was before the court charged with unlawfully driving a lame horse on Thursday last. He pleaded not guilty, offering for an excuse the fact that the horse belonged to someone else.

The principal witness for the government was Charles F. Clark of Saugus, agent for the Massachusetts Society for the Prevention of Cruelty to Animals. He testified that he saw Gagnon riding on the horse on Worthen and Clark streets. He brought the animal to Hanson's auction. It is asserted, but Mr. Gagnon refused to list it on account of its condition. He said it was very old, very poor and lame forward and behind. Dr. Hamblett, a veterinarian, corroborated the statements about the condition of the animal. Gagnon admitted that he was under a suspended sentence from the Lawrence court for the same offense. He was ordered to pay a fine of \$10.

Peter Michael, who yesterday said he would rather go to jail than pay \$7 a week to support his children, was called on continuance today and fell the same way. "Give him three months in jail," said the court. After Michael had remained in the dock a short time he told an interpreter that he would give his wife \$5 a week and the execution of the sentence was suspended.

Found Drugged

William Decker, who was found near the cartridge company plant Saturday suffering from poison, testified today that he could not account for taking the drug as he had only two drinks Saturday. He was released. A half-dozen other drunks were disposed of and there were five releases by the probation officer.

Y.M.C.A. REPORT

Membership Work Still Booming—Total Increase 769

But 24 hours remain for the Y.M.C.A. to raise the 231 members needed to make the campaign a success. At this noon's meeting 109 names were reported bringing the total up to 769 with the boy's report yet to come in. "Can we do it?" was the popular question and most of the team workers were confident that by hard work the campaign would be a success.

After the noonday luncheon, remarks were made by Neil McMillan of New York, who assisted in the money campaign here two years ago. Mr. McMillan spoke of the fine accommodations at the association building and congratulated the members on having such a fine institution.

The team reports are as follows:

Division A—Robert Friend, chairman, 28.

Division B—C. T. Upton, chairman, 30.

Division C—F. E. Kimball, chairman, 17.

Division D—W. H. G. Wight, chairman, 31.

The automobile parade last night was made up of nearly 40 machines well filled with enthusiastic team workers. The parade, headed by a machine occupied by Marshal Harry Pitts and Campaign Manager J. A. McCall, left the corner of Merrimack and Dutton streets promptly at 8 o'clock and proceeded down Merrimack to Central to Middlesex to Gorham, to Central, and then through Bridge and other streets. Each machine was decorated with banners and the occupants carried red fire. All along the route the workers cheered and tooted automobile horns.

Boys' Meeting

The boys of Division E met last evening and reported 38 new members, bringing the total for the day up to 297. Remarks were made by Secretary Williams and Campaign Manager McCall.

TO COPE WITH FOOD SUPPLIES.

LONDON, Oct. 26.—3.48 a. m.—An extraordinary meeting of the Russian council of ministers has empowered Alex. Khvorostoff, minister of interior, to take urgent measures to cope with the food problem, says a despatch to the Times from Petrograd.

During his four days' stay, Minister Khvorostoff ascertained that as many as 6000 cars of foodstuffs were being detained in the freight sheds at Moscow. To a representative of the Novo Vremya, M. Khvorostoff explained that the main cause for the unprecedented rise in prices lies in the congestion of freight at Baku, Tula, Orel and other places and the extortionate wage demands of teamsters, together with the failure of municipalities to adopt measures to facilitate the delivery of freight.

He proposes to organize military companies of teamsters, consisting of refugees and soldiers to discharge freight and also to requisition drays and horses.

BRITISH TO JOIN FRENCH

SALONKI, Oct. 25, 2.50 a. m. via Paris, Oct. 26, 1915 a. m.—A brigade of British troops will leave Salonki tomorrow to support the Dorians (40 miles northwest of Salonki). The object of this move, so it is stated, is to prepare an advance on Strumitsa in conjunction with the French movement by way of the Stara Vrala when the allied offensive against Bulgaria is undertaken.

GLAD GOLDEN WEDDING

MANY LOWELL PEOPLE HONOR MR. AND MRS. LOCKE OF LAWRENCE —MARRIED HERE

A large number of Lowell people attended the golden wedding of Mr. and Mrs. Charles E. Locke at their home, 177 Ferry street, Lawrence, Sunday.

The couple being well known in this city, having been married here 50 years ago. The celebration was of special interest as it also marked the 12th anniversary of marriage of their daughter, Mrs. Alfred S. Carpenter.

Mrs. Locke was born in Manchester, N. H., Dec. 23, 1844, and went to Lawrence two years later and made his home there since. Mrs. Locke was born in Glover, Vt., Jan. 29, 1847, and went to Lawrence in 1861. While residents of the down-river city the couple came to Lowell on Oct. 24, 1863, and were married by Rev. O. Oran Peck at that time pastor of the Methodist Episcopal church.

Mr. Locke is a past commander of Needham post 39, G.A.R., having joined the post soon after its organization. He enlisted in Company I, Sixth Mass. Regt. in August, 1862, and served nine months. In 1865 he enlisted again, this time in Company D, Third Mass. Heavy Artillery, and served until the close of the war in 1865. The couple has had four children, Charles A. Locke, Mrs. Alfred S. Carpenter, Mr. Frank E. Follansbee and Miss Ada B. Locke, all residents of Lawrence. The couple are well known in Lowell, where they count a host of relatives and friends.

BATTLE NEAR ORSOVA

AT TEKIA IN SERBIA DESCRIBES FIGHTING

BUCHAREST, Oct. 25, via Paris, Oct. 26, 4.25 a. m.—The battle near Orsova when the Austrians crossed the Danube at that point near the Rumanian frontier is described by a Russian captain named Sinkovitz, who commanded a Russian battery at Tekia in Serbia and has just arrived in Rumanian territory.

Capt. Sinkovitz said that the bombardment, which lasted most of the night, was resumed in the morning. Three thousand shells were thrown against the heights of Orsova, that locality being completely destroyed.

Protected by their artillery, the Austro-Germans crossed the Danube in boats and installed five batteries on the Serbian shore. The Russian battery continued its fire to cover the evacuation of the population.

The Serbian troops retired toward Negotin and Bera Palanka.

The Austrians having secured mastery of the Danube, are preparing to transport heavy artillery and munitions.

In the evening the Russian steamer Tiraspol bombarded Orsova. The Serbians are constructing a second line of defense.

REPRISALS THREATENED

Germany to Act With Severity, Says Press. If Russians Shoot Prisoners—Use of Dum-Dum Bullets Denied

BERLIN (by wireless to Tuckerton, N. J.), Oct. 25.—The Overseas News Agency says:

"The Norddeutsche Allgemeine Zeitung reports that the German government has transmitted through a neutral power its answer to the Russian government's threat to shoot German prisoners of war in districts where dum-dum bullets have been used.

"The German government states that no dum-dum bullets ever have been or will be used by German soldiers. If the Russian government shoots German soldiers under false accusations of using such bullets Germany will make the most severe reprisals.

"The German government further states that reprisals will be the easier because Russians captured by the Germans have confessed that they have used dum-dum bullets."

ON STREET REPAIRS

GANG AT WORK ON PAWTUCKET BRIDGE TODAY—GORHAM ST. REPAIRS

A gang of men employed by the Bay State street railway company started to work on the Pawtucket bridge early today, making repairs on that part of the floor between the rails. The last break, which occurred when a coal team went through, was in a part between the tracks, and hence the railway company had the entire space under its jurisdiction inspected. As a result several weak parts were found and men were sent to make the necessary repairs.

Upper Gorham Street

If the Upper Gorham Street Improvement association is out to improve conditions in that district, and by so doing show that this is the object of the organization, there is an opportunity to do so, for within a stones throw of the headquarters of the club there is a huge hole in the macadam. This hole, according to a resident of that part of the city has been the cause of several narrow escapes during the past few days, and it is soon repaired a serious accident may occur. The break is near the entrance to St. Patrick's cemetery.

A few loads of gravel would soon level the street and make it safe or traffic.

Since the formation of the new club, no improvements have as yet been announced, but the condition of the Wood street school are two needed improvements and if the organization is sincere these two questions should be attended to without delay.

DIFFERENCE BETWEEN DRAGONIS AND VENIZELIS IN GREEK CHAMBER SETTLED

ATHENS, Oct. 25, via London, 12.35 p. m.—Another cabinet crisis has been narrowly averted. During a debate in the Chamber of deputies a difference of opinion developed between Stephen Dragoulis, minister of finance, and Eleutherios Venizelos, former premier and leader of the majority party. The debate was on the subject of Turkish properties in Macedonia which were confiscated after the Balkan war. Heated remarks were exchanged and there were constant interruptions from the government side.

M. Venizelos early reminded the government that its control of the chamber depended entirely on the votes of his party. The chamber was thrown into confusion and the sitting was suspended.

The cabinet assembled hastily and as a result of its consultation, M. Dragoulis made conciliatory explanations which brought about a settlement of the dispute.

LOWELL MAN ACQUITTED

NASHUA STRIKE UNSETTLED—MILL AGENTS STUDY WAGE PROBLEM

NASHUA, N. H., Oct. 25.—R. S. Milligan, agent for the Nashua Manufacturing company, whose operatives have been on strike three weeks, is still at work on wage statistics and will await the decision of Agent William H. Cutler of the Jackson company on the figures which ex-Mayor Barry is to submit to him for the strikers.

After the hearing in district court yesterday afternoon of Adam Sharple and Karlis Baranaski who were held on a charge of the murder of Demetrios Karademos, the cases of Peter Giacira and John Pavina were heard. They were each fined \$100 and costs and appealed. They were arrested

WEIGHED 672 POUNDS

EDWARD DUNKHORST, "THE HUMAN FREIGHT CAR," SPARRING PARTNER OF FITZSIMMONS, DEAD

CHICAGO, Oct. 26.—Edward Dunkhorst, 38 years old, of Syracuse, N. Y., known as "The Human Freight Car," on account of his enormous size, lies dead today at a hospital here.

He was a former sparring partner of Robert Fitzsimmons and for the last nine years has given sparring exhibitions.

Dunkhorst was 6 feet 7 inches in height and weighed 672 pounds at the time of his death.

BOYLE BEATS YOUNG BRITT

Local Boxer Wins From New Bedford Boy in a Hard Fifteen Round Bout

Phinney Boyle of Lowell showed the way to Young Britt of New Bedford at New Bedford last night and at the end of the fifteen rounds had enough points to win several battles but owing to a ruling in New Bedford, verdicts are given by the referee. Boyle fought his customary fight, out-boxing Britt nearly all the way. The first five rounds went to Boyle by a wide margin. Phinney just cased up and was content to keep ahead of Britt until the fifteenth round, when he unleashed his heavy artillery and rocked Britt from head to foot with heavy wallop to the head and the bell was indeed welcome to the Whaling City boy, for he could not have shouldered the terrific pace much longer.

LEVINSKY AND FLYNN EVEN

PORTLAND, Me., Oct. 26.—It is estimated that at least 2000 persons attended the first sparring event of the season at the new exhibition building last evening. Young Abe Attell and Young Packey McFarland, both of Portland, gave a lively setto, but in the sixth round a quick left to the jaw by McFarland resulted in a knockout of Attell.

Ray Wood of Fall River and Charles Byers of Boston were 12 rather uneventful rounds, but gave a fairly good exhibition, and the bout ended with Wood perhaps slightly in the lead on points.

"Battling" Levinsky and Dan ("Porky") Flynn of Boston were given a great reception when they entered the ring. They were scheduled to go 12 rounds, but stopped at the end of the sixth, with honors even. They were disappointed over the division of the money, but they made their part of the exhibition very good.

AL SHUBERT WINS

PHILADELPHIA, Oct. 26.—Al Shubert of New Bedford, Mass., last night took the measure of "K. O." O'Donnell of Gloucester, N. J., at the Olympia. The New Jersey man was never in the fight from the start. He was nearly finished in the sixth and one of his legs had been closed up.

Shubert lost \$50, forfeit on the weight, as a result of drinking beer tea and a lot of water. His weight was 121 when he entered the clubhouse, but when he stepped on the scales later he had gained two pounds.

Young Solsberg of New York, despite a handicap in height and reach, bested Artie Simmons of New Orleans.

BEECHER EARNED DRAW

ALBANY, Oct. 26.—Willie Beecher of New York earned a draw with Jimmy Duffy of Lockport here last night by his great showing in the last two rounds, in which he fought toe to toe with his opponent. It was probably the best fight ever seen in this vicinity, so far as action goes. They fought 10 seconds after the going in the 10th, and fell to their knees when separated.

BOWLING CLUB LEAGUE

The curtain will raise Tuesday evening on the newly organized Club league when the members of the Lowell Shoe workers face the Salem A.C.

This league is made up of eight of Lowell's leading social clubs named by Woodhills, Bellevues, Oxford, St. John's Nationals, Salem A.C., Lafayette and Lowell Shoe workers.

The officers elected to govern the affairs of this league are: Pres. Chas. H. Farrell, Treas. Willis J. Pettier, Sec. Wm. McDermott, prize committee: Frank Donnelly, chairman; Willis Pettier and Fred Germain.

The schedule calls for three rounds and will be rolled on the Jewel alleys. Several valuable prizes have been secured and several concerns have notified the prize committee that they will contribute shortly. Among the noted rollers who will participate in this league are: Geo. Marquis, the French-American premier roller and William McDermott, star of the All Star Manufacturers' team which holds the distinction of being the only Lowell team to be undefeated last season. Both these men will be seen in action with the Salem A.C. The Bellevues have McQuade another top notcher, while the Lafayette have Joe LeBrun of the

WITH THE DUTCH BOY
SALEM WHITE LEAD

There is no waste. It remains workable indefinitely and there is no hardening in the keg.

Besides this pure white lead, we have all the other needfuls which the painting season calls

for. The brushes in our brushes are securely set. Our colors in oil, turpentine and linseed oil, are all of the purest quality.

If you have a color scheme in mind, for any room in your house, we believe we can help you with the paint part of it.

Crescents. The following is a list of the bowlers: Woodhills, Chas. Kneiff, Capt. A. Kneiff, Buckley, Montague, Yates, Farrell, Bellevues: Tighe, Capt.; Purcell, McDowell, Ward, Anjus.

Salem A.C.: Marquis, Allen Half-Kenney, McDermott, Perrin, Lemire, Fadden, Capt.

Oxford: Donnelly, Capt.; Kirano, Kilarney, Roy, Daly.

Lafayette: Pettier, Capt.; LeBrun, Grew, Roullis, Lavelle.

Shoe Workers: Peter Germain, Capt.; Sabre, O'Brien, Walsh, Hagerman and Montgomery.

St. John's: Beauregard, Capt. (Team names not entered yet).

National: (Not heard from yet).

Schedule for this week:

Tuesday evening: Shoe Workers vs. Salem A.C.

Thursday evening: Bellevues vs. Oxford.

Friday evening: Woodhills vs. Lafayette.

St. John's vs. Nationals.

ALBERG KEEPS HIS TITLE

ZHYSZKO PINNED TO MAT IN 41 MINUTES IN BOUT AT MADISON SQUARE GARDEN LAST NIGHT

NEW YORK, Oct. 26.—Alexander Alberg of Russia, world's champion at Greco-Roman wrestling, successfully defended his title last night, throwing Waldek Zbyszko, after one hour and four minutes of wrestling at Madison Square Garden.

The men met for periods of 10 minutes, separated by a minute's rest. Alberg had Zbyszko on the mat several times, the former excelling in offensive work.

In the seventh session Zbyszko secured a body hold, held his opponent up, swung him around three times and threw him sideways to the mat. As the men fell Zbyszko was slightly underneath. Alberg grabbed his opponent's left wrist and with a side roll turned him over and obtained a chancery and body hold, enabling him to pin Zbyszko's shoulders to the mat. One fall decided the match.

Alberg weighed 225 pounds and Zbyszko weighed 230. The men met last June in an international tournament and wrestled three hours and forty-five minutes, when the contest was called a draw, as both men were exhausted.

FOOTBALL NOTES

The Artillery department of the U. S. Cartridge company has organized a football team, and is anxious to play "Lot Thirteen" Saturday, October 30, on the South common at 2:30 p. m. Send all challenges to the Artillery department, U. S. Cartridge Co.

Capt. Edward Connell, the husky left tackle of the Haverhill high team, is out of the game for the remainder of the season. Connell received an injury to his right knee in the recent football game and thinking it only a slight sprain, went about with it all day Sunday. On Sunday evening he complained of having severe pains in the knee and upon examination by the school doctor was found to be suffering from water on the knee.

Connell, who is picked by many as the greatest tackle ever developed in Haverhill, is a former Lowell boy, having graduated from the Bartlett school, where he was a star. Haverhill will miss him greatly in the Lowell and St. John's games as he is the mainstay of the front line.

An Easy Way to End
Catarrh Forever

Simple Home Treatment Destroys Germs of This Dangerous Disease

The reason why so many people who suffer from Catarrh never seem able to get cured is that they are continually seeking the monetary relief of sprays, douching, greasy creams, ointments, etc. Such things do open up the swollen nostrils and clear the head temporarily, but they do not cure. They only drive out the germs and they never get to get down to its real cause. Catarrh is a germ disease. The air is always full of catarrh germs thrown off by one person and absorbed by another and when the system does fail to throw out such germs they find permanent lodgment in the nose, throat and head and multiply rapidly.

The germs of catarrh can best be destroyed by inhaling the pure medicated air of Hyonol (pronounced Hye-on-e). This splendid and powerful combination of all of Eucalyptus with other healing agents has a wonderful germicidal action. You breathe its air into your nose, throat and lungs by means of a small hard rubber inhaler which leads drug stores in this vicinity supply with every complete treatment. This medicated air is certain death to the germs of Catarrh and drives them completely out of your system and when the germs are destroyed the catarrh with all its disagreeable symptoms will stop. Even two or three inhaled uses will give refreshing relief while if you will use it two or three times a day for a few weeks it will completely banish Catarrh and every symptom of catarrh. As Hyonol is pleasant to breathe and is always sold by druggists everywhere with a positive guarantee of successful results or money back, surely no Catarrhal sufferer should go long before trying this simple home remedy.

TO ABANDON HYPHENS

ABOUT 1500 FAVOR BEING PLAIN AMERICANS—ROOSEVELT WARMLY APPROVES OF NEW SOCIETY

NEW YORK, Oct. 26.—William Lustgarten, an attorney, head of a recently formed organization of foreign-born citizens which hopes to take the hyphen out of hyphenated Americans, made public yesterday a letter he received from ex-President Roosevelt.

"I wish to congratulate you," reads the letter, in part, "upon having started a society among American citizens of foreign birth who are emphatically against every species of hyphenated Americanism—who are Americans pure and simple, and who stand for American citizenship before all else."

In an interview telling all citizens of foreign birth to support President Wilson in his efforts to maintain strict neutrality, Mr. Lustgarten reminded them that they "must be Americans, pure and simple, and stand for American citizenship before anything else. There is no room in this country for German-Americans, Irish-Americans, Italian-Americans or any other hyphenated Americans. Either we are just plain Americans or we have made a mental reservation when we took our oath of allegiance."

Mr. Lustgarten said that about 1500 persons had responded favorably to the proposals, mostly from New York, Pennsylvania and New Jersey, 95 per cent of the responses being, he said, from Germans of foreign birth or parentage.

RECIPIENT OF BOMBARDMENT

CONSTANTINOPLE, Oct. 26, via London, Oct. 26, 1915.—The following announcement is made by the war office: "Apart from the 100 tons of bombs which were dropped on the city of Constantinople, there is nothing in particular to report."

KILLED BY A TORPEDO

BOSTON, Oct. 26, via London, Oct. 26, 1915.—A torpedo boat, attempting to cross Chelsea street, Charlestown, near the south end of the Chelsea bridge, with a load of bombs, was struck by a torpedo, which exploded, killing 41 years old, of St. Paul, Mass., and fatally injured about 100 persons. He was placed in the ambulance and taken to the City Hospital by the chauffeur, John P. Murphy, aged 19, of 1 Mt. Vernon place, Charlestown. He died at 5:42 p. m.

OUT FOR SAM M'CALL

LOCAL CORPORATION WORKING AMONG ITS EMPLOYEES FOR ELECTION OF REPUBLICAN

It is reported that a local corporation is distributing books calling for the election of McCall and Cutting. These books are not being given to all the employees of the company, but only those who it is said are susceptible to dictation. On the cover of the book is the inscription: "Indorsed by all the Labor Unions." This assertion is erroneous, and one employee of the corporation who is a member of a union, but did not get a book, says that as a matter of fact the present governor has not the endorsement of the greater part of the unions.

BARYOUNG ADVENTURERS

WILL NOT BE ALLOWED TO LAND ON BRITISH SOIL—MANY SAIL AS HOSTILES

WASHINGTON, Oct. 26.—So many adventurous young Americans have been working their way across the Atlantic on the horse and mule transport, with the purpose of enlisting in the British army, that the British navy has ordered yesterday that hereafter such persons would not be allowed to land on British soil.

Many of these Americans have been under age, and in some instances their parents have secured their discharge from the British army and return to the United States, through representations by the state department.

In the future any Americans reaching British ports as hostiles will be required to continue in the same service or return home.

EVERETT ALDERMEN TILT

Clash Between Mullen and Hobbs Over Sidewalk Construction on Holster St. Enlivens Meeting

EVERETT, Oct. 26.—A tilt between Aldermen John J. Mullen and Clinton E. Hobbs culminated the meeting of the board of aldermen yesterday afternoon. Alderman Fred C. Hansen had introduced an order for the construction of certain sidewalks on Bolster street in compliance with a petition of the abutters, who had agreed to pay one-half the cost.

Alderman Mullen protested that the residents of the street should be given the same privilege as those in other parts of the city, that is to have two years in which to pay the assessment. Alderman Hobbs stated that the abutters in their petition had made the proposition as provided in the order. Mullen said he had been informed that such was not the case, whereupon Hobbs called on him for proofs. Mullen declared that that was his business. The order was passed.

Mullen introduced an order instructing the board of public works to clean the streets which Chairman Faulkner referred to the board of public works. As the meeting was about to adjourn, Mullen hurried to the clerk's desk with an order calling for the expulsion of Alderman Hansen on the ground that he had been found guilty of assault upon Mullen. Before the order was read Hobbs moved adjournment, which was carried.

TURKS ON BLACK SEA COAST

LONDON, Oct. 26, 11:30 a. m.—The report that Turkish troops are being concentrated at Burkas, Varna and other points on the Black sea coast of Bulgaria is reiterated in advices received here today from Athens.

Reuter's correspondent says that the Turks are to oppose Russian attempts to land troops, having replaced the Bulgarian forces. It was feared the latter could not be counted on to resist the Russians.

A despatch to the Exchange Telegraph Co. says: "Five thousand German soldiers from Constantinople are replacing Bulgarians at points on the Black sea coast. Defense of the coast has been entrusted to German troops."

The Reuter despatch asserts the damage inflicted on Deftelgatch by the bombardment of an allied fleet last week was considerable. The extent of the property loss is due largely to fire, which, fanned by a high wind, swept through the congested shipping quarter.

RUSSIA TO HELP SERBS

PARIS, Oct. 26, 1:20 a. m.—Russia has completed preparations for the despatch of strong forces to help the Serbs at points where they are most needed, according to the Petit Parisien.

BANK OF ENGLAND BUSY

EXCESSIVE ACTIVITY OWING TO PAYMENTS ON LAST INSTALLMENT OF LOAN

LONDON, Oct. 26, 10:55 a. m.—There was unusual activity at the Bank of England today, owing to payments on the last installment of the 4½ per cent loan issued in June. The last day for the conversion of pounds and the old 2½ per cent war loan into the new loan was four days hence and arrangements were made whereby subscribers could pay in advance with post dated checks.

No official announcement has been

made regarding the form which new government borrowing will take. Some indication is seen in financial circles, however, in the recent efforts to keep up money rates. It is believed that as a means of financing the war temporarily the government will issue treasury bills made attractive by a slightly higher interest rate. These it is thought, will be followed later by emissions of exchequer bonds running one to three years.

ARGUE IN WAGE DISPUTE

James M. Swift and James H. Vahey, on Opposite Sides of Trouble Controversy at Providence

PROVIDENCE, Oct. 26.—Attorneys representing the Rhode Island company and the Street Car Men's union began their arguments yesterday in the wage dispute before the board of arbitration, which was appointed following a two-day strike several months ago. James M. Swift, for the company, offered as the company's main reason for refusing a wage increase its present

Is Your Stomach Clogged With Waste?

Druggists Guarantee to Return the Money if Mi-o-na Does not Relieve You

It's a pleasure to sell a medicine when customers come in afterward and tell you how much good it has done them.

Druggists everywhere can tell of this experience in their sale of Mi-o-na, the well-known stomach remedy. And that is the reason why they are always glad to sell and recommend Mi-o-na. It does its work and ends all stomach distress just like the Mi-o-na people say it will. As a result of this success most every druggist goes a step further and sells Mi-o-na on a positive guarantee that unless it helps the purchaser he can have his money back. That may seem rash, but customers have said so many good words in Mi-o-na's favor that very few packages are likely to be returned.

Anyone who has dyspepsia, whose food does not digest well, and who has to take thought as to what he can eat, and when, can have 50 cents' worth of any drug store and take home a box of Mi-o-na and if the remedy does not regulate his digestion and help his dyspepsia he can draw his money back. This shows great faith in the merit of Mi-o-na. It is really a most unusual medicine and the rapid increase in sales since it was introduced in Lowell shows that it does all that it is claimed to do—relieves dyspepsia, regulates digestion and enables those who use it to eat just what they want with no fear of trouble afterward. Sold by any leading druggist in this vicinity.

HONESTY IN ADVERTISING

Doesn't necessitate any change in ours, as we have always hewn close to the line.

GOV. WALSH'S RECORD

In their last desperate rush to create favorable sentiment for their candidate, the republicans of Massachusetts have lined up a formidable array of oysters and political plunders. These, heedless of logic or fact, strain every point to gain their ends and advance many vague arguments and indirect accusations to bolster up Mr. McCall's plea for votes as a protest against the administration of President Wilson. They are confronted with one serious obstacle which is worth many partisan speeches—the record of Governor David I. Walsh. This record is the real issue and on it Governor Walsh bases his candidacy like the sincere and courageous official he is.

In considering the record of Governor Walsh, it must not be forgotten that his achievements were accomplished in the teeth of the strong and insidious opposition of a republican legislature. How cleverly that opposition was carried on, he has revealed in his clear exposures of invisible government at the state house, but in spite of opposition and secret hostility, he has left a record of progressive and humanitarian accomplishments which no republican splinterer can obliterate.

A review of a few of Governor Walsh's accomplishments will prove worth considering. He has proved himself the friend of the wage-earners, for in one year he has increased the benefits to injured workmen \$80,815.00; he has increased the amount paid to widows and children of employees killed at work \$123,093.00; he has befriended the farmer by vetoing a milk bill which would have destroyed the milk industry of the state, and by obtaining an appropriation of \$2,500,000.00 for good country roads; he has inaugurated a system of free educational correspondence schools for ambitious citizens who are unable to pay for higher private education; he has established a health department which is claimed to be the best in the country and which even his opponents do not condemn in any particular; he has secured a free ballot by causing to be removed from the election laws the requirement for a party enrollment, and he has worked hard for cheaper life insurance, a much needed reform of the taxation system and the better control of public service corporations.

Any one of these reforms would afford ground for eloquent arguments in support of Governor Walsh, but such is not the purpose of this brief review. They are quoted merely to offset the opposition of a selfish political group which to set back into power in Massachusetts does not hesitate to calumniate the governor and strive to ridicule his achievements. The thinking voter who has kept in touch with the legislature has ample proof of the difficulties which Governor Walsh has surmounted and of the vast program of constructive reform which he has to his credit, all planned and executed in the interest of the people of Massachusetts.

OPPOSING THE PRESIDENT

The fact that the German-Americans are thus early organizing to oppose the re-election of President Wilson will only strengthen him if he becomes a candidate. When the president of the United States by defending the honor of the nation incurs the enmity of any element the forces of patriotism throughout the land will rally to his support and to overthrow the factions that would assail him because he refused to permit any outrage to be perpetrated upon this country with impunity. The German-Americans should remember that it is the country is observing a policy of neutrality in reference to the war and that if England had committed outrages against the United States equal to those perpetrated by Germany she would have been held accountable with equal or even greater firmness by President Wilson. The German-Americans cannot show wherein our government has been unfair as between the belligerents, considering the nature of their respective acts involving the rights and the honor of this nation and the safety of its citizens.

At the meeting held in Worcester were college professors who are apparently unsafe leaders for the patriotic and progressive German element of our population. Any general opposition to President Wilson on account of his having forced Germany to change her submarine policy cannot fail to injure those concerned in it. Had he failed to take the action he did he would have been unworthy of the high office he holds.

There seems to be a prejudice against him also for permitting the manufacture and sale of munitions. He cannot stop the sale of munitions. Had he adopted such a policy at the outset of the war he might possibly have had the right to do so, but after the war had been in progress for over six months and all the belligerents had ordered supplies from him, it is not to Germany to fight as the change the policy because Germany was driven from the seas would be a violation of neutrality. That Germany can no longer draw upon this country for munitions is an incident of the war and her misfortune, not our fault.

WALSH QUESTIONS McCALL

At the monster democratic rally held at Tremont Temple, Boston, last

Saturday evening—a rally, by the way, which aroused unprecedented enthusiasm and revealed the unquestionable popularity of Governor Walsh—the governor put some very pertinent questions up to the republican candidates, reminding him that the state is more interested in what the candidates pledge themselves to do, or to attempt, than in abstract discussions of the tariff or the Wilson administration in general. The questions were direct and to the point and they deserve a direct answer.

Among other things, Governor Walsh asked Mr. McCall to define his stand on the Ellis milk bill, on the reform of taxation, on the railroad issues, on an investigation of telephone service and charges—killed by the republican legislature through "invisible government" methods,—on the appropriation of money for popular education, on the initiative and referendum, on the "reasonable hours and conditions of labor" of the republican platform, on the plans for the reorganization of the New Haven railroad, and so on. Surely all of these things are of vast importance to Massachusetts which will be affected by their disposition far more than by President Wilson's Mexican policy or any act of or by the national administration. President Wilson needs no champion while there is a world war, and Governor Walsh wisely refrains from making an issue of Washington policies. He shows far more interest in the state and in its people by discussing his record in detail and asking Mr. McCall to be more specific in his campaign utterances.

FOR U. S. TRADE

The United States government is not waiting for the end of the war to make practical plans for trade extension, the surest proof of the contrary being afforded by increased estimates of the department of commerce, with appended reasons for the heavier expense. That the activity is justified will be admitted by all who realize the great plans being made by the belligerent nations, even during the war period. At the cessation of hostilities the nations will strive to regain what they have lost and one of the most direct means will be through the extension of foreign trade. When the heavily-taxed warring nations make such plans, it would be shameful for this country to be found wanting after its blessed period of peace and prosperity. If the department of commerce may have its way, we will be ready for an extraordinary increase in trade at the culmination of the struggle.

The plans include the complete reorganization of the bureau at Washington, the hiring of many more employees, the sending of experts abroad in greater number, plans for comprehensive investigations of trade fields, and means to facilitate the linking of the producer with the foreign markets. Statistics and tables will be published daily, keeping the manufacturer and owner of raw product in this country in touch with needs everywhere, and by co-operation the government will strive to create favorable sentiment towards American business in the markets of the world.

SEEN AND HEARD

A brand-new suit case with a lot of European labels on it now is a dead give-away.

Even when you don't believe half of what you read, you may get into trouble by believing the wrong half.

If anybody asks you suddenly how many days it will be to the next low holiday, just count up the days till Sunday.

There is also the person who took in the moving pictures the night before, and who insists on telling you the story of the films.

It is hard to say which is the most objectionable, the person who disagrees with everything you say, or the person who agrees with everything you say.

Angels Didn't Show
"Mamma" called four-year-old Harold from the nursery, "Please come and sit by my bed until I go to sleep."

"Mamma's busy now," was the reply. "Go quiet and the angels will be with you."

"You said that before, mamma," rejoined Harold, "and I have kept quiet ever so long, but not a blessed angel has showed up."

Spirit Column Defined
A teacher was explaining the nature of the spirit column to a class of 12-year-olds. After finishing the lesson she said to a little boy:

"Now, my boy, what is the spirit column?"

"I don't know," he replied thoughtfully, "but I'm sure it's something that runs up and down, year back. Yet head sits on the end, and you sit on the other."

The Tale of a Fish
A fish's tail is its witness. Owing to the machinery of muscle set along its spine and to its cleaving form a trout or salmon can dart through the water at a tremendous pace. Though its eyes are dim, its sense of touch is acute, and for over six months and all the belligerents had ordered supplies from him, it is not to Germany to fight as the change the policy because Germany was driven from the seas would be a violation of neutrality. That Germany can no longer draw upon this country for munitions is an incident of the war and her misfortune, not our fault.

positions in life," said the senator. "A tramp, however, came under my observation who had no illusions about the cause of his own condition."

"A fine looking and fashionably dressed woman had just alighted from her limousine at the hotel entrance and was suddenly approached by this shabbily dressed man, who requested a dance."

"No, I have no money to spare for you," she said. "I do not see why an able-bodied man like you should go about begging."

"I'm a man," replied the lady, "and I'm for about the same reason that a healthy woman like you boards at a hotel instead of keeping house."

Husband to Blame
He was deeply in love with his wife, but awfully careless about money matters. He started away on a long business trip, leaving her short of money and promising to send her a check— which he forgot to do. The rent came due and she was threatened.

"Dead broke," landlord insisted. "Wire me money."

Her husband answered: "Am short myself. Will send check in few days. A thousand kisses."

Exasperated, his wife replied: "Never mind money. I gave landlord one of the kisses. He was satisfied."

Owed Success to Chance
A young man in the Kimberly diamond mine, been experimenting for months in an effort to find a way to separate diamonds from other stones so as to eliminate the tiresome, tedious, hand-picking process. His efforts and labors had all been in vain, but he refused to be discouraged and adhered to his purpose.

One day he was working at his bench when a small diamond and a garnet happened to be lying on a board before him. In some way he tipped the board at such an angle that the two sections rolled together toward the edge. It happened that there was a small crack in the board, and when the diamond reached it, it was stopped and held, while the garnet passed on and fell over the edge.

Wondering whether this had been a mere accident or whether the garnet possessed the peculiar property of attracting diamonds and allowing other stones to pass by it, he tried again and again with the same result. He discovered soon built a machine which was a success from the very beginning. In a short time it was doing all of the work that had formerly been done by hand, saving considerable time and expense in the operation.—Pittsburger.

When Frost Is on the Pumpkin
When the frost is on the pumpkin and the feller's in the shock, And you hear the kuynek and gobble of the struttin' turkey cock, And the clackin' of the guineas and the cluckin' of the hens, And the rattle of the feller as he tips on the fence, Oh it's then the time a feller in a feller's at his best, With the risin' sun to greet him from a night of peaceful rest, As he leaves the house, bare-headed, and goes out to feed the stock, When the frost is on the pumpkin, and the feller's in the shock.

They're something kind of hearty-like about the atmosphere When the heat of summer's over, and the coolin' fall is here— Of course we miss the flowers, and the blossoms of the trees, the hummin' birds, and buzzin' of the bees; But the air's so appetizin' and the landscape through the haze Of a crisp and sunny morning of the early autumn days Is a color that no painter has the power to make.

When the frost is on the pumpkin and the feller's in the shock, The husky, rusty rattle of the tassels of the corn, And the raspin' of the tangled leaves as golden as the morn; The rattle in the furries—kind of lonesome-like, but still A preachin' sermon to us of the barns they grewed to fill: The straw stack in the meadow, and the reaper in the shed; The horses in their stalls below,—the driver overhead— Oh, it's then the time a feller in a feller's at his best, When the frost is on the pumpkin and the feller's in the shock.

Germany has announced the removal of restrictions in the case of young girls under 15 who wish to marry.

Women Know
that they cannot afford to be ill. They must keep themselves in the best of health at all times. Most of all, the digestive system must be kept in good working order. Knowing the importance of this, many women have derived help from

A QUARTER CENTURY AGO

Two gentlemen, aye, gentlemen and scholars down to the boots, both of them were seated in a hotel of the recently, discussing the questions of the day generally, and a carefully selected menu, in particular, when one of them asked:

"Why do men gamble?"

"The gentleman who asked the question was Mr. H. Addington Bruce, the noted scholar, scholarly writer, and prince among men."

He who, Yankee-like answered the query by propounding another, was a well known resident of Delvidere, likewise a scholarly gentleman, and of the name of the earth."

Hence it was with more than ordinary anticipation that I opened the pages of the Sunday magazine, last Sunday, to what proved to be a decidedly entertaining and thoughtful article on the subject: "The Man Who Gambles," from the pen of H. Addington Bruce. In the course of his article Mr. Bruce referred to the superstition of gamblers as follows: "The savage is impelled to gamble, not because he has nothing else with which to occupy his mind, and because he is extremely superstitious. There can be no question that the same superstitious streak lingers to some extent in the most civilized of men, and that it plays a part in the making of the civilized gambler."

"Modern gamblers as a matter of fact, are proverbial for their superstitious notions. Like the savage, they have their unseen deities which they worship under the abstract name of Luck. Like the savage, too, they have all manner of curious rites and customs to persuade Luck to smile on them."

"For this purpose they carry the foot of a rabbit, a cherished coin, or a 'lucky-stone.' To propitiate Luck they will go far out of their way to touch a hump-backed man before engaging in any gambling enterprise. When, at cards, a gambler is steadily losing, he will ceremoniously walk around his chair, and, passing the legs of the other players, he will touch the leg of each of them. At every turn of the wheel, throw of the dice, or deal of the cards, the gambler perceives the all-powerful influence of Luck. The gambling habit has as one of its roots, superstition."

Mr. Bruce appears to have an almost encyclopedic knowledge of the different signs, tokens, omens and practices used to invoke the aid of luck. But I'll venture the assertion that with all of his profound knowledge he has never heard of "The Sheppard ham."

Superstitionally gifted and infallible champion luck-involker of the wide world, Samuel J. Lowell, Mass., warranted to dig out luck anywhere, under an avalanche of adversity, a cure for all ills that are, and a preventive for all that may be, and not the least of its priceless properties, possessed of the power to impart to him who wears it immunity from a last.

"The Sheppard ham gets its title from one 'Dr.' Sheppard, a negro celebrity of Savannah, Ga., who for the past quarter of a century has been getting by among the folks at home in various ways, ways that mostly are dark, and with tricks that likewise are vain. The doctor gets his title from two sources, firstly, a doctor of divinity, the title having been conferred upon him, rather than conferred upon him, in which he has quite a following; and secondly, as a 'divine healer,' spelling the last word with an 'a' rather than double 'e' in which he has even a larger clientele. His method of 'healing' is to supply his patients for a respectable remuneration, with a paper on which are inscribed certain numerals, letters, unpronounceable signs and crude pictures, which when placed and worn over the heart of the vic - patient, is an absolute cure for all his ills."

As a side-line the doctor sells for the most sum of ten dollars, he celebrated, "Sheppard ham" as long as its purchaser has it on his person he is supposed to be exempt from disease, danger or arrest."

Like the laws of the Medes and the Persians, that Sheppard ham has been something to conjure by for quarter of a century, and only once has its infallibility been brought into question, and that happened only one week ago in the Savannah police court before my old and esteemed friend, Judge John Schwarz. It seems that the police unexpectedly descended upon a party of 30 residents of Savannah who were sitting in a room, mostly following with sparkling eyes the rolling of a pair of dice while "Come on, der you seven," "Big Dick," "Little Phoebe," "All fade yer, hon," and similar strange exclamations shook the stillness of the midnight air. After the police had cleaned up the players and arrested everything else in the apartment worth taking away, one of them found on the floor a small, heart-shaped object, which turned out to be one of the famous Sheppard hams. The owner of the ham, who promptly claimed it, stated that it must have fallen from his pocket, and hence as it was not on his person when he was arrested, he still has faith in it, and asked the court, solemnly vowing to securely fasten it in the future. But Judge Schwarz confiscated the precious ham and deciding that the state of Georgia had no particular use for it turned it over to his friend, Col. William L. Grayson, also of Savannah, national president of the Eagles, and well known in this city.

Col. Grayson, accepting the gift, said: "Your Honor, if there's one man in this wide world who needs a little luck, it's my friend John J. Dawson. Way up in Lowell, Mass., and if there's any luck in the thing, Dawson is going to get it."

The ham was duly received a few days ago by Mr. Dawson, and with that result that when John attended a meeting of the Village Improvement Society, before going he placed on the ham and hoped that something

new and profitable would come into his humble and somewhat dreary life. And sure enough, something decidedly new for John came along that very night; new success, four times, all K's. And the following day, he was drawn on the jury!

Surely the Sheppard ham, am de ham dat am!

Tom Clifford Here
A week ago a visit to the Merrimack Square theatre to see Jack Mason in the movies reminded me of the theatricals of a quarter of a century ago. Again I looked in at the same theatre on Sunday, and there I found another grand old-timer, though an old-timer who is still going and going as good as of yore, the exemplification of the old adage about old wine—Tom Clifford, baritone. Who among old-time theatricals does not recall the thrill that went through him quarter of a century ago, when he seated at a performance of the original production of "The Old Homestead" in the Grace church seen the hidden organ suddenly burst forth in stately harmony and the magnificent voice of Tom Clifford, from an invisible choir, filled the theatre with the triumphant melody and gladsome words of "The Psalm"? That grand hymn has been sung from the Atlantic to the Pacific and across the water by stars of high and low degree, but it was Thomas E. Clifford who brought it out and made it famous while the celebrated soloist in Denmark Thompson's own and famous company of years ago. There were other subsequently great singers who were members of the double quartet in that company, notably Hosen, the counter-tenor, and Philman, the basso, but Tom Clifford was the vocal star of that aggregation. The Denmark Thompson company was to New England what Harrigan and Hart, of days gone by, were to New York, neither need go out of its own immediate neighborhood to fill out a successful season, though the Thompson company would go as far away from home as New York, while Harrigan and Hart sometimes would run over to Boston. Mr. Clifford remained with Mr. Thompson's company until the latter decided to head the world of his business manager, who had received requests from all over the United States to appear in its leading cities, and booked up for a tour of the country that would run for 68 weeks, or over a year. Mr. Clifford declined to remain away from dear old Boston as long as that, and instead he booked up to become a member of the original company presenting "The Sunshine of Paradise Alley," a production in which Mr. Thompson was financially interested, and which made a big hit on the road, it was with this company that Johnnie Quigley, at present one of the best known and most successful theatrical booking agents in the east, first met Mr. Clifford. THE OLD TIMER.

VICTORY IN BAY STATE

MAUGHEIT POLY SURE MASSACHUSETTS WILL VOTE FOR WOMAN SUFFRAGE

BOSTON, Oct. 26.—Miss Margaret Foley, who last night made her first appearance in Boston after a tour of the entire state, declared, in opening the final week of the suffrage campaign with a rally in Faneuil hall, that she was convinced the men of Massachusetts were going to stand by the suffragists and give a greater plurality in favor of the cause than has ever been given in any other state.

"I cannot believe that Massachusetts is going to do what that miserable dump, New Jersey, did," she said. "New Jersey is the most lousy-ridden state in the Union and I am really surprised that more than 110,000 votes were cast in support of the cause of the opposition that we encountered there."

"They even secured a man who had a quasi connection with organized labor to issue a pamphlet stating that suffrage was opposed to the tenets of labor principles. In refutation of such slanderous statement I need only quote the records of telegrams written to the suffrage organization and labor leaders all over the country endorsing the fight for equal suffrage."

"There has been too much of the commercial element in politics, and to have a well-balanced state a little of human side of life must be infused into government and this will never be accomplished until women get the vote. I have heard it said that women could never master the details of finance, but when it comes to the economical use of money, I would trust to a woman's judgment over a man's any day. At any rate, long years of experience has made man think in the millions of dollars and cents, while woman's experience has been in the hundreds of dollars and cents. Her thinking is of the home and of children. Now persons usually vote as they think, and it is impossible to say that the state will not be benefited by the introduction of a new factor of political thought."

Wendell P. Thore, who presided at the meeting and who is the sponsor for the non-contributory old age pension referendum that is to be voted on in several cities, and I toward the election day, declared that old age pensions could never be secured without the support of the women."

Mr. Thore also issued a challenge to the chamber of commerce to debate with him the old age pension question.

The publicity man of the suffrage organization, William H. McKeesters, also spoke at the meeting, and quoted statistics to show that in California, where woman suffrage prevails, there are nearly twice the number of male registrations of Massachusetts, although the state has nearly 1,500,000 less population.

"If woman suffrage can result in

CHARLTON GUILTY

Sentence 6 Years, 8 Months—Amnesty Reduces This to 29 Days

COMO, Italy, Oct. 26.—Porter Charlton, the American who has been on trial here charged with murdering his wife in 1910, was yesterday condemned to six years and eight months' imprisonment.

The jury found Charlton only partially responsible and that there were extenuating circumstances.

Owing to amnesty Charlton will serve only 29 days in prison.

Charlton, under the verdict, benefits by the time he has been under restraint and in addition a year is taken off the sentence under the amnesty for all offences committed before Italy entered the war.

Even though he was greatly pleased over the verdict of the court, viewed with pleasure his approaching liberation from custody, Charlton retained his usual restrained and almost passive attitude. He thanked all those about him for their congratulations.

Charlton said that after his release he would return to the United States and join his family.

Charlton's wife was Mary Scott Castle, who attracted public attention in New York just before her marriage by unsuccessfully attempting to shoot William B. Craft, a broker. Soon after their marriage the couple came here to live, their life, according to Charlton, being one of dissipation which wrecked his nerves.

Baron Sciacca, the presiding judge, before the case went to the jury, asked Charlton whether he had anything to add to the defense. With tears in his eyes, Charlton exclaimed:

"I trust entirely to Italian justice. I can only say that I am a most unfortunate man."

Both the prosecutor and counsel for the defense made stirring pleas, the former for the imposition of a heavy sentence, and the latter, composed of Signors Gaietta and Mitchell Picardi, for acquittal on the ground that the prisoner was totally irresponsible when the crime was committed.

Signor Picardi declared that no man in Charlton's condition could be responsible for his actions under any law.

SUCCESSOR TO DEL CASSE

NEW FOREIGN MINISTER TO BE SELECTED AT TODAY'S MEETING OF CABINET

PARIS, Oct. 25. 415 a. m.—The question of a successor to Theophile Del Casse, who recently resigned as foreign minister, will be definitely decided at today's meeting of the cabinet. It is understood that the new foreign minister will be an incidental member of the present cabinet, who will be replaced by a former premier now holding a more modest post in the cabinet.

The new minister whose nomination will necessitate the taking from the radical left group to which Del Casse belonged, thus maintaining the united character of the administration.

VIOLIN 250 YEARS OLD

Social Gathering at Home of Mr. Robillard—Heard Selections on Harp Instrument

A pleasant social gathering took place Sunday afternoon at the home of Mr. and Mrs. L. J. Robillard, 728 Moody street, and a feature of the evening was violin selections upon an instrument 250 years old, owned by Charles Lambert. About 25 friends were present and a delightful musical program was given, those taking part being Conrad Laquette, Charles Lambert and Eugene Guilbault, talented violinists; L. J. Robillard and J. Guilbault, pianists, while vocal selections were also given by many of those present. Refreshments were served, and the party broke up at a seasonable hour after extending their thanks to their hosts for their cordial hospitality.

BIG REPUBLICAN RALLY

McCall, Sen. Harding and Nick Longworth, Speakers—Walsh's Administration Unscathed

After running second to the Y.M.C.A. in a street parade of autos last evening, the republican big guns held a rousing rally in Associate hall, which drew a crowded house, for the fame of the list of speakers was sufficient to draw a crowd anywhere.

Outside of the "men from home" there were present as speakers at last evening's event two national characters from afar, U. S. Senator Harding and Congressman Nicholas Longworth, both from Ohio. The senator had come as a campaign speaker, but unfortunately, and it was noted thus at the time, he was not the speaker until the last. Senator Harding, while not exactly a "raucous" orator, gave the boys what they liked to hear for campaign eloquence and his wit and humor lived up to his remarks to the effect that he had left the hall while he was still in the hall, and that he had gone away before he had been introduced and hence missed the best part of the rally. It was noticeable that none of the speakers had a word to say against the administration of Governor Walsh. They seemed the republican state ticket on the ground that Massachusetts should elect a republican governor to help out the national ticket next year. They called for national issues but they carefully refrained from saying much in criticism of the past administration, and their silence upon the question of our present relations with the warring nations of Europe was especially noticeable. Prior to the rally Hon. Samuel McCall was tendered a dinner by Congressman Rogers, at the Richardson hotel, and after the dinner reception was held, about 7.30 o'clock the parade from the hotel to Associate hall was held. The line was led by the Sixth Regiment band and the speakers and "leading republicans" followed in about a dozen autos. Upon arrival at the hall they were escorted to the platform where the republican party was represented by Reps. Achin, Lewis and Colburn and County Commissioner Barlow. State Treasurer Burrill occupied a seat on the platform.

Hon. Butler Ames
Ex-Congressman Butler Ames called the gathering to order and after referring to the present prosperity of Lowell being due to the war in Europe rather than to any domestic conditions, he stated that the democratic press is trying to make the republican states either to the prohibition or progressive parties for the purpose of doing their own cause. Let an obscure minister speak on prohibition and the democratic press will print two columns of it but let a republican campaigner appear and he'll not get a quarter of that. He then congratulated the democratic papers an opportunity to cut down his remarks for he cut them himself and proceeded at once to introduce the candidate for governor, Hon. Samuel McCall.

In presenting Mr. McCall, Congressman Ames said: "When you choose your governor you don't want just a mediocre man; you want the very best you can get, and that is why there has been brought forward for your consideration, Hon. Samuel McCall, the governor-to-be." Mr. McCall, the speaker, then said that he was not enthusiastically and when the applause had subsided he addressed the gathering in his cold and farrier like way.

Mr. McCall's Address
Mr. McCall said in part:
This city of Lowell has suffered from the Underwood bill. Already some of its important industries are on the point of collapse and others are moving away, notwithstanding the fact that the war has very much mitigated the situation by reducing the competition from abroad. You will face a serious condition when the cotton mills of Europe shall again work on full time, and when we shall have no war orders to fill on this side of the water. This is not a matter of politics with the men who employ or with the men who are employed. It is a matter of a living with both classes. What ever struggles you have with each other or as to division of the fruits of prosperity there cannot be the slightest difference between you on the question as to whether we should have prosperity to divide. You all favor prosperity and if I mistake not, many of you will refuse to vote for the democratic label and you will respond as your own interest and the interest of the country may require when you vote upon the demand of the democratic party that Massachusetts shall endorse the Underwood tariff bill.

It may be ideally a splendid thing for you men of Lowell to be governed by laws passed by gentlemen from Georgia and Alabama, exponents of their ancient history, but it must be admitted that the luxury comes at a pretty high price when you throw away two days of your labor every week for that privilege. Just now Lowell can assert herself. In fact the democratic party has asserted herself. The democratic party has been guilty of the grossest extravagance in administration in Washington and also in the state house so far as its jurisdiction extended in the latter place. These high taxes in the last analysis come to a great extent out of the workingman's dinner pail. They are passed along to him. He pays higher rent, he pays higher prices for his food, there is no doubt that the workingmen of the country have paid hundreds of millions of dollars each year for the privilege of having its Underwood tariff bill and many of you men in Lowell have paid roundly for the pleasure of having that bill. It has cost some of you who work in these industries as high as \$8 or \$5 a week in loss of wages. What man has saved a dollar in that decreased cost of living that was made the excuse for the passage of this free trade legislation?

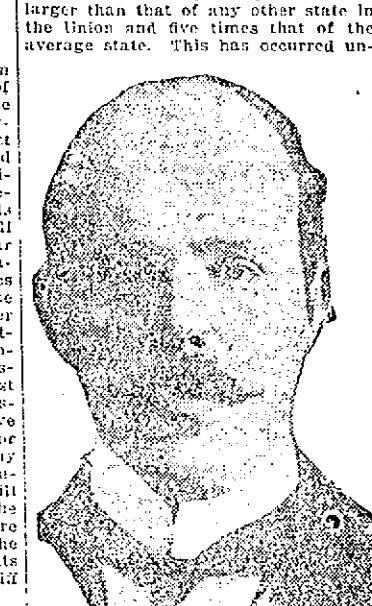

I think it is of great importance that the legislature and the executive of the state should be under the same political control. There is a division of responsibility. If there is extrac-

agance, if the appropriation bills are too large, or if a bad piece of legislation is passed, the executive tries to throw responsibility upon the legislature and the legislature upon the executive. On the other hand, if there is a good measure, then we see the appropriation for good roads. Mr. Walsh has been speaking in western Massachusetts as if he were the apostle and discoverer of good roads. But quite the contrary, I understand that the movement which ripened into the very wise appropriation by the last legislature of \$2,500,000 for the five western counties was first championed by senators and representatives in the Connecticut valley and their earnest efforts materialized in a bill. Of course the governor could have vetoed the bill, but to approve a measure after it has been passed by a republican legislature hardly warrants one in monopolizing the full credit for it. If the executive and the two houses were of the same party there could be no evasion of responsibility, but the people would know whom to blame for what was wrong or to whom credit should be given for the good things that were permitted to appear in our state government. They could squarely locate the responsibility for the enormous increase in expenditures which is making our high taxes something very serious and a heavy handicap upon our industry. We have become the most expensive government in the world. Our debt per capita is much larger than that of any other state in the union and five times that of the average state. This has occurred un-

U. S. SENATOR HARDING, OF OHIO

olizing the full credit for it. If the executive and the two houses were of the same party there could be no evasion of responsibility, but the people would know whom to blame for what was wrong or to whom credit should be given for the good things that were permitted to appear in our state government. They could squarely locate the responsibility for the enormous increase in expenditures which is making our high taxes something very serious and a heavy handicap upon our industry. We have become the most expensive government in the world. Our debt per capita is much larger than that of any other state in the union and five times that of the average state. This has occurred un-

HON. NICHOLAS LONGWORTH, Ohio Congressman

der the system of divided responsibility. That is not a good thing to have in a sort of government like ours. There should be a unity of government and the great political departments should not be playing against each other. This is quite as important as the overhauling of the commission system. We have some 50 little executives, little governments in themselves, with their clerks, deputies, inspectors and the other paraphernalia of power, and they are running an exceedingly complicated and expensive governmental machine. The system of commissions should be co-ordinated. Those that are good should be reformed, and those that are bad, wholly wiped out of existence. There should be no duplication of expense, but each commission should have a well marked jurisdiction of its own and there should be no "twilight zone" between these different bodies which might be covered by more than one commission and the cost of government thus increased.

The progressive and republican parties have come together this year. They have adopted in Massachusetts, Mr. Charles Sumner Bird, Mr. Joseph Walker and nearly every man of light and leading in the progressive party is with us. Democratic governors have been elected in this commonwealth by a minority of the people. Mr. Wilson was elected, although he received few-

er votes than Mr. Bryan had received in his first free silver campaign and we have had that rule of the minority which is odious in a republic. But the Civil war in the republican ranks is over. We are coming together again. Attempts are made now to create a new division again in favor of the democracy. The two practical alternatives before the people of Massachusetts are whether we shall have put in power the republican or democratic. It is not a choice of evils by any means. It is the duty of a man to secure the best he can obtain at the moment for his country. Because he can not at once reach the millennium it is no excuse for him to refuse to make a choice between the only practical alternatives and make such progress as is obtainable. If he should do that he might thereby give to his country the thing that was for her injury and he could not escape responsibility for that.

Nicholas Longworth
Congressman Longworth of Ohio, son-in-law of the untitled Bull Moose himself, was perhaps the headliner on the program and the crowd gave him a great reception when he was introduced. Congressman Longworth has been painting his celebrated "tail-wagging" in covering territory for the jumper from Ohio on Sunday noon to play a "one night stand" in New England. He proved to be a fairly good talker and held the crowd, but he made some very absurd statements.

Hon. Nicholas Longworth proved a good speaker, and his auditors took kindly to him. He said he was playing a "one-night stand" in New England, for today he starts for New York, where he will speak at a political gathering tonight. He said, in part: "The one hope of the democracy today is the popularity, in some quarters, of President Wilson. They are trying to capitalize that popularity into a party asset as an offset against the liabilities of their slow motion and conservatism. No one questions that President Wilson is greater than his party. His complete control over, and his facile manipulation of the last congress proved that. No one questions that he is more popular than his party. He has an almost uncanny faculty of obtaining credit for everything of good that may happen, and shedding onto the shoulders of some individual or of the party as a whole responsibility for the bad. He is the luckiest man that ever sat in the White House."

Just as the country was becoming fully awake to the disastrous consequences, both to the nation's industries and to its revenues of the tariff law, for which he was mainly responsible, war came and distracted public attention from the tariff and other shadowing as it did all else, it offered the opportunity, immediately seized upon, to transfer the blame for approaching national bankruptcy upon circumstances which have nothing whatever to do with it. It artificially revitalized our dying industries by making them the main contributors to Europe's war effort. It forced our foreign trade from a loss in the year previous of more than 20 per cent to portions hitherto unheard of. It greatly relieved the international aspects of the Mexican situation, for he well assured that, had it not been for this war, a situation was developing, due to our faltering and pusillanimous policy in Mexico, that would surely have brought us into serious altercation, if not war, with one or more European powers.

Again, when, as a result of the war diplomatic questions of the gravest import were suddenly thrust upon us, his lucky star again shone brightly when he received the resignation of a secretary of state notoriously unfit for the position.

Unemployed luck has been so far the portion of the Wilson administration, but it is luck predicated upon the greatest disaster in the world's history, and cannot and ought not forever to endure. It has seemed to me that we republicans on the firing line have been altogether too mealy-mouthed about discussing the Wilson policies, foreign as well as domestic. It is as though an order of sanctity pervaded the maintenance of our neutrality. No doubt a very large portion of the American people have approved and would approve any policy, the result of which has been to keep us out of war. The American people don't want war. We would be foolish if we did, for we have not been, and are not now in the least degree prepared for war, either offensive or defensive. Practically no war has been at war during this administration, unless we count the little one that we had with Mexico at Vera Cruz. At that time Uncle Sam showed his teeth. Through Woodrow Wilson and William J. Bryan, his attorney in fact, he demanded an apology for an insult to our flag. We sent the armed forces to enforce our demand. It is true that that apology was never made. We sailed away with the taint of insult to our flag unremoved. The blood of American sailors, not many, perhaps, judged by modern standards, but more than our entire army lost during the war with Spain, was left to mingle with the blood of peaceful American slain and women outraged on Mexican soil, but still were we at peace—at peace at least so far as the interests of Europe were concerned.

Alleging infractions by the democrats of their planks and pledges, the speaker said:
Of all infractions, though, of their various planks, that relating to the civil service has been the most barefaced and brutal. I say, and measure my words carefully, that under this administration civil service has been debauched and outraged. I am not speaking at random. I know of one revenue district where in the last year 17 men, all democrats, have been appointed, and 29 men, all republicans, have been removed, where the only republicans remaining on the roll are men who cannot be discharged without cause because they are old soldiers but the process of dealing with them is about as effective as discharges, because they are not assigned to work and can draw no pay. Can there be a more blatant debauchery of the civil service than to drop men of, in some cases, 30 years of experience, for no reason except that they are of the republican faith, and to fill their places with men of no experience at all, solely because they are democrats?

The civil service is no longer being administered as a reward of merit, but as a reward for faithful service, not to the people, but to the democratic party. The "deserving democrat" has been rewarded. The old soldier has paid a penalty for his political faith for it is rare indeed that a man who fought in the Civil war on this side of Mason and Dixon's line who can get it in him to be other than a democrat.

Right down at the foot of the evil conditions that afflict us is the democratic free trade tariff. That is an issue in this campaign. It was a leading issue a few months ago in the Chicago convention. It was a leading issue in the national campaign, where a republican won votes, the largest vote ever given to any candidate. It will be the para-

mount issue in the election to come next fall.

Disaster, certain and bleak, awaits us if the Underwood tariff law is not repealed before the war comes to an end. In every country in Europe except Belgium, their factories and all their great instruments of production have entirely escaped destruction. The men will look back to the trenches, ready to work for almost anything they can get. Immense surplus stocks will have accumulated. The great American market will be the natural dumping ground for the whole of Europe. Heaven help American labor if this shall occur before reasonable protective duties are restored. The democratic tariff is bad enough under existing conditions. It would be infinitely worse under conditions sure to come. It is time now to set your faces sternly against the destruction of the American wage scale and to support men who believe in protecting to American industry and American labor.

Hon. Calvin W. Coolidge
The crowd began to get restless by the time Hon. Calvin W. Coolidge was introduced and as he spoke they started to make their departure. Mr. Coolidge spoke in part as follows:
"The governor of this commonwealth has been saying that 'invisibly government' has made it impossible for democracy to give the people what they are entitled to. I am tired with many people, and they don't feel that any invisible government has been at work here. They believe it to be a world here, merely an attempt to obscure the issue. When we come to place responsibility for the rise in taxes, for the appointment of many commissions which have advanced nothing, so far as I can see, there is but one place to place responsibility, and that is in the governor's chair, and that is where I do place it. When the republicans were in power in this state the expenses were 13 millions. In the five years that the democrats have been in control that has gone up to 29 millions. Let us have a return to the policy, the policy which did not increase taxes to the point of making them almost unbearable."

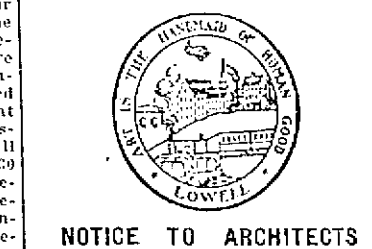

Senator Harding
The managers of the rally surely made a mistake in keeping Senator Harding for the close of the rally, for many had gone away and those who remained were inclined to be bored. He didn't take the senator long to rouse them, however, and while he didn't present any particularly strong arguments in behalf of McCall or anybody else he made a good campaign speech. After dwelling upon the glorious fact that the republican state of Ohio had gone republican, he said:
"There are two great parties in this country, the democratic party, which is an obstructive party, and the republican party, which is a constructive party. If we're going to build on a constructive policy we've got to begin right now, in 1915, and be ready for the big start in 1916. The democratic party is a useful institution; it is the chastening rod of popular government and we ought to welcome it. There's only one way to have a prosperous nation and that is by fostering the republican policy of protection. You cannot take any nation which claims industrial eminence and subtract from that nation its policy of protection and have it remain a nation which is industrially eminent. When we have had the republican policy of protection in this country, this country will face industrial paralysis unless we have the republican policy of protection firmly established here."

AUSTRIAN WAR REPORT
VIENNA, Oct. 25, via London, Oct. 26, 3.34 a. m. (delayed in transmission).—The official statement given out by the Austrian war office tonight contained the following paragraphs:
The severest fighting occurred in the eastern sector of the Dobruja plateau, where the strongest Hungarian forces repeatedly attacked in masses. Received by a destructive fire, the enemy was obliged to retreat under cover. An attack on our position of Montefiore had a similar result, as did all other efforts of the Italians.

"Trieste yesterday was visited by the enemy's airforce. Two inhabitants were killed and 12 wounded by bombs. A very heavy Austrian-Hungarian cavalry have entered Valjevo. The army of Gen. Koyevic is approaching the town of Arangelovac in the face of heavy fighting. The troops of this army are advancing on both sides of the Kolubara river, attacking the heights south and southwest of Lazarevac. Other Austro-Hungarian troops have repulsed the Serbians near Ruzica, 10 kilometers south of Belgrade. German forces stormed positions south of Palanka which were bitterly defended, and captured Petrovac. In the Mlava valley Austro-Hungarian and German troops crossed the river near Orsova and advanced into the mountains east of the river at the narrows of Klissura. The enemy fled, leaving behind them rifles and ammunition."

"The Bulgarians during the last few days have crossed the Timok at several points between the source and the mouth. Their attacks on the heights of the left bank of the river against Zajcar, Knjazevec and Pivov are progressing."

NOTICE TO ARCHITECTS

Architects of Lowell and those having a usual place of business in Lowell, are hereby notified that the City of Lowell, in accordance with the program of the City Engineer of Public Property and Finance may be registering their names on or before November 1, 1915, with the City Engineer for the purpose of the program and terms of the competition.

W. A. LEW
Steam drying and cleaning of clothes and gents' wearing apparel 15 years in the business.
149 JOHN STREET

MORTGAGEE'S SALE OF REAL ESTATE

By virtue of a power of sale contained in certain mortgage deed given by Nettie M. Saunders of Lowell, in the County of Middlesex and Commonwealth of Massachusetts, to William T. Sheppard, of said Lowell, dated April 3, 1912, and recorded in the Registry of Deeds for the Northern District of said County, Book 484, Page 403, will be sold at public auction for cash of the contents of said mortgage deed, on the premises hereinafter described, on Friday, the twelfth day of November, A. D. 1915, at two o'clock and thirty minutes in the afternoon, all and singular the premises conveyed by said mortgage deed, and therein described substantially as follows:

That parcel of land with the buildings thereon situated on the easterly side of Gates street in said Lowell, shown as lot twenty-seven (27) on a plan entitled, "Plan of Buildings lots in Lowell belonging to the children of the late Josiah Gates, surveyed October, 1884, by Melvin H. Smith, Civil Engineer and Surveyor," recorded in the Registry of Deeds for the Northern District of said County, Book of Plans 48, Plan 65, and bounded: West by said Gates street fifty (50) feet; north by lot 28 on said plan thirty (30) feet and 20.00 (20) feet; east by lot 19 and 18 on said plan fifty and 3.10 (53.10) feet; and south by lot 28 on said plan thirty-three and 45 (78.45) feet. Containing forty (40) hundred and twenty-eight and 25.10 (125.25) square feet of land and all said contents and any or all of said contents and any or all of said premises conveyed by Charles J. Saunders by deed dated April 3, 1912, and recorded in said Registry, Book 452, Page 475.

The above described premises will be sold and conveyed subject to a prior mortgage given by said Nettie M. Saunders to the City of Lowell, dated April 3, 1912, and recorded in said Registry, Book 484, Page 417, for the sum of \$3500 and accumulated interest, and also subject to any and all other taxes, municipal or other assessments and tax sales which may be due or to become due thereon. The purchaser will be required to pay in cash at the time and place of sale, and the balance in ten days from the day of sale at the office of William T. Sheppard, 131 Central street, Lowell, Mass.

WILLIAM T. SHEPPARD

PRICE ONE CENT

CROWDS GREET WALSH

Cape Towns Show Great Enthusiasm—Big Meetings in Fall River and New Bedford

FALL RIVER, Oct. 26.—Two big Walsh rallies were held in this city last night. The governor reached here from New Bedford about 10.30. In Amott hall, which is situated in Fifth Village, 300 were waiting to greet him.

He spoke for about half an hour and then proceeded to Annan hall, which is in the centre of the city. One of the largest crowds seen here at a political meeting in years welcomed the governor with rousing cheers. In all there were 1500 present.

Joseph Joyce Donahue, democratic candidate for attorney general, who preceded the governor as a speaker, assailed his republican opponent, Atty. Gen. Atwill. Mr. Donahue said: "Under the administration of republican attorney general in Massachusetts, Wall street was allowed to manipulate the railroads of Massachusetts that thrifty and industrious people were stripped of their property, and the present attorney general has failed to serve notice on them that the practice must be stopped."

Enthusiasm at New Bedford
The New Bedford rally was declared by local democrats to be a record-breaker. There were 1300 in Odd Fellows hall. The crowd had gathered long before the hour set for beginning.

The 500 or more who occupied seats on the floor and galleries each carried small flags. Their welcome to the governor was most vociferous and he was frequently interrupted with cheers and applause and cries of "You're all right" and "That's the boy, Dave."

Gov. Walsh's tour of Cape Cod yesterday proved most satisfactory. The crowds in each of the towns exceeded in numbers the expectations of the most enthusiastic of those in charge of the tour.

The governor himself has campaigned on the Cape for several years past, but said last night he had never seen so many people turn out to hear a candidate.

Ex-Congressman Thomas C. Thacher and George McLaughlin of Sandwich, who accompanied him were delighted. They said the showing was remarkable as well as significant.

Cape Turns Out Crowds
The governor began the day at Sandwich, where he was welcomed by school-children, marching in a procession from the depot to the postoffice as an escort to his automobile. They carried small flags, sang "America" and recited in unison the "Salute to the Flag." William L. Nye was the presiding officer at the rally.

At least 250 men and women heard the governor talk. Just before the governor's car left Sandwich he was given a bouquet on behalf of the children. At West Barnstable the school children were waiting at the depot to greet him. He told them some stories and then turned to the 35 voters who had gathered there.

His third stop was at Barnstable, where in front of the county courthouse he addressed what was said to be the largest assemblage ever seen there at an open-air rally. There were fully 500 in the gathering.

In front of Colonial club at Yarmouth there was a gathering of 35 voters. When the governor had finished he shook hands with Miss Zilpas E. Wright and Miss Heloise O. Redfield, suffragists, who were campaigning in the town.

Masonic hall at Hyannis held at least 200 men and women when the governor arrived. He talked almost an hour.

After dinner he proceeded to Osterville, where 50 people greeted him. At Cotuit there were fully 75 in the audience.

Falmouth town hall was filled at the second indoor rally of the day. At Woods Hole, where the governor arrived about an hour behind schedule, there were between 50 and 75 in the audience.

COFFEE CLAIMS ITS VICTIMS BY HUNDREDS

Prominent Nerve Specialist Says Drinking Has Produced a New Disease—Chronic Caffeinism.

"There is a distinct type of cases," says Dr. Wm. M. Leszynsky, consulting neurologist to the Manhattan Eye and Ear hospital, "frequent among the poorer class of people, but by no means confined to them, of functional nervous disorder caused by coffee drinking, to which the classic term 'neurasthenia' or 'chronic caffeinism' is its broadest significance may be applied."

"In cases of neurasthenia, inquiry into coffee drinking," adds Dr. Otto Jettner, "I have seen hundreds of victims of this disease," continues Dr. Leszynsky, "among commercial travelers, brokers, merchants, actors, writers, and men connected with the news department of the daily papers."

"They usually complain of the following symptoms, which are more or less pronounced: General headache and nervousness, apprehension in regard to some unknown impending trouble, mental depression and irritability, insomnia or restless sleep, bad dreams and sudden starting in sleep, awakening in profuse perspiration, general tremulousness and diminished muscular power, cardiac palpitations, loss of appetite, and constipation."

NOTE—It is a fact worthy of note that the American food-drink—Instant Postum—has come widely into popular use and favor with the recognition of the harmfulness of coffee. Postum is a flavor resembling Old Java, but is entirely free from caffeine or any other harmful ingredient.

OPPOSE CONSCRIPTION FIRES AND EXPLOSIONS

MANIFESTO SIGNED BY FEW MEMBERS OF PARLIAMENT—WOULD DESTROY BRITISH UNITY

LONDON, Oct. 26.—A manifesto opposing conscription has been issued by a comparatively small number of members of parliament. Among the reasons given for such opposition is that the compulsory system would deplete the ranks of the industrial workers that Great Britain would be unable to meet her obligations assumed in behalf of the allies to supply them with stores of munitions and give them substantial financial help.

It is further declared that conscription would arouse bitter opposition among the workmen and irretrievably destroy national unity which is essential to the successful prosecution of the war.

The manifesto is signed by Rt. Hon. Charles E. H. Hobhouse, a former member of the British cabinet, as chairman; Percy Alden, liberal member for the Tottenham division of Middlesex, who has written much upon the question of the unemployed, as vice chairman, and John Howard Whitehouse, liberal member for Mid-Lancashire, also identified with labor reform, as secretary.

BACK BROKEN, LIVES A YEAR

Albert Johnson Dies at Rhode Island Hospital After Showing Signs of Improvement

PROVIDENCE, Oct. 26.—After having nearly a year with a broken back, Albert Johnson died at the Rhode Island hospital last night. He was injured by the fall of a girder while at work on a building. His condition was critical for several weeks, but gradually improved until it was believed that he might recover. Recently, however, he began to fail.

SEPARATED 50 YEARS

BROCKTON, Oct. 26.—Just 50 years ago Miss Bridget Peeney left Ireland and came to this country, leaving behind a brother, Patrick Peeney, aged three.

Yesterday brother and sister met for the first time since the parting 50 years ago. Miss Peeney is now Mrs. Bridget Trinch of San Francisco. Her brother lives at 29 Skinner street, where the reunion took place. Mrs. Trinch is visiting in Peabody.

SOCIAL AND FRATERNAL

Lowell lodge, Local Order of Moose, will launch a successful campaign soon. At a meeting held last night, Odd Fellows hall plans for the campaign were discussed and it was announced that the teams will meet next week and elect captains. A prize will be given to the winning team. Brother John M. Hogan, treasurer, is still confined to his home by illness. Brother Turnbull and Nobles suggested that a carnival be held in the near future and this met with the approval of the members.

WINTER begins and you are at the parting of the ways.

Are you going to stick to coal and pay the penalty of \$2.50 a ton more than Lowell Coke would cost you?

Are you going to stand the dust, dirt and poisonous coal dust? The clinkers and ashes? The heavy lifting and all the other nuisances of coal?

Take the better way this winter and use Lowell Coke, the modern fuel, the ideal fuel—economical, light, clean and every way satisfactory.

Insist on Lowell Coke

PRES. BAKER OF THE PHILLIES

SAYS THAT REPORT OF DISCORD IS WITHOUT FOUNDATION

PHILADELPHIA, Oct. 26.—There is not the slightest bit of discord between Pat Moran and Pres. William F. Baker. Just because Moran failed to sign up for next year before he left town for his home in Fitchburg, Mass., several stories were published that he had refused to consider a 1916 contract unless given a big increase over what he drew down this summer.

Pres. Baker in a telegram last night denied that there was the slightest hitch between Moran and the club and that Pat would sign a 1916 contract when it was presented to him. Mr. Baker's telegram is appended:

Brooklyn, N. Y., Oct. 25.

There is no truth in the statement that there is any trouble between Manager Moran and myself. I told him last Wednesday I was ready to talk over a contract for one, two or three years, but he said he was tired and anxious to get home, and would meet me in New York in about two weeks and fix up matters. Moran's salary for this year was for a considerably larger amount than has been received at by those desiring to make trouble, and he earned a bonus which was paid last Wednesday.

William F. Baker.

mill at Wilmington, Del., two killed.

Aug. 31—Banksdale, N. Y., train derailed and blew up, near Pinole, Cal., three killed.

Aug. 31—Bomb explodes at door of M. P. Combs at Depew, N. Y., superintendent of a plant in erection to make aeroplanes for the allies.

Sept. 1—Copper melting tank exploded at National Cordulit and Cable Shell plant, Hastings, N. Y.; six were hurt.

Sept. 23—Part of Du Pont powder plant, Haskell, N. J.; four killed.

Oct. 1—Part of Du Pont powder plant, Pompton, N. J.; one killed.

Oct. 8—Aetna powder plant, Emporium, Penn.; 25,000 pounds of explosives destroyed; four killed, seven hurt. Part of Du Pont powder plant, Pompton, N. J.; seven burned.

FOR LOWELL EXHIBITION

SCHEME OF DECORATION DECIDED

—MANY NEW APPLICATIONS FOR BOOTHS

The contract for the decorating of the interior and exterior of the Casino building in Thorndike street for the big exhibition of Lowell-made goods, which will be held from Nov. 15 to 20th inclusive, under the auspices of the Lowell board of trade, was signed yesterday and the C. F. Young Co. of this city will do its very best to give the Lowell public a decorative scheme which is worthy of the event.

It has been decided by officials of the board of trade that the scheme for the show will be green, white and gold. The booths will be framed in white, with the solid portions of the fence divisions green and the white booth posts, which are high and ornamental and topped with baskets of flowers will bear an outline of gold moldings. The floor decorations will be of green and gold. Great quantities of foliage will be worked into lattice arches and the lower portions of the floor will be draped with bunting.

Plans for the great show are progressing rapidly and more exhibitors are daily applying for space. The latest to rent spaces are as follows: The Sawyer Carriage Co., The Lowell Sun, W. H. Bageshaw, New England Building Co., and Linden Hill Appliance Co. called at the office of the board this morning in order to make arrangements for their large exhibit of hides of all descriptions and it is believed this large concern will greatly interest the public with its leather products.

CONGREGATIONAL CHURCHES

NEW HAVEN, Conn., Oct. 26.—All business of the national council of Congregational churches gave way today to the 116th annual meeting of the American board of commissioners for foreign missions, and the only gathering which was not given over to reports from and addressed by missionaries was that at noon when Rev. Dr. Washington Gladden of Columbus, O., was to be the speaker at a general meeting.

The program had been arranged so that the missionaries who brought greetings during the morning session were from India; those in the afternoon from the countries of the near east, while this evening the workers from the islands of the Pacific, from Japan and China and the Philippines will tell their stories of the spread of the gospel in their respective fields.

A WOMAN DOCTOR

"Eugenics is a necessary factor in the future of the race. The average American girl is unfit for motherhood." This may be true, but if weak and ailing girls passing from girlhood to womanhood would only rely, as thousands do, upon Lydia E. Pinkham's Vegetable Compound—that simple remedy made from roots and herbs—to restore the system to a normal healthy condition, it would cause many ill from which they suffer to disappear, so that motherhood might become the joy of their lives.

THIRTEEN KILLED

12 Girls and One Man Trapped in Factory Fire—Two Dying

PITTSBURGH, Oct. 26.—Thirteen persons were killed and eight injured by a fire in a four story building, the two upper floors of which were occupied by the Union Paper Box company, on the north side here late yesterday afternoon. All except one of the dead were young women employed by the company. Many of the bodies were so badly burned as to make identification difficult.

Mayor Joseph C. Armstrong at once ordered that the police, city council and the coroner make thorough investigation of the fire.

The dead:
Collette Seelman, aged 19.
Helen Waker.
Sophia Obok, 22.
Carolina Ferrara, 15.
Dorothy Link, 16.
Florence Baker, 21.
Cecilia Joss, 17.
Bertha Dunapple, 24.
Ottile Breuninger, 20.
Lina Schuler, 25.
Myrtle Miller, 20.
Marcella Rauch, 17.
Peter Vallon.

The flames started in a pile of straw in the rear of the feed store of James Brown & Co., on the first floor of the building. William C. Kinsler, general manager of the box factory, at once went to the third and fourth floors and warned the girls employed there to leave quickly.

The flames gained headway so rapidly, however, that escapes were soon cut off. Some of the girls attempted to go to the dressing room for their hats, and there, huddled on the floor, firemen found a majority of the bodies.

Joseph L. Bash and A. J. Seagle, employed on the second floor of the building, were about to jump when they were attracted by the screams of girls in the window above. The men urged the girls to jump. One by one as the girls leaped, Bash and Seagle caught them, lowered them as far as they could and then let them drop to the sidewalk.

C. R. Carlisle, driver of a transfer wagon, drove his wagon into an alley in the rear of the building and threw up a rope to the girls in a window above. After making one and fast, they slid down to safety.

Margaret Steigerwald, aged 17, who was injured by jumping from a third-floor window, said she and five other girls were trapped in the building when somebody closed a door at the head of the stairway on the second floor.

"We got our wraps and started down the stairway," said Miss Steigerwald, "but we reached the second floor some person closed the door at the head of the stairway. We tried to open the door without success and then we started back to the third floor. By that time the third floor was filled with smoke. We made for the windows. One girl pushed me away from a window and I was the last to jump."

One of the heroes of the fire was Peter Vallon, who is among the dead. When he saw smoke discovered he was working in the building. He groped his way through the smoke of the street, where he heard girls frantically calling for help from the upper floors. Tying a handkerchief about his mouth, he rushed into the building. Six times he staggered to the street with the unconscious form of a girl in his arms.

When he failed to appear the seventh time, however, spectators called the attention of the firemen, who instituted a search and found Vallon's charred body on the second floor. Near him lay the body of a young girl whom he had evidently tried to rescue when overcome by smoke.

Physicians last night expressed the opinion that all the injured would recover.

Francis Feehan, supervising inspector of the state department of labor and industry, made an examination of the building after the fire. He ascertained that fire escapes were inadequate.

Investigation Resumed
Investigations started last night by city and county officials into the box factory fire yesterday that took the lives of 12 girls employed and one man and caused serious injuries to eight other persons were resumed today. "If there has been any criminal negligence the guilty shall and must be punished," Mayor Armstrong said.

Two reports showing that the factory was exceedingly dangerous were turned into the department of public safety within the last few months, it was learned.

A Laid Parrot Drove

County Free Marshal Thomas L. Farr said last night that he condemned the structure to city officials last June, "as a place unfit to the uses to which it was being put." Roseman W. H. Bageshaw, whose duty it was to inspect the building for the fire department, said he reported a few months ago that there were insufficient means of exit.

At the hospital today it was said that two of those who jumped from windows of the factory were expected to die of their injuries.

THE SCHEMATIC STRIKE

SCHENECTADY, N. Y., Oct. 26.—The few electrical workers who failed yesterday to heed the strike settlement order returned to work at the General Electric company's plant today, having been directed to do so by the district council of their union. This action left only the machinists and a small number of steam fitters and plumbers still on strike for an eight hour day.

VESSEL BADLY DAMAGED

THE STEAMER COLORADO WHICH CAUGHT FIRE AT SEA TOWED INTO PORT

CHARLESTON, S. C., Oct. 26.—The Mallory line freight steamer Colorado, which caught fire Sunday night on route from Charleston to New York, with cotton, was towed into port early today. The vessel is badly damaged, but it is believed much of the cargo can be salvaged. The blaze started in the superstructure from a cause not yet determined.

TRY THIS FOR A COLD—IT'S FINE!

"Pape's Cold Compound" ends severe colds or grippe in few hours.

You can end grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken. It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stuffiness.

Don't just sniff and quit blowing and snuffling. Place your thumb and forefinger on the bridge of your nose—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

BIG SALE OF FURS

137 Silver Fox Skins Bought for \$41,500 by Montreal Firm

A despatch from Montreal states that the largest single sale of raw furs ever recorded in Canada was effected last week when the firm of A. & L. Pierce & Co., St. Paul street, paid over \$41,500 in one cheque for a lot of 137 silver fox skins. Representatives of 27 of the leading fur houses of the United States were present, and a party of so-called local dealers in Canada bought up three-quarters of the offerings.

A. Pierce showed a newspaper representative the little pile of furs which represent probably one-third of the silver foxes collected by a great corporation during the past season. This early war impression that the fur trade had been affected was a mistake, one he said. The great consuming market for furs is on this side of the Atlantic. Germany, while not a fur-producing country, had practically cornered the fur market, both in Russia and in Canada, re-selling to these countries 75 per cent. of the furs bought in them after being dressed.

The fur industry has now adapted itself to the new conditions and Canada is taking a bigger place in the trade than heretofore. The German furs are eliminated for good.

It is the first time in the local fur market that home dealers have predominated over the big American buyers to such an extent. Inside the last month, A. & L. Pierce & Co. has paid over \$90,000 for raw furs.

Their new stock of silver fox furs alone represents over \$15,000. One skin picked up and examined by a prospective buyer the other day, was valued at approximately \$250, the best skin in the pile. Nearly all pieces of skins of white fox, red fox and skins from a cross between silver and red, which are quite common in the St. James Bay district.

WALSH TO WIN

McCall Already Beaten, Says Matthew Hale, Progressive Leader

BOSTON, Oct. 26.—"It's useless to vote for McCall for the sake of beating Walsh and forcing the democrats out, for McCall is already beaten and you can't get rid of Walsh, for his re-election is practically assured," declared Matthew Hale, progressive party leader, in a speech to the progressive delegates from the cities and towns in Greater Boston at a meeting held last night at the progressive state committee headquarters, 237 Washington street.

Chairman Hale, against the wishes of his physician, exhorted the delegates to remain steadfast, urging them to exhaust their every endeavor to get out at least 13,000 votes that the party might retain its legal standing.

"But whatever you do, don't vote for McCall, as was the case last year when many forsook Walker for the republican candidate, for the sake of beating Walsh. You can't do it this year. Walsh cannot be defeated, for no matter which way the vote is figured, Walsh will win by at least 4000 votes over McCall. And those are ultra conservative minimum figures."

The meeting was called by Leon E. Baldwin, acting chair of the progressive state committee, to perfect plans for getting out the maximum number of progressive votes on election day and to hear reports from the delegates of the neighboring cities and towns.

SERVICE DISCONTINUED

PARCEL POST SERVICE FROM BERLIN TO AMERICA SUSPENDED TILL FURTHER NOTICE

BERLIN, Oct. 25, via London, Oct. 26, 11.15 a. m.—The parcel post service to America has been discontinued until further notice. No official reason for the discontinuance is given.

Last April several thousand parcel post packages mailed from Germany to the United States via Switzerland, were returned to the senders by the Swiss postal authorities because the British and French governments had given notice that parcels addressed to German citizens in the United States would be seized whenever they were found on shipboard. Parcels sent from Germany to a special address in France met a similar fate in France.

On April 7 the German postal officials suspended the parcel post service to various parts of South America.

ARCHITECT SUBMITS
HIGH SCHOOL DATA

Consulting Architect at Council Meeting — Dummer Street Extension Put Over

James E. McLaughlin, the consulting architect chosen by the mayor in connection with the new high school, appeared before the municipal council today and submitted a program for the selection of school plans. The program was adopted by the council.

The proposition for the extension of Dummer street was to have been taken up today but was postponed because of the absence of the city solicitor. It was decided to hold a special meeting Friday morning for the discussion of the Dummer street extension.

Other business before the meeting included the drawing of traverse jurors to serve at the November term of the superior court in Cambridge.

The first business before the meeting had to do with the petition of Harry L. Gonzales for the sale of gun.

INVADERS GAIN GROUND

Teutons Advance in Serbia—
German Success in Champagne—
Russia to Help Serbia

Teutonic forces have gained further ground in Serbia, Berlin announces today. Progress was made east of Visegrad, in Bosnia, where the Austrians are engaged; an advance was scored in the Black valley south of Palanka, and further to the east, Markovitch, Laope and Kutshevo were captured.

Bulgarians Take Offensive

The Bulgarians in the Strumitsa region have taken the offensive against the French, but the Bulgarian attack along the whole front was completely repulsed, Paris officially declares. It is denied that French forces have been repulsed on the right bank of the Vardar river.

German Success in Champagne

Recapture of positions along a front of approximately 250 metres north of Le Mesnil in the Champagne taken by the Germans.

J. E. CAMPBELL DEAD

WELL KNOWN RESIDENT, DIED
SUDDENLY AT HIS HOME THIS
MORNING

John E. Campbell, who for a number of years conducted a wine shop at the corner of South and Summer streets, was found dead on the floor of the front room at his home, 75 Summer street, this morning. The gruesomeness had having been made by the mother of deceased, with whom he was living.

Mr. Campbell was about 42 years of age. He was last seen alive by his mother last night. This morning the woman entered the front room and found her son lying on the floor. She called help, but after an examination it was found that the man was dead. Dr. J. V. Meigs, medical examiner, viewed the body and pronounced death due to natural causes.

TO PROSECUTE OFFICERS
OF PAPER BOX FACTORYCoroner Acts as Result of Fire at Pittsburgh in Which 13 Lives Were Lost
—Four Charged With Negligence

PITTSBURGH, Pa., Oct. 26.—Prosecution of the officers of the Union Paper Box Co. through the destruction of whose factory on the North side by fire yesterday 12 girl employees and a man lost their lives, was announced today by Coroner Samuel C. Jamieson.

The coroner charged each of the following with negligence, and himself set out to serve the warrants: H. E. Welskopf, Henry C. Schaefer

NEW HAVEN TRIAL

Mellen Tells How He
Saved Himself From
Being Ousted

NEW YORK, Oct. 26.—Evidence presented by the government today at the trial of the eleven New York, New Haven & Hartford directors to prove the steps alleged to have been taken by the New Haven to prevent traffic from New England getting out of the six states by any other route than the New Haven, furnished Charles S. Mellen an opportunity to tell the jury how he saved himself from being ousted from his position as second vice president of the road, by the late J. P. Morgan.

Trouble had arisen between the New York Central and the New Haven over this traffic and C. P. Clark, then president of the New Haven, told Mellen that Mr. Morgan who was a director of both roads, thought he had fomented it and should be ousted.

"As I always did," said the witness, his eyes twinkling, "I marched down to Mr. Morgan's office. I told him what Mr. Clark had said and he said: 'That is correct.' I said I knew he was the kind of a man that would hear both sides, and he said: 'Certainly, certainly.' Then I explained the situation to him and Mr. Morgan said: 'I never understood it before, Mr. Mellen. I have been misinformed. I

have been used as a doorman. Good day!'

The recital of this interview was precipitated by the introduction of a circular letter written by Mr. Mellen in the early nineties and sent to the directors of the New Haven proposing a readjustment of rates under which through traffic, which had formerly gone from the New Haven's territory in central New England by way of Boston & Albany, was diverted to the New Haven's short line to New York.

This action was taken by the New Haven, the government contends, in reprisal for the alleged failure of the New York Central to live up to an agreement designed to prevent the New York & New England road, the New Haven's chief competitor, from getting into New York over a line controlled by the Central.

MORE LETTERS AND RECORDS

NEW YORK, Oct. 26.—With Charles S. Mellen on the witness stand in the trial of New Haven railroad directors on a charge of conspiracy to monopolize New England traffic, counsel for the United States government was prepared today to submit to the federal court many letters and records from the files of the New Haven company to show the various steps in its consolidation.

It was expected that Frank M. Swacker, special prosecutor, would continue today to question Mr. Mellen about the moves made by the New Haven to crush the New York & New England Railroad Co., which it regarded as its "bitterest antagonist." When the hearing adjourned yesterday the inquiry had covered the demands of the New Haven for the payment of freight charges by the New England road and the abandonment of

the Poughkeepsie bridge route by certain railroads.

Some of the letters produced in court touched upon the Goldsmith suit as a result of which it is claimed that the New England road went into the hands of a receiver and was absorbed by the New Haven.

When Mr. Mellen resumed the stand, Mr. Swacker took up the subject of the steps taken by the New Haven to prevent the New York & New England road from entering New York city by way of the New York & Northern, with which the New England connected at Brewster, N. Y.

He read to the jury a letter written by C. P. Clark, then president of the New Haven, to J. P. Morgan, explaining the situation and telling of the necessity of preventing competition on the New York & Northern.

This is the road which, it had been previously testified, the New York Central agreed to administer so as to prevent traffic from New England States entering New York in competition with the New Haven. The agreement, the New Haven accused the New York Central of not observing, and retaliated, the government claims, by making a readjustment of rates against the Boston & Albany line of the Central's subsidiaries.

Mr. Mellen today identified letters written by Chauncey M. Depew, then president of the New York Central, to Clark, and by Central officials to Depew, complaining against the New Haven's change of rates.

The letter set forth that the New Haven readjustment prevented the Boston & Albany from accepting, on a profitable basis, through traffic from its connections with the New Haven system. The result was, the letters in-

POOR DEBTOR HEARING
FOR HON. GEO. H. BROWNIn Reply to Lawyer Howard Mr.
Brown Told of His Finances—
What He Got From Libel Suit

Hon. George H. Brown, formerly mayor and commissioner of the city of Lowell, was summoned before the police court today on a poor debtor's process which proved very spicy. The process was relative to a judgment secured by Albert S. Howard in the superior court last April for legal services performed for Mr. Brown on certain libel suits against a Sunday morning paper and a bill in equity growing out of the purchase of a Knox automobile by the city government.

The proceedings are based on Mr. Howard's charges. That Mr. Brown has property not exempt from being taken on execution which he does not intend to apply to the payment of Mr. Howard's claim.

The hearing was not presided over by any justice, although Judge Enright was called several times to pass on the admissibility of several questions asked by Attorney Howard and objected to by Mr. Brown's counsel, Edward J. Tierney. A stenographer took a report of the proceedings for the court. Mr. Brown was put through a lengthy examination by Mr. Howard and at 12:30 o'clock the hearing was continued until Thursday morning at 10 o'clock.

When questioned about what he owed Mr. Howard, Mr. Brown said that he owed him for legal services performed in the case in which the city council voted to buy a Knox automobile. Mr. Howard then attempted to have an injunction brought against the members of the council, except Brown, to prevent the purchase of the machine.

"When I contracted that bill," said Mr. Brown, "I honestly believed that the city of Lowell would pay it, but I never decided that I owed it to you and I intend to pay it."

Mr. Brown was asked about his salary during his term of mayor and said that he did not save any of it. He then intimated that the proceedings brought against him were for political purposes and were backed by a property of a Sunday newspaper.

"In May, 1913, did you borrow any money from Arthur S. Lyons, a Boston broker?" asked Mr. Howard.

"Yes, \$1000."

"Did you in March, 1914?"

"Yes, the same amount."

deated, that the traffic all went direct by the New Haven's shore line.

"I sought to re-arrange this business and get for the New Haven its easy haul," the witness explained. "It was readjusted so that the New Haven got what belonged to it."

In a letter written by Clark to Mellen, May 25, 1914, the New Haven president complained that "we have been badly left by the acquisition of the New York & Northern by the Central."

Sit Back in Chair

"All we had to do was to sit back in our rocking chairs and wait for their answer," said Mr. Mellen, testifying at the afternoon session as to action taken by the Pittsburgh road, a subsidiary of the New Haven, to force the Boston & Albany to reduce its rates as a part of the reprisal scheme. The Boston & Albany and the Pittsburgh served the same territory, Mr. Mellen explained, and the Pittsburgh by reducing its through rates forced the Boston & Albany to do the same.

NO SIGN OF SETTLEMENT

FREIGHT HANDLERS CONFERENCE
WITH OFFICIALS—H. & M. RE-
PLIES TO MAYOR CURLEY

BOSTON, Oct. 26.—A conference between striking freight handlers and officials of the New York, New Haven & Hartford railroad failed to develop any progress toward settlement today. The conference met an obstacle in their negotiations in the form of the vote of the 1500 strikers on the Boston & Maine, the Boston & Albany and the New Haven roads to make the issue a common cause. The strikers told General Manager C. N. Woodward of the New Haven that no settlement could be made, except with the roads, and the railroad official, in answer, said the New Haven road could treat only with its former employees.

The Boston & Maine management, through a letter from President J. H. Hunsick to Mayor Curley today, refused to have further dealings with the men who left their work at its terminals. The mayor had asked that the men's offer of arbitration be accepted, and that they be allowed

today sent out a general alarm for him. Breitling is secretary and treasurer of the Oil Well Device Co. with offices in Wall street.

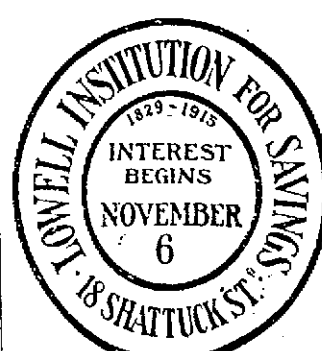

Daeche, arraigned later in Jersey City before United States Commissioner Carpenter, asked for delay in the preliminary examination and his case was put over until Nov. 3, bail being fixed at \$25,000 in default of which he was locked up in the Hudson county (New Jersey) jail.

In addition to the charge of conspiracy, covering the cases of the office prisoners and Breitling, Daeche also was charged with having and concealing the possession of a high explosive for the purpose of blowing up a ship in the jurisdiction of the United States. United States Marshal Kavanaugh preferred the charges against Daeche, but did not go into details concerning the additional charge.

WASHINGTON AWAIT EVIDENCE

WASHINGTON, Oct. 26.—Officials of the department of justice expressed doubt today whether the federal government can make out a case against the men implicated in the plot to blow up munition ships sailing from the United States. Detailed information as to what evidence has been collected by the New York police or the secret service was still lacking today and the department will not reach a decision in the matter until all data has been examined. The bureau of investigation of the justice department has been interested in the case only indirectly.

WASHINGTON, Oct. 26.—The federal government is waiting for evidence to make out a case against the men implicated in the plot to blow up munition ships sailing from the United States. LECTURE ON MASEFIELD

MISS HELOISE E. HERSEY GAVE DELIGHTFUL TALK BEFORE WOMEN'S CLUB

The speaker at the Women's club yesterday afternoon was Miss Heloise E. Hersey, who talked on the personality and poetry of John Masefield. In view of the fact that Mr. Masefield will himself speak before the club in January, the talk was especially timely. It was a delight in its keen analysis, sincerity and real appreciation of the true and beautiful. Miss Hersey knows and loves the poetry of Masefield, and she has the rare ability to arouse a like feeling in the hearts of her hearers.

In a foreword, the speaker gave a brief sketch of the life of the poet which is what one would imagine from his writings. In his early youth he shipped as a seaman before the mast. Tiring of the lure of the sea, he followed the lure of the road and after tramping about for some time made for New York, where he secured work as bartender in a flower saloon. Feeling the dual call of home and literature he saved enough money to return and sailed for England, where he became a literary hack. Finally his poems gained recognition and today he is one of the commanding figures in English literature. At present he is

HAVE COLOR IN YOUR CHEEKS

Be Better Looking—Take Olive Tablets

If your skin is yellow—complexion pallid—tongue coated—appetite poor—you have a bad taste in your mouth—a heavy, no-scent feeling—you should take Olive Tablets.

Dr. Edwards' Olive Tablets—a substitute for calomel—were prepared by Dr. Edwards after 17 years of study with his patients.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color.

If you want a clear, pink skin, bright eyes, no pimples, a feeling of buoyancy like childhood days, you must get at the cause.

Dr. Edwards' Olive Tablets act on the liver and bowels like calomel—yet have no dangerous after effects.

They start the bile and overcome constipation. That's why millions of boxes are sold annually at 10c and 25c per box. All druggists.

Take one or two nightly and note the pleasing results.

The Olive Tablet Company, Columbus, O.

with the Red Cross at the Dardanelles. Miss Hersey enlarged on this bare outline by drawing a picture of the Masefield who is revealed in his poems. He does not enthuse about the writers of the day and he is wholly original. Shaw and Masefield, she said, stand at the poles. Both are fond of comparing us to the Romans, but in a different manner; Shaw thinks the Romans were as small as we are; Masefield thinks we are as great as the Romans. Masefield loves the open water, the primitive, those who live hard and die hard. At this point the lecturer read many beautiful lyrics and descriptive poems to illustrate the qualities of the poet, and the lovely lilting metres sang themselves in her sympathetic interpretation. They showed his love of the sea and the land and his hope—"The City of God at the other end of the road."

From the selections chosen the lecturer gathered that Masefield is an impressionist with the eye of a realist. With him the heroic is not so beautiful as the pitiful. He turns from high visions to the lowly and he cares more for man than for morality. He discovered beauty in ugliness and made poetry from what men call prose. She ascribed his power to two ruling considerations: he is alive with the passion of our time for remedying the miseries of life and he is driven by the vision of the power of salvation in Christ. His message and his mission are for human betterment and all he has written is permeated with a Christian inspiration. Though he may seem morbid occasionally he is a strong man dealing with terrible things.

At intervals Miss Hersey read from the shorter poems and from the longer narrative poems, including "Nan," (the deepest black of hopeless misery), "The Everlasting Mercy," and "The Daffodil Fields."

DESTROYED BY A MINE

MEN SAVED FROM STEAMER RUMINA HAVE ARRIVED AT STOCKHOLM

COPENHAGEN, Oct. 26, via London, 2:05 a. m.—The men saved from the Swedish steamer Rumina, which was destroyed by a mine, have arrived at Stockholm. The German Lieutenant, Metz, who was in charge of the steamer, was with them. He has been interned.

The Rumina, a small vessel of 1455 tons, was sent to the bottom by a mine off the East Granton lighthouse. She was then in charge of a prize crew from a German submarine which had captured her on her way from London with a cargo of wood pulp.

SAVE YOUR HAIR AND BEAUTIFY IT WITH "DANDERINE"

Spend 25 cents! Dandruff disappears and hair stops coming out.

Try this! Hair gets beautiful, wavy and thick in few moments.

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scourer robs the hair of its lustre, its strength and its very life. And if not overcome it produces a feverishness and itching of the scalp, the hair roots (fash, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a 25-cent bottle of Knowlton's Danderine at any drug store or toilet counter; apply a little as directed and ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine. If eventually—why not now?

Six of the crew who were asleep in the forecastle at the time of the explosion were drowned.

LOWELL IS FIFTH

New Bedford Gets Ahead of Us in Population

The census bureau at Washington has compiled its estimates up to July 1, 1915, of the population of all places of more than 8000 inhabitants. Massachusetts as a whole has grown steadily. In 1910 she possessed only five cities with a population of more than 100,000. These were Boston, Worcester, Fall River, Lowell and Cambridge. She now has eight cities in this class, having added to the previous list Lynn, New Bedford and Springfield. Lawrence comes very near the 100,000 mark, with an estimated population of 95,191. In 1910 Lowell was strongly entrenched in fourth place in the list of Massachusetts cities by a population of 108,234. Cambridge was a close second with a population of 104,339. New Bedford's population at that time was only 96,652 and now New Bedford leads both Lowell and Cambridge. The following table tells the story:

	1910	1915
Boston	670,585	745,123
Worcester	145,386	160,523
Fall River	112,295	126,904
New Bedford	96,652	114,691
Cambridge	104,339	112,124
Springfield	88,926	102,215
Lynn	85,336	100,316

CHASED BY SUBMARINES

ESCAPE OF SEVERAL GERMAN ORE STEAMERS FROM BRITISH IN THE BALTIC SEA

LONDON, Oct. 26, 2:09 a. m.—The escape of several German ore steamers from British submarines in the Baltic sea is described by a Copenhagen newspaper just received here. The steamship Baltic headed at full speed toward Sweden and the British submarine made vigorous efforts to cut off her escape but as soon as the steamer was within Swedish limits the under sea boat retired.

The steamship Pitea went aground off Oresund, but later managed to get afloat. Two other German ore steamers which fell in with submarines zigzagged to safety off Oresund, Sweden, where they were ordered to remain.

The Swedish pilot station has issued warning that many floating mines are drifting off the Swedish coast between Cimbelskarna and Barnholm.

ITALIANS CALLED TO COLORS

LONDON, Oct. 26, 3:52 a. m.—Reuters' Malta correspondent reports that more Italian classes are being summoned to the colors in the near east as soon as possible.

OBSERVED 20TH ANNIVERSARY

Mr. and Mrs. Fred L. Fletcher of Chelmsford observed their 20th anniversary of marriage at their home Saturday evening and on the occasion they were presented a valuable silver set, the presentation being made by the Past Commander Terley of the Sons of Veterans. A pleasant evening was spent and the guests who were members of the Sons of Veterans and the Daughters of Veterans were royally entertained.

POPE BENEDICT TALKS

EXPRESSES DEEP AFFLICTION BY TRAGIC EVENTS RAVAGING EUROPE

ROME, via Paris, Oct. 26, 4:50 a. m.—Pope Benedict, in an interview published in the *Avenire* of Italia di Bologna, expressed his deep affliction by the tragic events ravaging Europe and his suffering at being obliged to look powerless upon such a spectacle.

But in his father's heart, which cherished alike all his children, the pope said he thought only of the day when the rulers of warring peoples shall understand the necessity and duty of ending the carnage which is overthrowing all human and divine laws.

The holy father abstained, he said, from passing judgments which have no practical result, but would on the contrary cause fresh recriminations and sow fresh discords. He deplored the violence and the barbarities practiced in a war wherein the conquests of science were placed at the service of murder.

In conclusion, the pope declared that his appeal for peace having been unheard, he would continue his charitable work for the benefit of the wounded.

WENT THROUGH BRIDGE

TWO MEN HAD MIRACULOUS ESCAPE WHEN AUTO FELL FORTY FEET

STRONG, Me., Oct. 26.—Roy Merrill of Turner and Harold Andrews of Auburn had an escape little short of miraculous when a live and a half ton motor truck which they were driving went through the old suspension bridge here last night, plunging 40 feet to the river's brink below. Neither man suffered injury other than slight bruises, but the truck, which was loaded with boxes, was damaged considerably.

BIG RUSSIAN ORDER

PRESSED STEEL CAR CO. COMPLETES ORDER FOR 7500 FOREIGN CARS—NEW CONTRACT

PITTSBURGH, Pa., Oct. 26.—It became known here today that the Pressed Steel Car Co., having completed an order for 7500 steel freight cars for the Russian government, yesterday closed a contract for an additional \$500.

REPUBLICAN RALLIES HELD

Republican rallies were held last night at the town hall, Billerica, and at Union hall, North Billerica, with good sized audiences of men and women. Among the speakers were Congressman John Jacob Rogers, Senator Charles A. Kimball, Rep. Burton H. Crosby, former District Attorney John J. Higgins, Immanuel Plummer of Bedford and Philip M. Clark of Newton.

PROF. KAPPEL IS DEAD

CHICAGO, Oct. 26.—Prof. J. Henry Kappel, an authority on music, died at the home of a son in Evanston, a suburb, last night at the age of 91. Prof. Kappel was born in Worms, Germany, and while a student at the University of Heidelberg became a leader in the secret society pledged to unity Germany. As a result he was imprisoned, but escaped to France whence he sailed for America in 1848. He was a protégé of Felix Mendelssohn and was intimately associated with many great composers.

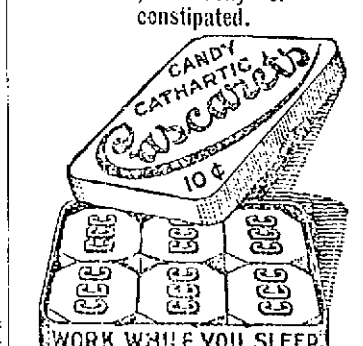

CASCARETS SELL TWENTY MILLION BOXES PER YEAR

Best, safest cathartic for liver and bowels, and people know it.

They're fine! Don't stay bilious, sick, headachy or constipated.

Enjoy life! Keep clean inside with Cascarets. Take one or two at night and enjoy the pleasant laxative and bowel cleansing you ever experienced. Wake up feeling grand. Your head will be clear, your tongue clean, your breath rich, stomach sweet and liver and thirty feet of bowels active. Get a box at any drug store and straighten up. Stop the headachy, bilious, sick, and bad digestion. Mothers should give a whole Cascaret to children when cross, bilious, feverish or it is constipated—they are harmless—never scribe or sicken.

BULGARIANS HOLD RAILROAD

SALONKI, Oct. 25, 7 p. m., via Paris, Oct. 26, 12:15 p. m.—With Uskup in their possession, the Bulgarians now hold with strong forces the Nish-Salonki railroad between Vranja and Uskup, a distance of about 50 miles. They have thus cut direct communication between Nish and Salonki, leaving open only the uncertain means of transit over the Monastir-Prishtina line.

"The situation in Serbia is grave, of course, but it is no wise desperate," said a French officer this evening. "The Austrians and Germans have advanced less than 12 miles on the Danube front, notwithstanding their numerical superiority."

"The line now held by the Bulgarians may prove to be perilous to them. You may say the French are fully alive to the situation and are not at all discouraged."

AMUSEMENT NOTES

LOWELL OPERA HOUSE

"Bought and Paid For," a drama in four acts from the pen of George Broadhurst is proffered by the Siles-Emerson players at the Lowell Opera House this week. It is a wonderful play and as presented by the Emerson players is bound to be one of the real successes of the season. Last night it was witnessed by a large and appreciative audience and the performance was indeed a splendid one for an "open."

The cast of characters is as follows:

Robert Stafford.....Homer Barton
Louis, a waiter.....Miss Dora Booth
Josephine, a maid.....Miss Dora Booth
Virginia Blaine.....Miss Dora Booth
James Gilley.....Joseph Crehan

"Bought and Paid For," unfolds a story of unusual interest and also affords the members of the cast an excellent opportunity to display their skill. It concerns a young man who upon the second year brings home a girl from a foreign land. He loves, and marries, a young woman who holds but a small position in the bank of life and for one year is happy. The second year brings trouble, however, on account of the man's temperate habits. When he continues to do home under the influence of liquor, his wife shrinks from him and this causes his anger. He tells her that she has no right to neglect him no matter how much his actions affect her as he has bought and paid for her by placing her in a position of wealth. They separate and for three months live apart but are finally brought together through the influence of a relative.

The story is a story of real life. Its situations are humorous and amusing and it is sure to make a strong impression on patrons of this theatre during its one week's stay here.

As Virginia Blaine, at first telephone operator and later the wife of the millionaire, Miss Ann O'Day is superb. By her story she brings home to the audience a feeling that the author intended. Miss O'Day outclasses every other character that she has ever played. Homer Barton as Robert Stafford, the young man, is splendid. Mr. Parry has a wonderful opportunity to expound his talents and he plays the character strongly.

Joseph Crehan plays Jimmy Gilley and gets many laughs with his brilliant sayings. From the start to the finish there is a ready flow of language and the actors are in a class by themselves. The character one of the finest in the play. Dora Booth does exceedingly well as Mrs. Gilley and makes a splendid sister partner of Mr. Crehan's in finishing the drama.

The scenic effects in the play are up to the usual standard set by the company and the promptness in changing the scenes is very much appreciated by the theatre patrons.

KEITH'S THEATRE

There are seven numbers on the bill. Keith theatre bill "bits work" and each one is in a class by itself. The close of last evening's performance words of praise were heard from many of the spectators, who credited the management with providing the patrons this week with one of the cleanest and most interesting programs for a long time. The bill deals with roller skates, marionettes, stunts, dances and clever actors who perform in a most delightful way.

The first number on the program is an unusual orchestra selection, which are worth listening to. This is followed by several reels of pictorial news which are both interesting and instructive.

MERRIMACK SQUARE THEATRE

Those who wished their way to the Merrimack Square theatre either yesterday afternoon or evening were delighted with the finished impersonation of Miss Clara Ridgely in the five act Paramount drama, "The Chorus Lady," which is the elaborate screen adaptation of the play of the same name which brought fame to Rosa Stahl when she appeared in it several years ago on the legitimate stage. The 7th episode of the adventurous "Neal of the Navy" serial held the interest of the audience which was thrilled by the latest adventures of Neal and Annette. The two act comedy brought forth many hearty laughs, which proved the mirth-making qualities of the farce. The Pathe News showed the latest event of importance. This excellent bill will be continued at all the performances at this theatre today and tomorrow. Amateurs tonight.

OWL THEATRE

Madam Petrova, the brilliant dramatic actress, scored a big hit at the Owl theatre yesterday in the five act Metro feature, "My Madonna." This is a very powerful film and in it this screen star has many opportunities to display her great emotional ability. Many other excellent plays will be seen at the Owl today in conjunction with this feature.

WEIGHED 672 POUNDS
EDWARD DUNKHORST, "THE HUMAN FREIGHT CAR," SPARRING PARTNER OF FITZSIMMONS, DEAD
CHICAGO, Oct. 26.—Edward Dunkhorst, 34 years old, of Syracuse, N. Y., known as "The Human Freight Car," on account of his enormous size, lies dead today at a hospital here.
He was a former sparring partner of Robert Fitzsimmons and for the last nine years has given sparring exhibitions.
Dunkhorst was 6 feet 7 inches in height and weighed 672 pounds at the time of his death.

BOYLE BEATS YOUNG BRITT
Local Boxer Wins From New Bedford Boy in a Hard Fifteen Round Bout

Phinney Boyle of Lowell showed the way to Young Britt of New Bedford at New Bedford last night and at the end of the fifteen rounds had enough of points to win several battles but owing to a ruling in New Bedford, no verdicts are given by the referee. Boyle fought his customary fight, out-boxing Britt nearly all the way. The first five rounds went to Boyle by a wide margin, Phinney just eased up and was content to keep ahead of Britt until the fifteenth round, when he unleashed his heavy artillery and rocked Britt from head to foot with heavy wallop to the head and the bell was indeed welcome to the Whaling City boy, for he could not have stood the terrific pace much longer.

LEVINSKY AND FLYNN EVEN
PORTLAND, Me., Oct. 26.—It is estimated that at least 2000 persons attended the first sparring event of the season at the new exposition building last evening. Young Abe Attell and Young Packey McFarland, both of Portland, gave a lively setto, but in the sixth round a quick left to the jaw by McFarland resulted in a knockout of Attell.
Ray Wood of Fall River and Charles Evers of Boston went 12 rather than eventful rounds, but gave a fairly good exhibition, and the bout ended with Wood perhaps slightly in the lead on points.
"Battling" Levinsky and Dan ("Porky") Flynn of Boston were given a great reception when they entered the ring. They were scheduled to go 12 rounds, but stopped at the end of the sixth, with honors even. They were disappointed over the division of the money, but they made their part of the exhibition very good.

AL SHUBERT WINS
PHILADELPHIA, Oct. 26.—Al Shubert of New Bedford, Mass., last night took the measure of "K. O." O'Donnell of Gloucester, N. J., at the Olympia. The New Jersey man was never in the fight from the start. He was nearly finished in the fourth and one of his eyes had been closed up.
Shubert lost 50, forfeit on the weight, as a result of drinking beef tea and a lot of water. His weight was 121 when he entered the clubhouse, but when he stepped on the scales later he had gained two pounds.
Young Solberg of New York, despite a handicap in height and reach, bested Artie Simmons of New Orleans.

BECHER EAKINS DRAW
ALBANY, Oct. 26.—Willie Beecher of New York earned a draw with Jimmy Duffy of Lockport here last night by his great showing in the last two rounds, in which he fought toe to toe with his opponent. It was probably the best fight ever seen in this vicinity, so far as action goes. They fought 10 seconds after the gong in the 10th, and fell to their knees when separated.

BOWLING CLUB LEAGUE
The curtain will raise Tuesday evening on the newly organized Club league when the members of the Lowell Shoe workers face the Salem A.C.

This league is made up of eight of Lowell's leading social clubs namely: Woodbines, Bellevues, Oxford, St. John's Nationals, Salem A.C., Lafayettees and Lowell Shoe workers. The officers elected to govern the affairs of this league are: Pres. Chas. H. Farrell, Treas. Willis J. Pettit, Sec. Wm. McDermott, prize committee: Frank Donnelly, chairman; Willis Pettit and Fred Germain.
The schedule calls for three rounds and will be rolled on the level alleys. Several valuable prizes have been secured and several concerns have notified the prize committee that they will contribute shortly. Among the noted rollers who will participate in this league are: Geo. Marquis, the French-American premier roller and William McDermott, star of the All Star Manufacturers' team which holds the distinction of being the only Lowell team to be undefeated last season. Both these men will be seen in action with the Salem A.C. The Bellevues have McQuade another top notcher, while the Lafayettees have Joe LeBrun of the

WITH THE DUTCH BOY SALEM WHITE LEAD

There is no waste. It remains workable indefinitely and there is no hardening in the keg.

Besides this pure white lead, we have all the other needfuls which the painting season calls for. The brushes in our brushes are securely set. Our colors in oil, turpentine and linseed oil, are all of the purest quality.

If you have a color scheme in mind, for any room in your house, we believe we can help you with the paint part of it.

Presidents. The following is a list of the bowlers: Woodbines: Chas. Kenefick, Capt.; A. Kenefick, Buckley, Montague, Bates, Farrell.
Bellevues: Tighe, Capt.; Purcell, McDowell, Ward, Anjus.
Salem A.C.: Marquis, Allen Half-Kenney, McDermott, Perrin, Lemire, Fadden, Capt.
Oxford: Donnelly, Capt.; Kirane, Kilmarney, Roy, Daly.
Lafayettees: Pettit, Capt.; LeBrun, Grew, Roubin, Lavellie.
Shoe Workers: Peter Germain, Capt.; Sabre, O'Brien, Walsh, Hagerman and Montgomery.
St. John's: Beauregard, Capt. (Team names not entered yet).
National: (Not heard from yet).
Schedule for this week:
Tuesday evening: Shoe Workers vs. Salem A.C.
Thursday evening: Bellevues vs. Oxford.
Friday evening: Woodbines vs. Lafayettees, St. John's vs. Nationals.

ABERG KEEPS HIS TITLE
ZBYSKO PINNED TO MAT IN 61 MINUTES IN BOUT AT MADISON SQUARE GARDEN LAST NIGHT
NEW YORK, Oct. 26.—Alexander Aberg of Russia, world's champion at Greco-Roman wrestling, successfully defended his title last night, throwing Waldek Zbyzsko, after one hour and four minutes of wrestling at Madison Square Garden.
The men met for periods of 10 minutes, separated by a minute's rest. Aberg had Zbyzsko on the mat several times, the former excelling in offensive work.
In the seventh session Zbyzsko secured a body hold, held his opponent up, swung him around three times and threw him sideways to the mat. As the men fell Zbyzsko was slightly underneath. Aberg grabbed his opponent's left wrist and with a side roll turned him over and obtained a chancery and body hold, enabling him to pin Zbyzsko's shoulders to the mat. One fall decided the match.
Aberg weighed 225 pounds and Zbyzsko weighed 230. The men met last June in an international tournament and wrestled three hours and forty-five minutes, when the contest was called a draw, as both men were exhausted.

FOOTBALL NOTES
The Artillery department of the U. S. Cartridge company has organized a football team, and is scheduled to play "Lut Thirteen" Saturday, October 30, at the South Common at 2:30 p. m. Send all challenges to the Artillery department, U. S. Cartridge Co.
Capt. Edward Connell, the husky left tackle of the Haverhill high team, is out of the game for the remainder of the season. Connell received an injury to his right knee in the recent Medford game and thinking it only a slight sprain walked about with it all day Sunday. On Sunday evening he complained of having severe pains in the knee and upon examination by the school doctor was found to be suffering from water on the knee.
Connell, who is picked by many as the greatest tackle ever developed in Haverhill, is a former Lowell boy, having graduated from the Haverhill high school. Haverhill will miss him greatly in the Lowell and St. John's games as he is the mainstay of the front line.

TO ABANDON HYPHENS
ABOUT 1500 FAVOR BEING PLAIN AMERICANS—ROOSEVELT WARMLY APPROVES OF NEW SOCIETY
NEW YORK, Oct. 26.—William Lustgarten, an attorney, head of a recently formed organization of foreign-born citizens which hopes to take the hyphen out of hyphenated Americans, made public yesterday a letter he received from ex-President Roosevelt.
"I wish to congratulate you," reads the letter, in part, "upon having started a society among American citizens of foreign birth who are enthusiastically against every species of hyphenated Americanism who are Americans pure and simple, and who stand for America and American citizenship before all else."
In an interview urging all citizens of foreign birth to support President Wilson in his efforts to maintain strict neutrality, Mr. Lustgarten reminded them that the "huns" are Americans, pure and simple, and stand for American citizenship before anything else. "There is no room in this country for German-Americans, Irish-Americans, Italian-Americans or any other hyphenated Americans. Either we are just plain Americans or we have made a mental reservation when we took our oath of allegiance."
Mr. Lustgarten said that about 1500 persons had responded favorably to the proposals, mostly from New York, Pennsylvania and New Jersey, 50 per cent of the responses being said to be from Germans of foreign birth or parentage.

No cigarette after-taste in Camel Cigarettes!

Camels, the new, blended choice Turkish and choice Domestic cigarettes, leave a delightful, refreshing taste!

Smoke them liberally without a tongue-bite or throat-parch! You'll prefer this remarkable blend to either kind of tobacco smoked straight—it's so smooth and mellow. Yet the satisfying "body" is all there!

Quality—no premiums!

Camels are sold everywhere in scientifically sealed packages, 20 for 10c; or 10 packages (200 cigarettes) in a glassine-covered carton for \$1.00. We strongly recommend this carton for the home or office supply or when you travel.

An Easy Way to End Catarrh Forever

Simple Home Treatment Destroys Germs of This Dangerous Disease

The reason why so many people who suffer from Catarrh never seem able to get cured is that they are continually seeking the momentary relief of sprays, douching, greasy creams, ointments, etc. Such things do open up the swollen nostrils and clear the head temporarily, but they do not cure the disease, and they never cure the throat and chest. To drive out Catarrh for good you have to get down to its real cause. Catarrh is a germ disease. The germs are always full of catarrh germs thrown off by one person and absorbed by another and when the system does fail to throw out such germs the final permanent judgment is in the nose, throat and chest and multiply rapidly. The germs of catarrh can best be destroyed by inhaling the pure medicated air of Eucalyptus (pronounced Hee-o-mee). This splendid and powerful combination of oil of Eucalyptus with other healing agents has a wonderful germicidal action. You breathe in means to your nose, throat and lungs by means of a small hard rubber inhaler which leads drugists in this vicinity supply with every complete treatment. This medicated air is certain death to the germs of Catarrh and drives them completely out of your system and when the germs are destroyed the catarrh with all its disagreeable symptoms will stop. Even two or three minutes' use will give refreshing relief while if you will use it two or three times a day for a few weeks it will completely banish all and every symptom of catarrh. As Hyomel is pleasant to breathe and is always sold by druggists everywhere with a positive guarantee of successful results or money back, surely no Catarrhal sufferer should go long before trying this simple home remedy.

GOV. WALSH'S RECORD

In their last desperate rush to create favorable sentiment for their candidate, the republicans of Massachusetts have lined up a formidable array of orators and political pleaders. These, heedless of logic or fact, strain every point to gain their ends and advance many vague arguments and indirect accusations to bolster up Mr. McCall's plea for votes as a protest against the administration of President Wilson. They are confronted with one serious obstacle which is worth many partisan speeches—the record of Governor David I. Walsh. This record is the real issue and on it Governor Walsh bases his candidacy like the sincere and courageous official he is.

In considering the record of Governor Walsh, it must not be forgotten that his achievements were accomplished in the teeth of the strong and insidious opposition of a republican legislature. How cleverly that opposition was carried on, he has revealed in his clear exposures of invisible government at the state house, but in spite of opposition and secret hostility, he has left a record of progressive and humanitarian accomplishments which no republican spellbinder can obliterate.

A review of a few of Governor Walsh's accomplishments will prove worth considering. He has proved himself the friend of the wage-earners, for in one year he has increased the benefits to injured workmen \$890,515.00; he has increased the amount paid to widows and children of employees killed at work \$423,093.00; he has befriended the farmer by vetoing a milk bill which would have destroyed the milk industry of the state, and by obtaining an appropriation of \$2,500,000.00 for good country roads; he has inaugurated a system of free educational correspondence schools for ambitious citizens who are unable to pay for higher private education; he has established a health department which is claimed to be the best in the country and which even his opponents do not condemn in any particular; he has secured a free ballot by causing to be removed from the election laws the requirement for a party enrollment, and he has worked hard for cheaper life insurance, a much needed reform of the taxation system and the better control of public service corporations.

Any one of these reforms would afford ground for eloquent arguments in support of Governor Walsh, but such is not the purpose of this brief review. They are quoted merely to offset the opposition of a selfish political group which to get back into power in Massachusetts does not hesitate to calumniate the governor and strive to ridicule his achievements. The thinking voter who has kept in touch with the legislature has ample proof of the difficulties which Governor Walsh has surmounted and of the vast program of constructive reform which he has to his credit, all planned and executed in the interest of the people of Massachusetts.

OPPOSING THE PRESIDENT

The fact that the German-Americans are thus early organizing to oppose the re-election of President Wilson will only strengthen him if he becomes a candidate. When the president of the United States by defending the honor of the nation incurs the enmity of any element the forces of patriotism throughout the land will rally to his support and to overthrow the factions that would assail him because he refused to permit any outrage to be perpetrated upon this country with impunity. The German-Americans should remember that this country is observing a policy of neutrality in reference to the war and that if England had committed outrages against the United States equal to those perpetrated by Germany she would have been held accountable with equal or even greater firmness by President Wilson. The German-Americans cannot show wherein our government has been unfair as between the belligerents, considering the nature of their respective acts involving the rights and the honor of this nation and the safety of its citizens.

At the meeting held in Worcester were college professors who are apparently unsafe leaders for the patriotic and progressive German element of our population. Any general opposition to President Wilson on account of his having forced Germany to change her submarine policy cannot fall to injure those concerned in it. Had he failed to take the action he did he would have been unworthy of the high office he holds.

There seems to be a prejudice against him also for permitting the manufacture and sale of munitions. He cannot now stop the sale of munitions. Had he adopted such a policy at the outset of the war he might possibly have had the right to do so, but after the war had been in progress for over six months and all the belligerents had ordered supplies here to change the policy because Germany was driven from the sea would be a violation of neutrality. That Germany can no longer draw upon this country for munitions is an incident of the war and her misfortune, not our fault.

WALSH QUESTIONS MCCALL

At the monster democratic rally held at Tremont Temple, Boston, last

Saturday evening—a rally, by the way, which aroused unprecedented enthusiasm and revealed the unquestionable popularity of Governor Walsh—the governor put some very pertinent questions up to the republican candidate, reminding him that the state is more interested in what the candidates pledge themselves to do, or to attempt, than in abstract discussions of the tariff or the Wilson administration in general. The questions were direct and to the point and they deserve a direct answer.

Among other things, Governor Walsh asked Mr. McCall to define his stand on the Ellis milk bill, on the reform of taxation, on the railroad issues, on an investigation of telephone service and charges—killed by the republican legislature through "invisible government" methods—on the appropriation of money for popular education, on the initiative and referendum, on the "reasonable hours and conditions of labor" of the republican platform, on the plans for the reorganization of the New Haven railroad, and so on. Surely all of these things are of vast importance to Massachusetts which will be affected by their disposition far more than by President Wilson's Mexican policy or any act or aim of the national administration. President Wilson needs no champion while there is a world war, and Governor Walsh wisely refrains from making an issue of Washington policies. He shows far more interest in the state and in its people by discussing his record in detail and asking Mr. McCall to be more specific in his campaign utterances.

FOR U. S. TRADE

The United States government is not waiting for the end of the war to make practical plans for trade extension, the surest proof of the contrary being afforded by increased estimates of the department of commerce, with appended reasons for the heavier expense. That the activity is justified will be admitted by all who realize the great plans being made by the belligerent nations, even during the war period. At the cessation of hostilities the nations will strive to regain what they have lost and one of the most direct means will be through the extension of foreign trade. When the heavily-taxed warring nations make such plans, it would be shameful for this country to be found wanting after its blessed period of peace and prosperity. If the department of commerce may have its way, we will be ready for an extraordinary increase in trade at the culmination of the struggle.

The plans include the complete reorganization of the bureau at Washington, the hiring of many more employees, the sending of experts abroad in greater number, plans for comprehensive investigations of trade fields, and means to facilitate the linking of the producer with the foreign markets. Statistics and tables will be published daily, keeping the manufacturer and owner of raw product in this country in touch with needs everywhere, and by co-operation the government will strive to create favorable sentiment towards American business in the markets of the world.

SEEN AND HEARD

A brand-new suit case with a lot of European labels on it now is a dead give-away.

Even when you don't believe half of what you read, you may get into trouble by believing the wrong half.

If anybody asks you suddenly how many days it will be to the next legal holiday, just count up the days till Sunday.

There is also the person who took in the moving pictures the night before, and who insists on telling you the story of the films.

It is hard to say which is the most objectionable person, the person who disagrees with everything you say, or the person who agrees with everything you say.

Angels Didn't Show
"Mamma," called four-year-old Harold from the nursery, "please come and sit by my bed until I go to sleep."
"Mamma's busy now," was the reply.
"Keep quiet and the angels will be with you."

"You said that before, mamma," rejoined Harold, "and I have kept quiet ever so long, but not a blessed angel has showed up."

Spinal Column Detained
A teacher was explaining the nature of the spinal column to a class of 12-year-olds. After finishing the discussion she said to a little boy:
"Now, my back, what is the spinal column?"
Scratching his head thoughtfully for a minute, he replied: "Well, mamma, 'tis the thing that runs up and down your back. Yer head sits on it, and you sit on the other."

The Tale of a Fish
A fish's tail is its wings. Owing to the machinery of muscle set along its spine, and to its slaying form, a trout or salmon can dart through the water at a tremendous pace, though its rapid flight, unlike the birds, are not sustained ones. It is soon tired. The water is not so friendly to flight as the air. The stroke of the fish's tail is one of great power, and by means of it and the writhing, snake-like flexion of the body a high speed is reached. The strength behind this speed is shown in the way a fish or sea mammal can cut through the water with its tail and strike the ground or boat.

A Fellow Feeling
"All sorts and conditions of men have excellent explanations for their

positions in life," said the senator. "A tramp, however, came under my observation who had no illusions about the cause of his own condition."

"A fine looking, and fashionably dressed woman had just alighted from her limousine at the hotel entrance and was suddenly approached by this shabbily dressed man, who requested a dime."

"No, I have no money to spare for you," she said. "I do not see why an able-bodied man like you should go about begging."

"I s'pose, ma'am," replied the lazy tramp, "it's for about the same reason that a healthy woman like you boards at a hotel instead of keeping house."

Husband to Blame

He was deeply in love with his wife, but awfully careless about money matters. He started away on a long business trip, leaving her short of money and promising to send her a check—which he forgot to do. The rent came due and she telegraphed:
"Dead broke. Landlord insistent. Wire me money."

Her husband answered:
"Am sorry. A thousand kisses."

Disappointed, his wife replied:
"Never mind money. I have landlord one of the kisses. He was satisfied."

Owed Success to Chance

A young man in the Kimberly diamond mine had been experimenting for months in an effort to find a way to separate diamonds from other stones so as to eliminate the tiresome, tedious, hand-picking process. His efforts and labors had all been in vain, but he refused to be discouraged and adhered to his purpose.

One day he was working at his bench when a small diamond and a garnet happened to be lying on the board before him. In some way he tipped the board at such an angle that the two sections rolled together toward the edge. It happened that there was a small grease spot on the board, and when the diamond reached it, it was stopped and held, while the garnet passed on and fell over the edge.

Wondering whether this had been an accident or whether the garnet possessed the peculiar property of attracting diamonds and allowing other stones to pass over it, he tried again and again with the first diamond and with various others and found that if a board were tilted in the proper inclined position the diamonds placed on it would be caught and held by the grease, while all of the other stones would roll off. He at once set to work and as a result of his accidental discovery soon built a machine which was a success from the very beginning. In a short time it was doing all of the work that had formerly been done by hand, saving considerable time and expense in the operation.—Pathfinder.

When Frost Is on the Pumpkin

When the frost is on the pumpkin and the fiddler's in the shock, And you hear the kye-cuck and gobble of the struttin' turkey cock, And the cluckin' of the guineas, and the cluckin' of the hens, And the rooster's hallylooyer as he tips on the fence;
Oh, 'twer the time a feller is a feller at his best, With the risin' sun greet him from a night of peaceful rest, As he leaves the house, bare-headed, and goes out to feed the stock, When the frost is on the pumpkin, and the fiddler's in the shock.

Their's something kindo' hearty-like about the atmosphere, When the heat of summer's over, and the coolin' fall is here— Of course we miss the flowers, and the blossoms on the trees, And the hummin' of the hummin' birds, and buzzin' of the bees; But the air's so agreeable, and the landscape through the haze, Of a crisp and sunny morning of the airy autumn days, Is a picture that no painter has the colorin' to mock— When the frost is on the pumpkin and the fiddler's in the shock.

The husky, rusty rassel of the tassels of the corn, And the raspin' of the tangled leaves as golden as the morn; The stubble in the furrows—kindo' lonesome-like, but still A picture comin' to us of the barns they grewed to fill; The straw stack in the meadow, and the reaper in the shed; The hoes in their stalls below,—the clover overhead! Oh, it sets my heart a-clinkin' like the tickin' of a clock, When the frost is on the pumpkin and the fiddler's in the shock.
—James Whitcomb Riley.

Ladies' and gentlemen's felt, velvet and heavier hats cleaned, dyed and reblocked into the latest styles.

E. H. SEVERY, Inc., 133 Middle Street. Open Saturday and Sunday Even.

A QUARTER CENTURY AGO

Two gentlemen, aye, gentlemen and scholars down to the boots, both of them, were seated in a Boston cafe recently, discussing the questions of the day generally, and a carefully selected menu, in particular, when one of them asked the other:

"Why do men gamble?"

"Why do people marry Lillian Russell?" came the prompt reply.

The gentleman who asked the question was Mr. H. Addington Bruce, the noted scholar, scholarly writer, and prince among men.

He who, Yankee-like, answered the query by propounding another, was a well-known resident of Northville, likewise a scholarly gentleman, and of the salt of the earth.

Hence it was with more than ordinary anticipation that I opened the pages of the Sunday magazine, last Sunday, to what proved to be a delightful, entertaining and thoughtful article on the subject of "The Man Who Gambles," from the pen of H. Addington Bruce.

In the course of his article Mr. Bruce referred to the superstition of gamblers as follows: "The savage is impelled to gamble, both because he has nothing else with which to occupy his mind, and because he is extremely superstitious. There can be no question but that the same superstitious streak lingers to some extent in the most civilized of men, and that it plays a part in the making of the civilized gambler."

"Modern gamblers as a matter of fact, are proverbial for their superstitious notions. Like the savage, they worship under the altar of luck. Luck, like the savage, too, they have all manner of curious rites and customs to persuade Luck to smile on them."

"For this purpose they carry the foot of a rabbit, a cherished coin, or a 'lucky stone.' To propitiate Luck they resort to all sorts of their way to tone up a hump-backed man, or here engaging in any rambling enterprise. When, at cards, a gambler is steadily losing, he will ceremoniously walk around his chair in the hope of appeasing the Luck that is frowning on him. At every turn of the wheel, throw of the dice, or deal of the cards, the gambler nervously invokes the all-powerful influence of Luck. The gambler's habit has as one of its roots, superstition."

Mr. Bruce appears to have an almost suspicious knowledge of the different signs, tokens, omens and practices used to invoke the aid of luck. But I venture the assertion that with all of his profound knowledge he has never heard of "The Sheppard ham," and pernaturnally gifted and infallible champion luck-invoquer of the wide world, Savannah, Ga., and Lowell, Mass., warranted to dig out luck unsearched from under an avalanche of adversity; a cure for all ills that are, and a preventive for all that may be, and not the least of its pretensions, practices, possessed of the power to impart to him who wears it immunity from arrest.

The Sheppard ham gets its title from one "Dr." Sheppard, a negro celebrity of Savannah, Ga., who for the past quarter of a century has been getting by among the folks at home in various ways, ways that likewise are vain. The doctor gets his title from two sources, firstly, a doctor of divinity, the title having been absorbed by him, rather than conferred upon him, in which he has quite a following; and secondly, as a "divine healer," selling the best word with an "a" rather than double "e," in which he has even a larger following. His particular method of "healing" is to supply his patients, for a respectable remuneration, with a paper on which are inscribed certain numerals, letters, and various signs and rude pictures, which when placed and worn over the heart of the vic—patient, is an absolute cure for all his ills.

As a side-line the doctor sells for the modest sum of ten dollars, the celebrated "Sheppard ham." As long as his purchaser has it on his person he can sleep easy and exempt from disease, danger or arrest.

Like the laws of the Medes and the Persians, that Sheppard ham has been something to conjure by for quarter of a century, and only once has its infallibility been brought into question, and that happened only one week ago.

At Savannah, police court before my old and esteemed friend Judge John Schwarz, it seemed that the doctor unexpectedly descended upon a party of 20 residents of Savannah when all were merely assembled in the centre of a room excitedly following with sparkling eyes the rolling of a pair of dice while "Come on, dice, you seven," "Big dice," "Little Phoebe," "Ah! fade yer, hon," and similar strange exclamations shook the stillness of the midnight air. After the police had cleaned up the players and about everything else in the apartment worth taking away, one of them found on the floor a small, heart-shaped object, which turned out to be one of the famous Sheppard hams.

The owner of the ham, who promptly claimed it, stated that it must have fallen from his pocket, and hence as it was not on his person when he was arrested, he still had faith in it, and asked its return, solemnly vowing to securely fasten it in the future.

Judge Schwarz confiscated the precious ham, and deciding that the state of Georgia had no particular use for it, turned it over to his friend, Col. William L. Grayson, also of Savannah, national president of the Eagles, and well known in this city.

Col. Grayson, accepting the gift, said: "Your Honor, if there's one man in this wide world who needs a little luck, it's my friend John J. Dawson, 'way up in Lowell, Mass., and if there's any luck in the thing, Dawson is going to get it."

The ham was duly received a few days ago by Mr. Dawson, and with what result? That night John attended a meeting of the Village Improvement society. Before going he placed on the ham and hoped that something

new and profitable would come into his humble and somewhat dreary life. And sure enough, something decidedly new for John came along that very night; new faces, four of them, all K's. And the following day he was drawn on the jury!

Surely the Sheppard ham, am de ham dat am!

—Tom Clifford Here

A week ago a visit to the Merrimack Square theatre to see Jack Mason in the movies reminded me of the theatricals of quarter of a century ago. Again I looked in at the same theatre on Sunday, and there I found another grand old-timer, though an old-timer who is still going and going as good as of yore, the exemplification of the old adage about old wine—Tom Clifford, baritone. Who among old-time theatregoers does not recall the thrill that went through him quarter of a century ago, when seated at a performance of the original production of "The Old Homestead" in the Grace church scene, the hidden organ suddenly burst forth in stately harmony and the magnificent voice of Tom Clifford, from an invisible organ, filled the theatre with the triumphant melody and gladsome words of "The Prayer?"

"The Prayer," a grand hymn has been sung from the Atlantic to the Pacific and across the water by singers of high and low degree, but it was Thomas E. Clifford who brought it out and made it famous while the celebrated soloist in Dennan Thompson's own and famous company of years ago. There were other subsequently great singers who were members of the double quartet in that company, notably Hokea, the counter-tenor, and Brillman, the basso, but Tom Clifford was the vocal star of that aggregation.

The Dennan Thompson company was to New England what Harrigan and Hart, of days gone by, were to New York, neither need go out of its own immediate neighborhood to fill out a successful season, though the Thompson company would go as far away from home as New York, while Harrigan and Hart sometimes would run over to Boston. Mr. Clifford remained with Mr. Thompson's company until the latter decided to head the world of his business manager, who had received requests from all over the United States to appear in its leading cities, and booked up for a tour of the country that would run for six weeks or over a year. Mr. Clifford declined to remain away from dear old Boston as long as that, and instead charged over and became a member of the original company presenting "The Sunshine of Paradise Alley," a production in which Mr. Thompson was financially interested, and which made a big hit on the road.

It was with this company that Johnnie Quigley, at present one of the best known and most successful theatrical booking agents in the east, made his first appearance as a professional singer, through the efforts of Mr. Clifford, and then sprang up a lasting friendship between the pair, incidental to which was Mr. Clifford's appearance at the Merrimack Square on Sunday. Johnnie Quigley was a young man, boy with a rarely beautiful voice, which he cultivated through the aid of a man of means who became attracted by the "sweet voice" as Johnnie was singing one night long ago. From that time Johnnie became famous as a singer and frequently appeared in the road. In recent years he has conducted his theatrical work to that of a booking agent. For some years ago Clifford has taught vocal culture with great success, and does today, while he also engages in concert work.

When John McCormack appeared at Keith's recently some of the critics said: "There's none can sing an Irish song like McCormack." They meant to say there's no one who can sing Irish songs like McCormack; else they could not have heard Ludwig or Tom Clifford sing them.

THE OLD TIMER.

VICTORY IN BAY STATE

MARGARET FOLEY SURE MASSACHUSETTS WILL VOTE FOR WOMAN SUFFRAGE

BOSTON, Oct. 25.—Miss Margaret Foley, who last night made her first speech in Boston after a tour of the entire state devoted to the opening of the final week of the suffrage campaign with a rally in Faneuil hall, that she was convinced the men of Massachusetts were going to stand by the suffragists and give a greater plurality in favor of the cause than has ever been given in any other state.

Both the prosecutor and counsel for the defense made stirring pleas, the former for the imposition of a heavy sentence, and the latter, composed of Signors Gataneeo and Michell Picardi, for acquittal on the ground that the prisoner was totally irresponsible when the crime was committed.

Signor Picardi declared that no man in Charlton's condition could be responsible for his actions under any law.

CHARLTON GUILTY

Sentence 6 Years, 8 Months—Amnesty Reduces This to 29 Days

COMO, Italy, Oct. 25.—Porter Charlton, the American who has been on trial here charged with murdering his wife in 1910, was yesterday condemned to six years and eight months imprisonment.

The jury found Charlton only partially responsible and that there were extenuating circumstances.

Owing to amnesty Charlton will serve only 29 days in prison.

Charlton, under the verdict, benefits by the time he has been under restraint since in addition a year is taken off the sentence under the amnesty for all offences committed before Italy entered the war.

Even though he was greatly pleased over the verdict of the court, and viewed with pleasure his approaching liberation from custody, Charlton retained his usual restrained and almost passive attitude. He thanked all those about him for their congratulations.

Charlton said that after his release he would return to the United States and join his family.

SUCCESSOR TO DEL CASSE

NEW FORMER MINISTER TO BE SELECTED AT TODAY'S MEETING OF CABINET

PARIS, Oct. 25, 4:15 a. m.—The question of a successor to Theophile Del Casse, who recently resigned as foreign minister, will be definitely decided at today's meeting of the cabinet. It is understood that the new foreign minister will be an influential member of the present cabinet, who will be replaced by a former premier now holding a more modest post in the cabinet.

The new minister whose nomination this re-organization of the cabinet will necessitate will be taken from the radical left group to which Del Casse belonged, thus maintaining the united character of the administration.

VIOLEN 250 YEARS OLD

Social Gathering at Home of Mr. Robillard—Heard Selections on Music Instrument

A pleasant social gathering took place Sunday afternoon at the home of Mr. and Mrs. L. J. Robillard, 728 Moody street, and a feature of the event was violin selections upon an instrument 250 years old, owned by Charles Lambert. About 25 friends were present and a delightful musical program was given, those taking part being Conrad Paquette, Charles Lambert and Eugene Guibault, talented violinists; L. J. Robillard and J. Guibault, pianists, while vocal selections were also given by many of those present. Refreshments were served, and the party broke up at a seasonable hour after extending their thanks to their hosts for their cordial hospitality.

If you want help at home or in your business, try The Sun "Want" column.

The success of a product cannot be attributed to advertising alone. It must possess merit to warrant the good-will and confidence of the buying public.

Duffy's Pure Malt Whiskey

has enjoyed a wide-spread sale during the last half century and more, because of its merit and the confidence of its users.

Duffy's is unlike any other whiskey—does not even taste the same. Chemical analysis proves it to be different, vastly better and more reliable than ordinary beverage whiskeys for the delicate stomach. A tablespoonful in water before meals and on retiring, assists digestion and promotes better health.

Every family medicine chest should contain a bottle of Duffy's for use in emergencies and slight indispositions which frequently occur.

NOTE—Get Duffy's from your local druggist, grocer or dealer. At \$1.00 per bottle, it cannot supply you. Write us, we will tell you where to get it. Medical booklet free.

PRINTING THE BALLOTS BEGINS SECOND TERM

WORK WILL BE PUSHED—DECISIONS COMPLETE ON ALL PROTESTS

BOSTON, Oct. 26.—Work of printing the ballots for use in various counties, which had been held up pending protests against nominations, will now be pushed by the secretary of state's office, as decisions in all pending cases were handed down yesterday afternoon by the ballot law commission. It is expected that all of the 825,000 ballots for use on election day will be shipped by Saturday.

The ballot law commission handed down the following decrees:

"For county commissioner of Middlesex county, the name of Alfred L. Cutting, republican, shall go on the ballot, and the protest of Frank J. McAvoy of Cambridge that men took part in the convention of city and town committees which nominated Mr. Cutting whose names were not recorded with the secretary of the commonwealth is thrown out, there being no evidence that any man voted in the convention who had not a right to do so.

"The name of William H. Walsh of Framingham, as democratic-citizen candidate for commissioner of Middlesex county, shall go on the ballot, the charges of forged signatures to his papers not being sustained.

"The name of John Lathrop Dyer, as a republican-reform candidate for county commissioner of Middlesex county, shall go on the ballot, the charges of forged signatures to his papers not being sustained.

"For senator: The name of John F. Houlihan of Uxbridge, as democratic-citizen candidate from the 4th Worcester district, shall go upon the ballot, because the protest against Mr. Houlihan's papers is withdrawn.

"The name of Edward Carr of Hopkinton, as progressive-independent candidate for senator from the 1st Middlesex district, shall not go upon the ballot, because Mr. Carr is already the regular democratic candidate on the ticket, and the law forbids the candidate of one party using the name of another party, unless he has been regularly nominated also by the other party.

"For representatives: The names of Edward D. Stickney, John P. Ollis and Albin Johnson of Cambridge, progressive party, independent candidates for representatives from the 2d Middlesex district, shall go on the ballot, because the charges of forged signatures on their papers are not sustained."

If you want help at home or in your business, try The Sun "Want" column.

A BILIOUS TONGUE

When your tongue is coated evenly, all over, with a whitish-yellow color and your breath is bad the chances are that you are bilious. If you also have indigestion, constipation, headache and a general ill feeling, there is scarcely a doubt about it. Your liver needs attention.

Harsh cathartics which purge violently and then produce a reaction only aggravate the trouble. Gentle assistance is what nature needs to establish regular habits of health and eliminate the little pink laxative pills, free from harmful or habit-forming drugs meet the requirement most admirably.

If your druggist does not sell Pinkets they will be sent by mail, prepaid, on receipt of 25 cents by the Dr. Williams Medicine Co., Schenectady, N. Y. Write for booklet anyway.

Big Gist of Complex Have Taken Out Marriage Licenses at City Hall Recently

The following marriage intentions have been filed at the city clerk's office since the last were published:

Charles J. O'Neil, (widowed), 21 Agawam, 42, operative; Mary Lynch, (widowed), 559 Lawrence, 42, weaver.

John L. Griffin, 25 Rutland, 24, billiard car shop; Anna J. Dunlavy, 83 Washington, 24, at home.

Arthur Doyon, 57 Rock, 25, machinist; Adelaide M. Fitzpatrick, 1091 Gorham, 24, at home.

Samuel McManis, 5 Fulton, 21, weaver; Mary Kallio, 16 Marsh, 10, looper.

Lampros K. Haptos, 468 Market, 32, operative; Georgina Pishlani, (widowed), 410 Market, 25, operative.

Marion Rutkowski, 83 Davidson, 26, operative; Petronella Zydlals, 30 Davidson, 21, operative.

John J. Kelly, 32, overseer; Della O'Hara, 268 Salem, 28, operative.

Henry F. Mills, Somerville, 33, R. & M. railroad; Carrie L. Mountain, 8 Atlantic, 25, cloth inspector.

John M. Quail, 29 Willie, 20, machinist; Harriette Faulkner, 103 Common, 19, at home.

Patrick Judge, 25 Exeter, 21, woolen spinner; Catherine Roche, (widowed), 87 Hampshire, 29, at home.

Konstantinos Bourlis, 374 Market, 24, operative; Sittant Kanavou, 374 Market, 21, operative.

Wilfred Aubrey, 37 Westford, 26, laborer; Angeline Arsenault, (divorced), 87 Westford, 28, shoemaker.

Raphael Nemer, 102 Grund, 35, barber; Lena Kahill, 10 Smith, 27, at home.

James D. Roark, 69 Fifth, 24, salesman; Irene M. Brunelle, 16 Grand, 23, bookkeeper.

John J. Horgan, 26 Burns, 21, clerk; Alma Deaudette, 34 Beaulieu, 22, gownmaker.

Henry Cloutier, 25 Willie ave., 19, shoe maker; Blanche Paquin, 120 Martin, 19, hosiery.

William Howard Jolly, 55 Royal, 31, overseer; Grace Boyd Moehre, 350 Broadway, 25, at home.

William P. Britton, 11 Exchange place, 26, teamster; Mary J. Curtin, 514 E. Main, 25, hairdresser.

Ernest Ouellette, 768 Merrimack, 22, clerk; Alexandrine Hamel, 158 Gershom ave., 23, Lawrence Mfg. Co.

John J. Flaherty, 32 Phillips, 32, clerk; Bridget K. Smith, 31 Wyman, 33, school teacher.

Edward O'Malley, 24 Dracut, 25, clerk; Margaret McArthur, 24 Nichols, 24,

Helma Electric Co. George Green, 9 Roper, 34, plumber; Agnes Staveley, 29 Staveley, 31, at home.

John W. Wainwright, 152 School, 33, engraver; Blanche B. Bellefontaine, 130 Riverside, 25, at home.

Charles Saenger, (widowed), 105 Worthen, 47, laborer; Rosanna Sarasin, (widowed), 9 Race, 44, operative.

Victor M. Sutherland, E. Chelmsford, 26, bookkeeper; Elizabeth K. Watters, 17 Ralph, 24, at home.

Christie Eaton Wheeler, Mt. Vernon, N. Y., 24, landscape architect; Gladys Louisa Mellon, 1688 Middlesex, 25, at home.

James F. Fells, 35 Ash, 24, laborer; Margaret A. Roark, 31 Chelmsford, 25, laundress.

William Beaulieu, 205 Cheever, 18, weaver; Marie Louise Rondeau, 205 Cheever, 22, operative.

Clement Derry Sargent, Swampscott, 26, leather business; Elizabeth Wilder, 20 Huntington, 24, at home.

Vincent Blazonis, 7 Cady, 25, Appleton Mfg. Co.; Anna Zillinska, 7 Cady, 21, weaver.

Plotu Abuciewicz, 16 Ben's Court, 22, operative; Maryanna Lynz, 127 Fayette, 20, operative.

Owen Slein, 14 Adams ave., 26, clerk; Mary Geary, 1355 Broadway, 24, operative.

TAKE STRIKERS' PLACES

WIVES OF OFFICIALS OPERATE MACHINERY AT PLANT OF ESSEX RUBBER CO. IN TRENTON

TRENTON, N. J., Oct. 26.—Wives of 11 officials of the Essex Rubber company, including Mrs. Charles H. Oakley, wife of the president, took the places of striking girls in the plant yesterday in order to keep the machinery running.

Thirty-five girls employed as trimmers in the pressroom are on strike for better sanitary conditions. The company maintains that the demands are unreasonable.

EDISON IS HONORED

Inventor, Burbank and Herbert Review Parade of School Children at Exposition

SAN FRANCISCO, Oct. 26.—Thomas A. Edison, with Luther Burbank, the naturalist, and Victor Herbert, the composer, yesterday reviewed a parade of school children who marched at the Panama-Pacific exposition in honor of the inventor. The children, who came from four California counties, gave their school yells as they passed the reviewing stand.

When the last child had passed, Mr. Edison turned to his wife, saying: "It was the greatest thing that ever happened to me."

Medals, essays and various other gifts from the children were handed to Mr. Edison.

URGES TAX REFORM PLAN

Advantages of Change Pointed Out in Pamphlet Issued by Massachusetts Tax Association

BOSTON, Oct. 26.—A pamphlet entitled "The Taxation Crisis in Massachusetts" and advocating a "Yes" vote on the adoption of the proposed amendment to the constitution, which will give the incoming legislature the power to reform present alleged abuses, has been issued by the Massachusetts Tax association. It covers

many phases of the present taxation system in this state; cites illustrations of the inconsistent operation of the Massachusetts system; points out many evils effected by the present law; quotes statistics showing the effect of a fair tax on intangible personal property in states that have adopted improved tax systems; and quotes the democratic and republican party platforms and prominent men in favor of the amendment.

PIGS AS COMPANIONS

DARTMOUTH STUDENTS WILL TRAVEL TO AMHERST AS "HOSTLERS"

HANOVER, N. H., Oct. 26.—The enthusiasm of the sponsors for the "Cattle Special," in which it was proposed to transport Dartmouth students to the Amherst game next Saturday as "livestock" at 50 cents a head, was somewhat dampened for a few minutes yesterday, when it was learned that the interstate commerce commission does not allow such transportation of humans.

However, they are again jubilant, for they believe that by taking one carefully crated pig in each car and having the students act as "hostlers" they will be able to evade the commission's edict.

So far as could be learned, the number of caretakers for each animal is not limited, and it is now believed that more than 600 will go from here to visit the Amherst game, although proposed excursions to Smith college at Northampton will doubtless have to be called off, after the boys have traveled nearly 100 miles with pigs as companions.

A special will leave White River Junction Friday night at 5 o'clock, returning Sunday night at midnight.

PROTEST HIGHER RATES

CITIZENS PLAN TO FIGHT PROPOSED INCREASE BY BAY STATE ROAD AT MASS MEETING

WAKEFIELD, Oct. 26.—A public mass meeting to protest against the proposed increase of fares by the Bay State Street Railway company was held last night in the Town hall, ex-Senator Charles A. Dean presiding. Mr. Dean explained the different rates of fares in the proposed plan of the road, and they would affect residents of this town.

Ralph S. Bauer of Lynn, who is chairman of the Essex county committee to protest fares, cited the cases of several western street railways, where much longer rides were given for five cents. Rep. Eden K. Bowser, George H. Taylor, M. C. Robbins and E. H. Perley also spoke in opposition to the increase.

A meeting passed a resolution of protest to be presented to the public service commission. On motion of E. H. Perley it was voted to suggest to the commission that the road should reduce its rates and extend its radius of transportation for a single fare. It was also voted to name a committee, representing various local organizations and the town government, to appear at the hearing before the public service commission.

MANY FREAKS OF NATURE

Apple Tree in Orange Bears Blossoms and Fully Developed Fruit at Same Time

ORANGE, Oct. 26.—Many freaks of nature have been caused in Orange and vicinity because of the recent unusually warm weather.

On the farm of Miss Neilson, one side of an apple tree is in full bloom and the blossoms are as fragrant as though a spring creation while on the other side are fully developed apples.

In New Salem Mrs. R. K. Siep has a beautiful outdoor rose which has 17 buds and blossoms and Mrs. Graco Whittaker has a crimson Rambler in full bloom.

The Misses Agnes and Eliza Merriam have a bed of scarlet anemone as beautiful as it ever is, and yesterday Bessie B. Ballard picked a spray of bush honeysuckles in bloom.

Mrs. Earl Whittaker, teacher of the South school in New Salem, wore a bouquet of wild violets to school last Friday.

FORM A CREDIT UNION

PLAN TO SAVE BOSTON EMPLOYEES FROM "LOAN SHARKS" MAYOR CURLEY SAYS

BOSTON, Oct. 26.—The city of Boston Employees' Credit union was organized yesterday afternoon at a meeting in the old aldermanic chamber at city hall. Mayor Curley presiding. The immediate object of the union, according to the mayor, is to rescue the employees of the city who are at present in the hands of "loan sharks," and to prevent others from falling into their clutches.

Shares were fixed at \$5 each, with 50 the most that will be issued to one person. The mayor started things going by taking 20 and before the meeting was over, there was \$750 in the treasury.

The supervisory committee of the union comprises Mayor Curley, City Auditor J. Alfred Mitchell and Commissioner of Public Works Edward F. Murphy. Bernard C. Kelley, chief clerk of the public works department, was elected president; John H. Mahoney, of buildings department, vice president; City Treasurer Charles H. Slattery, treasurer; Joseph F. Sullivan, clerk.

The credit committee comprises Wilfred J. Doyle, George A. Flynn and William J. McGlinchey. The following were elected to the board of directors: For one year, John J. O'Callaghan, Stephen L. Mahoney, Wm. P. Long, Fred K. Zeigler, Henry C. Millard; for two years, James H. Sullivan, Martin P. Higgins, James S. McKenna, James J. Mahar, Edward T. Kelley; for three years, Charles H. Slattery, Bernard C. Kelley, John H. Mahoney, Thomas Jordan, Joseph F. Sullivan.

SUBWAYS COME HIGH

BOSTON SPENT \$3,223,106.25 IN ONE YEAR—REPORT OF RAPID TRANSIT BOARD TO JUNE 1

BOSTON, Oct. 26.—Between June 30, 1914, and June 30, 1915, Boston spent for subways \$3,223,106.25, which brought the total cost of the city's rapid transit facilities, including the Charlestown bridge, to \$22,007,568.83, according to the annual report of the Boston transit commission just published.

Of the year's expenses, \$1,645,554.70

NEW ENGLAND CHAMBER

PROPOSITION OF ORGANIZING A NEW ENGLAND CHAMBER OF COMMERCE DISCUSSED

WORCESTER, Oct. 26.—Representatives of commercial and manufacturing interests and of commercial organizations in nearly all sections of New England met here yesterday and discussed the proposition of organizing a New England chamber of commerce.

Frederick J. Hillman of Springfield, president of the western New England chamber of commerce, was authorized to appoint a committee to prepare a tentative plan of organization, frame a constitution and by-laws and a statement of the purposes of the proposed body. This plan will be submitted to all members of the general committee for suggestions and then to all organizations of New England, industrial, commercial, civic and agricultural.

Those present were: From Massachusetts, Mayor Wright of Worcester and Frederick J. Hillman of Springfield; from New Hampshire, J. Duncan Upham of Claremont and Lester P. Thurber of Nashua; from Connecticut, Charles E. Jolin of New Haven; from A. Briggs of Waterbury and Daniel M. Wright of Hartford; from Maine, W. B. Moore of Portland; from Vermont, James Hartness of Springfield, George L. Dunham of Burlington and Elias Lyman of Burlington.

There were also present J. B. Taylor of Springfield, secretary of the Western New England chamber of commerce, and R. D. Reardon of Pittsburg, president of the New England Association of Commercial Executives.

Telegrams regretting their inability to be present were sent by Francis W. Bird of Boston and Elias B. Adams of Portland. Chairman Hillman read letters commending the idea from Chairman Howard Elliott of the New York, New Haven & Hartford railroad, Gov. Roland H. Spaulding of New Hampshire, ex-Senator W. Murray Crane and Theodore N. Vall.

The sense of the meeting was strongly in favor of New England organization, on the ground that it will constitute one of the means for New England's unity, that she may hold her own against other sections of the country in commerce.

C. E. PALMER DEAD

BOSTON, Oct. 26.—Chas. E. Palmer, aged 75, a G.A.R. veteran and a selectman when Hyde Park was a town, died yesterday at his home, 40 Greenwood avenue, Hyde Park. He attended the National G.A.R. encampment in Washington and was taken ill soon after his return home. Last Tuesday afternoon he was stricken with a shock. He is survived by his wife and two daughters. The funeral will be held at the house at 2 p. m. Friday, with a Knights Templar service.

FIRE IN BOSTON

Two Firemen Injured at \$25,000 Blaze in West End

BOSTON, Oct. 26.—Damage of \$25,000 was caused by a fire which started shortly before midnight on the third floor of the five-story brick building with a main entrance at 51 Chardon street. The fire spread to the fourth and fifth floors and a speedy but well planned attack by Chief McDonough saved the building from destruction.

Three alarms were sounded from box 1321, Chief McDonough ordering a third and skipping the second the moment his automobile pulled up beside the building.

Richardson, Wright & Co., manufacturers of surgical furniture, occupy the third and fourth floors, and the top floor contains the plant of the Elite laundry. The building, according to Chief McDonough, has been the scene of some very serious fires.

Starting near a weight box on the third floor, the flames quickly mounted to the upper floors, which seemed like a roaring furnace as the first pieces of apparatus reached the building. Mattresses made ready fuel for the flames, which were spreading toward the Bowker street side of the building rapidly before the firemen commenced their attack.

Two firemen were injured slightly, one of them by a falling rubber cover.

Chief McDonough for permission to have the window examined.

SLEEPYTIME TALES

HOW MARY LEARNED TO COOK

Once upon a time Mary went to the bake shop to get some buns for her mother. They were not yet made and the woman asked her if she would like to wait and see her make them. Mary thought it great fun to see the butter and sugar creamed and made into little cakes, and to see the biscuit and rolls cut and baked.

The next day she went there the woman asked if she would like to come earlier and make some little cakes for herself. Mary's mother said she could, so the next day she went with a nice clean apron ready for work.

Mary was given a place near the other bakers with a tiny biscuit cutter and all the things necessary to make her cakes. She took a great deal of care and did just as she was told, so that when the cakes were done, they looked "nice enough to eat."

The woman put them in the show case for everyone to see and Mary stood by looking proudly at them. A lady came into the shop just then and bought some cookies and, as she was waiting for her change, she saw the tiny biscuits in the show case. "I want to buy all of those biscuits for my little girl's birthday," she said. "How much are they?"

The woman told her the price and that a little girl had made them and after the customer had gone, she gave Mary half the money she had received for the cakes. Then she asked Mary to come every day she could and make biscuit for her.

Mary ran home as fast as she could and showed her mother the money she had earned and told how she was going to earn a lot more if her mother would let her. Mary worked very hard and when she grew older she had a bake shop all of her own, but she never forgot how she made her first biscuit.

The "Single Damper" in Crawford Ranges

is the greatest improvement ever made in stoves. By one motion it regulates fire and oven—push the knob to "Kindle", "Bake", or "Check"—the range does the rest. Better than two or more dampers. Have you seen it?

This Single Damper is patented—no other range has it.

The deep Ash Hod—instead of the old clumsy ash pan—with Coal Hod beside it (patented) is easy to remove—doesn't spill ashes.

Gas ovens if desired; end [single] or elevated [double].

SUPERIOR COURT

Woburn Man Guilty of Illegal Liquor Sale—Other Cases

The case of C. Mostoffo of Woburn, charged with maintaining a liquor den, took up the greater part of this morning's session of superior criminal court before Judge Raymond. Lawyer Kenney, a young barster from Woburn appeared for the defendant. The case was tried through an interpreter. Assistant District Attorney Crowley conducted the case for the government.

The wife of the defendant was the first to go on the stand. She testified that her husband always kept liquor in the house for the use of his family and boarders, but denied that he ever sold any of it. Mr. Mostoffo offered similar testimony.

Officer German, a Woburn inspector, told of watching the house and of finally raiding the premises. A case of beer and an empty quarter keg, he said, were seized in the raid.

In his argument to the jury, Lawyer Kenney sought to impress upon the jurors' minds that the government had failed to prove beyond a reasonable doubt that liquor was kept in the house for sale. Assistant District Attorney Crowley related the story of the seizure by Woburn police officers and their subsequent finding of the case of beer and the keg, and what Officer German observed while watching the house. He cited the discovery of the liquor nuisance, which he said, is commonly called a "kitchen barroom."

At the conclusion of his argument the matter was given to the jury by Judge Raymond and about a half hour later the foreman announced a finding of guilty. Mostoffo was fined \$100, but a few minutes later Judge Raymond, continued the case until November for sentence.

Elmer E. Hobart appeared on a complaint charging him with deserting his wife, Lillian Hobart and their child, on March 10, and of refusing to contribute towards their support since that time. His case was continued and he was asked to recognize in the sum of \$1000 for his appearance before any future session of the court.

Agrippina Cassary, charged with assault with intent to murder, was told that her case will be tried tomorrow morning and that if her present counsel cannot represent her, she will have to engage her counsel. According to the statement of District Attorney Crowley, this case has been needlessly delayed several times.

Tony Silva, who it is alleged assaulted Officer Jerome Cullen on June 12 was next called for trial. Assistant District Attorney McCarthy represented the government in this case and Lawyer Frank Goldman looked after the defendant's interests.

On direct examination Officer Cullen told of his visit to Silva's house on Pearl street on the evening of June 12. He said that it was then about 12 o'clock and that the occupants of the premises were making considerable noise. He went in and found that a party was in progress, he said, and called for the "boss."

The case of Rosol. Owing to the large list of criminal cases to come before the present session of the court and the fact that the district attorney would like to have a greater part of the business of his office finished in this city by Thursday, Lorenzo Rosol, one of the defendants in the pickpocket cases tried at yesterday morning's session, whose case was to come up again on Thursday, was brought before Judge Raymond yesterday afternoon following the dismissal of the jury. Lawyer Murphy, of Boston, counsel for the defendant, sought to have his client dismissed on the ground that after 1913 he had never been brought before the court and had since been living an honorable life. It seems that after his arraignment and release on bail in the Cambridge case, Rosol went to New Jersey and married a girl of wealthy parentage. Although the parents of the girl knew nothing of Rosol, they nevertheless disapproved of the marriage and told their daughter that they would have nothing more to do with her if she married him. But their advice was of no avail. Some time after the girl came to Cambridge to live with Rosol who started in the law-breaking business. Lawyer Murphy said that if his client was not released, the young wife would be cast adrift without means of support, and he also laid particular stress on the fact that Inspector Claffin, the well known Boston investigator of crime, did not believe that Rosol was connected with the pickpocket affair. Judge Raymond, however, refused to let any of these

facts have any bearing on the case and Rosol was sentenced to one year at hard labor, the same punishment meted out to his companions at the morning session.

Civil Session. In the superior civil court the arguments and charges in the cross suits between the Hovey Manufacturing Co. and Albert Birch, which occupied the greater part of last week, were finished yesterday afternoon. This morning the jury went out on the case.

Later the case of Margaret Conway, administratrix, vs. the Boston & Maine railroad, was taken up. It is a suit to recover for the death of Annie Cullen, who was killed instantly in Somerville in June, 1913. She was carrying a two-year-old baby in her arms, and while passing at the rear of a freight train was struck by an express train coming from Boston. Strange to relate, the baby which was thrown from her arms by the impact, was picked up uninjured, having landed on the station platform. The ad damnum is \$10,000. McEllan, Carney & Brickley for the plaintiff, Trull & Wier defending.

WILL NOT BE PROSECUTED
HARVARD MEN MISLED BY CHEAP POLITICIANS, SAYS DIST. ATTY. CONCORAN

CAMBRIDGE, Oct. 26.—"Harvard undergraduates have been misled by cheap politicians into illegal registrations for the coming state election," District Attorney Concoran said today, announcing that the students would not be prosecuted. The grand jury has been investigating alleged wholesale registrations of students who claimed to be self-supporting. Conferences between the district attorney and Prof. Felix Frankfurter, representing President Lowell of the university, resulted in the announcement that the students would not be subject to prosecution. Persons said to have been responsible for the student registrations, however, are now under investigation by the grand jury, the district attorney said.

GOMPERS VISITS WILSON
DISCUSSED LEGISLATION TO BE PROPOSED BY FRIENDS OF LABOR MOVEMENT

WASHINGTON, Oct. 26.—Samuel Gompers, president of the American Federation of Labor talked today with President Wilson in advocacy of legislation to be proposed in congress next winter by friends of the labor movement. For an hour Mr. Gompers outlined the features of a legislative program the federation has been considering with particular emphasis on the proposed bill for the Federal Labor Law. A report was widely circulated in official circles that Mr. Gompers laid before the president information of plans of German agents to tie up munition shipments to the allies. Mr. Gompers, however, flatly refused to tell about his visit, further than to say he had discussed legislation with the president. On several previous occasions Mr. Gompers has said he had evidence of foreign interference.

SPY EXECUTED IN LONDON
LONDON, Oct. 26, 5:08 p. m.—The following announcement of a military execution was issued today:
"A prisoner who was tried on the serious charge of espionage was found guilty and sentenced to death by being shot. The prisoner appealed and the court of criminal appeal on October 18 dismissed the appeal.
"The execution was carried out by the military authorities this morning."

GERMAN AVIATOR DEAD
REIGNER, WHO ESTABLISHED WORLD'S RECORD OF 5500 METERS WAS KILLED

GENEVA, Oct. 26, via Paris, 5:30 p. m.—Word has reached here from Basel of the death of the German aviator Reiniger, who is said to have established a world's record by flying with passengers to an altitude of 5500 meters. He and his companion, Capt. Mogan, were killed by the fall of their aeroplane.

ANNUAL SOCIAL
The annual social of the Holy Rosary sodality of the Sacred Heart parish will be held in the school hall on Nov. 5, and those in charge plan to make this year's affair the best ever. The program will be given by the entire program will be provided for those enrolled in the society. A musical program, dancing and refreshments will be the features.

WEATHER PREDICTIONS
WASHINGTON, Oct. 26.—Weather predictions for the North Atlantic states for the week beginning tomorrow were issued by the weather bureau today as follows:
"With exception of local rains Wednesday in northern New England, fair weather is indicated until about Sunday or Monday, when unsettled weather is indicated. It will be somewhat cooler Thursday and Friday."

STRIKE AT SPRINGFIELD
SPRINGFIELD, Oct. 26.—Three hundred employees of the Springfield Metal Body Co. went on strike today. They asked an eight-hour day, time and a half for overtime, double time for Sundays and holidays, and recognition of the union. Haskins Smith, president of the company, said the strike probably would mean the removal of the plant to Detroit.

SHELL FLEW OVER REPAIR SHIP
NEW YORK, Oct. 26.—The repair ship Panther of the United States navy had a narrow escape from being hit by a 14-inch shell fired from the province of New York today. The shell fell just a few feet above the water and struck the ocean about a mile away from the ship. The incident was reported by wireless telegraph by the commanding officer at Fort Hancock.

The Panther and several other war vessels were in the fleet theoretically destined for the entrance to New York harbor.

STRIKE AT FALL RIVER
FALL RIVER, Oct. 26.—About 200 workers of the Hingham mill No. 1 went on strike today. When the mill manager refused to discharge an "extra" whom the operatives have a grievance, a conference was held between workers' union officials and the management of the plant, but no settlement was reached.

The Panther and several other war vessels were in the fleet theoretically destined for the entrance to New York harbor.

FALL RIVER, Oct. 26.—About 200 workers of the Hingham mill No. 1 went on strike today. When the mill manager refused to discharge an "extra" whom the operatives have a grievance, a conference was held between workers' union officials and the management of the plant, but no settlement was reached.

The Panther and several other war vessels were in the fleet theoretically destined for the entrance to New York harbor.

CROWDS GREET WALSH

Cape Towns Show Great Enthusiasm—Big Meetings in Fall River and New Bedford

FALL RIVER, Oct. 26.—Two big Walsh rallies were held in this city last night. The governor reached here from New Bedford about 10.30. In Amott hall, which is situated in Flint Village, 200 were waiting to greet him.

He spoke for about half an hour and then proceeded to Annawan hall, which is in the center of the city. One of the largest crowds seen here at a political meeting in years welcomed the governor with rousing cheers. In all there were 1600 present.

Joseph Joyce Donahue, democratic candidate for attorney general, who preceded the governor as a speaker, assailed his republican opponent, Atty. Gen. Atwill. Mr. Donahue said:

"Under the administration of republican attorney generals in Massachusetts Wall street was allowed to so manipulate the currency of Massachusetts that thirty and industrious people were stripped of their property, and the present attorney general had failed to serve notice on them that the practice must be stopped."

Enthusiasm at New Bedford
The New Bedford rally was declared by local democrats to be a record-breaker. There were 1300 in Odd Fellows hall. The crowd had gathered long before the hour set for beginning.

The 800 or more who occupied seats on the floor and galleries each carried small flags. Their welcome to the governor was most vociferous and he was frequently interrupted with cheers and applause and cries of "You're all right" and "That's the boy, Dave."

Gov. Walsh's tour of Cape Cod yesterday proved most satisfactory. The crowds in each of the towns exceeded in numbers the expectations of the most enthusiastic of those in charge of the tour.

The governor himself has campaigned in the Cape for several years past, but said last night he had never seen so many people turn out to hear a candidate.

Ex-Congressman Thomas C. Thacher and George McLaughlin of Sandwich, who accompanied him, were delighted. They said the showing was remarkable as well as significant.

Cape Towns Out Greeting
The governor began the day at Sandwich, where he was welcomed by school-children, marching in a procession from the depot to the postoffice as an escort to his automobile. They carried small flags, sang "America" and recited in unison the "Salute to the Flag." William L. Nye was the presiding officer at the rally.

At least 350 men and women heard the governor talk. Just before the governor's car left Sandwich he was given a bouquet on behalf of the children. At West Barnstable the school children were waiting at the depot to greet him. He told them some stories and then turned to the 35 voters who had gathered there.

His third stop was at Barnstable, where in front of the county courthouse he addressed what was said to be the largest assemblage ever seen there at an open-air rally. There were fully 100 voters in the gathering.

In front of Colonial club at Yarmouth there was a gathering of 35 voters. When the governor had finished he shook hands with Miss Zilpas E. Wright and Miss Heloise O. Redfield, suffragists, who were campaigning in the town.

Masonic hall at Hyannis held at least 300 men and women when the governor arrived. He talked almost an hour.

After dinner he proceeded to Osterville, where 50 people greeted him. At Cotuit there were fully 75 in the audience.

Falmouth town hall was filled at the second indoor rally of the day. At Woods Hole, where the governor arrived about an hour behind schedule, there were between 50 and 75 in the audience.

COFFEE CLAIMS ITS VICTIMS BY HUNDREDS

Prominent Nerve Specialist Says Drinking Has Produced a New Disease—Chronic Caffeinism.

"There is a distinct type of cases," says Dr. Wm. M. Leszynsky, consulting neurologist to the Manhattan Eye and Ear hospital, "frequent among the poorer class of people, but by no means confined to them, of functional nervous disorder (caused by coffee drinking), to which the elastic term 'neurasthenia' or 'chronic caffeinism' in its broadest significance may be aptly applied."

"In cases of neurasthenia, inquire into coffee drinking," adds Dr. Otto Juettner.

"I have seen hundreds of victims of this disease," continues Dr. Leszynsky, "among commercial travelers, brokers, merchants, actors, writers, and men connected with the news department of the daily papers."

"They usually complain of the following symptoms, which are more or less pronounced: General headache and nervousness, apprehension in regard to some unknown impending trouble, mental depression and irritability, insomnia or restless sleep, bad dreams and sudden starting in sleep, awakening in profuse perspiration, general tremulousness and diminished muscular power, cardiac palpitations, loss of appetite, and constipation."

NOTE—It is a fact worthy of note that the American food-drink—Instant Postum—has come widely into popular use and favor with the recognition of the harmfulness of coffee. Postum has a flavor resembling Old Java, but is entirely free from caffeine and any other harmful ingredient.

THE LOWELL SUN

OPPOSE CONSCRIPTION FIRES AND EXPLOSIONS NO HITCH OVER MORAN

MANIFESTO SIGNED BY FEW MEMBERS OF PARLIAMENT—WOULD DESTROY BRITISH UNITY

LONDON, Oct. 26.—A manifesto opposing conscription has been issued by a comparatively small number of members of parliament. Among the reasons given for such opposition is that the compulsory system would so deplete the ranks for the industrial workers that Great Britain would be unable to meet her obligations assumed in behalf of the allies to supply them with stores of munitions and give them substantial financial help.

It is further declared that conscription would arouse bitter opposition among the workmen and irretrievably destroy national unity which is essential to the successful prosecution of the war.

The manifesto is signed by Rt. Hon. Charles E. H. Hobhouse, a former member of the British cabinet, as chairman; Percy Alden, liberal member for the Tottenham division of Middlesex, who has written much upon the question of the unemployed, as vice chairman, and John Howard Whitehouse, liberal member for Mid-Lanarkshire, also identified with labor reform, as secretary.

BACK BROKEN, LIVES A YEAR
Albert Johnson died at Rhode Island Hospital After Showing Signs of Improvement

PROVIDENCE, Oct. 26.—After living nearly a year with a broken back, Albert Johnson died at the Rhode Island hospital last night. He was injured by the fall of a girder while at work on a building. His condition was critical for several weeks, but gradually improved until it was believed that he might recover. Recently, however, he began to fail.

SEPARATED 50 YEARS
BROCKTON, Oct. 26.—Just 50 years ago Miss Bridget Feeney left Ireland and came to this country, leaving behind, a brother, Patrick Feeney, aged three.

Yesterday brother and sister met for the first time since the parting 50 years ago. Miss Feeney is now Mrs. Bridget Trinch of San Francisco. Her brother lives at 29 Skinner street, where the reunion took place. Mrs. Trinch is visiting in Peabody.

SOCIAL AND FRATERNAL
Lowell lodge, Loyal Order of Moose, will launch a membership campaign soon. At a meeting held last night in Odd Fellows hall plans for the campaign were discussed and it was announced that the teams will meet next week and elect captains. A prize will be given to the winning team. Brother John M. Hogan, treasurer, is still confined to his home by illness. Brothers Turnbull and Nobles suggested that a carnival be held in the near future and this met with the approval of the members.

LIST OF THE SHIPS BURNED AND MUNITION FACTORIES BLOWN UP SINCE AUG. 29, 1914

BOSTON, Oct. 26.—Following is a list of fires and explosions since August 29, 1914, in ammunition and other plants in this country supplying material for the allies, and on ships bearing cotton and other cargoes from the United States to the allies:

Ships
Aug. 30, 1914—Alfred Nobel, cotton cargo ship, hit at sea.
Sept. 26—Cedric; fire in hold, just after vessel leaves New York.
Oct. 17—Daguid; on fire at pier on East River.

Nov. 9—Rembrandt; cotton cargo ship, hit in port, thought to be due to bomb put in hold at New York.

Jan. 29, 1915—Preston; cotton cargo ship, hit in port. Clan MacKeller; cotton cargo from the United States hit at Genoa.

March 31—San Guglielmo; cotton cargo from the United States hit at Genoa. Devon City; sugar cargo ship hit by bomb.

April 29—Erne; cargo ship hit by bomb put in hold at New York.

May 8—Banksdale, from New York; hit at sea; laden with Italian resisters; conveyed to Azores.

Sept. 18—Aethel, from Brooklyn, hit at sea; was carrying food supplies for the allies.

Powder and Other Plants
Aug. 29, 1914—Du Pont powder storehouse, Pompton, N. J., one killed.

Jan. 15—Roebin chain plant, Trenton, N. J., loss \$1,500,000; due to bomb; was making goods for the allies. Du Pont powder shop, Haskell, N. J., one hurt.

March 6—Du Pont powder shop, Haskell, N. J., five killed.

April 1—Equitable powder plant, Alton, Ill., five killed.

April 20—Du Pont powder mixer, Carneys Point, N. J., six hurt.

May 12—Anderson gunnison storehouse, Wallington, N. J., three killed.

May 16—Du Pont powder still house, Carneys Point, N. J.

June 26—Du Pont powder mill, Wayne, N. J.

July 6—Canadian cordite plant, near Montreal, four killed, ten others hurt.

July 12—United safety powder mill, Jefferson, Ky., three killed.

July 13—Part of Du Pont powder plant, Carneys Point, N. J., one killed, three hurt; Aetna powder mill, Slatmahoning, Penn., five killed.

Aug. 25—Schwab's steel mill, Bethlehem, Penn., shell explodes, two killed.

Aug. 29—American powder glazing mill, Acton, Mass.

Aug. 29—Part of Du Pont powder

PRES. BAKER OF THE PHILLIES SAYS THAT REPORT OF DISCORD IS WITHOUT FOUNDATION

PHILADELPHIA, Oct. 26.—There is not the slightest bit of discord between Pat Moran and Pres. William F. Baker. Just because Moran failed to sign up for next year before he left town for his home in Fitchburg, Mass., several stories were published that he had refused to consider a 1916 contract unless given a big increase over what he drew down this summer.

Pres. Baker in a telegram last night denied that there was the slightest hitch between Moran and the club and that Pat would sign a 1916 contract when he was presented to him. Mr. Baker's telegram is appended:

Brooklyn, N. Y., Oct. 25.
There is no truth in the statement that there is any trouble between Manager Moran and myself. I told him last Wednesday I was ready to talk over a contract for one, two or three years, but he said he was tired and anxious to get home, and would meet me in New York in about two weeks and fix up matters. Moran's salary for this year was for a considerably longer period than has been guessed at by those desiring to make trouble, and he earned a bonus which was paid last Wednesday.

William F. Baker.

mill at Wilmington, Del., two killed.

Aug. 31—Dynamite-deli, rain delirated and blew up, near Pinole, Cal., three killed.

Aug. 31—Bomb explodes at door of M. P. Combs at Depew, N. Y., superintendent of a plant in erection to make aeroplanes for the allies.

Oct. 5—Terra, power plant, Emporium, Penn.; 255,000 pounds of explosives destroyed; four killed, seven hurt.

Part of Du Pont powder plant, Pompton, N. J.; seven burned.

FOR LOWELL EXHIBITION

SCHEME OF DECORATION DECIDED
—MANY NEW APPLICATIONS FOR BOOTHS

The contract for the decorating of the interior and exterior of the Kasing building in Thorndike street for the big exhibition of Lowell-made goods, which will be held from Nov. 15 to 20th inclusive, under the auspices of the Lowell board of trade, was signed yesterday and the C. P. Young Co. of this city will do its very best to give the Lowell public a decorative scheme which is worthy of the event.

It has been decided by officials of the board of trade that the color scheme for the show will be green, white and gold. The booths will be framed in white, with the solid portions of the fence divisions green and the white booth posts, which are high and ornamental and topped with baskets of flowers will bear an outline of gold moldings. The roof decorations will be unique. Great quantities of foliage will be worked into lattice arches and the lower portions of the roof will be draped with bunting.

Plans for the great show are progressing rapidly and more exhibitors are daily applying for spaces. The latest to rent spaces are as follows: The Sawyer Carriage Co., The Lowell Sun, W. H. Bagshaw, New England Dunning Co., and Linden Hill Appliance. Officials of the American Hide & Leather Co. called at the office of the board this morning in order to make arrangements for their large exhibit of hides and descriptions and it is believed this large concern will greatly interest the public with its leather products.

CONGREGATIONAL CHURCHES
NEW HAVEN, Conn., Oct. 26.—All business of the national council of Congregational churches gave way today to the 116th annual meeting of the American board of commissioners for foreign missions, and the only gathering which was not given over to reports from and addressed by missionaries was that at noon when Rev. Dr. Washington Glendon of Columbus, O., was to be the speaker at a general meeting.

The program had been arranged so that the missionaries who brought greetings during the morning session were from India; those in the afternoon from the countries of the near east, while this evening the workers from the islands of the Pacific, from Japan and China and the Philippines will tell their stories of the spread of the gospel in their respective fields.

A WOMAN DOCTOR
says, "Eugenics is a necessary factor in the future of the race. The average American girl is unfit for motherhood." This may be true, but if weak and ailing girls passing from girlhood to womanhood would only rely, as thousands do, upon Lydia E. Pinkham's Vegetable Compound—that simple remedy made from roots and herbs—to restore the system to a normal healthy condition, it would save many a life from which they suffer to disappear, so that motherhood might become the joy of their lives.

THIRTEEN KILLED

12 Girls and One Man Trapped in Factory Fire—Two Dying

PITTSBURGH, Oct. 26.—Thirteen persons were killed and eight injured by a fire in a four story building, the two upper floors of which were occupied by the Union Paper Box company, on the north side here late yesterday afternoon. All except one of the dead were young women employed by the company. Many of the bodies were badly burned as to make identification difficult. Mayor Joseph G. Armstrong at once ordered that the police, city council and the coroner make thorough investigation of the fire.

The Dead
Collette Seelman, aged 19.
Henel Wang.
Sophia Obok, 22.
Carolina Ferrara, 15.
Dorothy Link, 16.
Florence Baker, 21.
Cecilia Joss, 17.
Bertha Dunapple, 24.
Ollie Breinling, 20.
Laura Breinling, 24.
Myrtle Miller, 26.
Mecilia Rauch, 17.
Peter Valon.

The flames started in a pile of straw in the rear of the feed store of James Brown & Co., on the first floor of the building. William C. Kimbel, general manager of the box factory, at once went to the third and fourth floors and warned the girls employed there to leave quietly. The flames gained headway so rapidly, however, that escape by means of stairways and fire escapes was soon cut off. Some of the girls attempted to go to the dressing room for their hats, and there, huddled on the floor, firemen found a majority of the bodies.

Joseph L. Bash and A. J. Seagle, employed on the second floor of the building, were about to jump when they were in the window above. The men told the girls to jump. One by one as the girls leaped, Bash and Seagle caught them, lowered them as far as they could and then let them drop to the sidewalk.

C. R. Carlisle, driver of a transfer wagon, drove his wagon into an alley in the rear of the building and threw up a rope to the girls in a window above. After making one end fast, they slid down the rope to safety.

Margaret Steigewald, aged 17, who was injured by jumping from a third floor window, said she and five other girls were trapped in the building when somebody closed a door at the head of the stairway on the second floor.

"We got our wraps and started down the stairway," said Miss Steigewald. "Some one reached the second floor some person closed the door at the head of the stairway. We tried to open the door without success and then we started back to the third floor. By that time the third floor was filled with smoke. We made for the windows. One girl pushed me away from a window and I was the last to jump."

One of the heroes of the fire was Peter Valon, who is among the dead. When the fire was discovered he was working in the building. He groped his way through the smoke toward the street, where he heard girls frantically calling for help from the upper floors. Tying a handkerchief about his mouth he rushed into the building. Six times he staggered to the street with the unconscious form of a girl in his arms. When he failed to appear the girls thought he was dead. He was rescued by the firemen, who found him charred body on the second floor. Near him lay the body of a young girl whom he had evidently tried to rescue when overcome by smoke.

Physicians last night expressed the opinion that all the injured would recover.

Francis Feehan, supervising inspector of the state department of labor and industry, made an examination of the building after the fire. He ascertained that fire escapes were inadequate.

Investigation Resumed
Investigations started last night by city and county officials into the box factory fire yesterday that took the lives of 12 girl employees and eight other persons were resumed today. "If there has been any criminal negligence the guilty shall and must be punished," Mayor Armstrong said.

Two reports showing that the factory was exceedingly dangerous were turned into the department of public safety within the last few months, it was learned.

A La Paventier Bridge
County Fire Marshal Thomas L. Pfarr said last night that he condemned the structure to city officials at once, as a place unfit to the uses to which it was being put.

Hosanan W. H. Kuhlman, whose duty it was to inspect the building for the fire department, said he reported a few months ago that there were insufficient means of exit.

At the hospital today it was said that two of those who jumped from windows of the factory were expected to die of their injuries.

VESSEL BADLY DAMAGED
THE STEAMER COLORADO WHICH CAUGHT FIRE AT SEA TOWED INTO PORT

CHARLESTON, S. C., Oct. 26.—The Mallory line freight steamer Colorado, which caught fire Sunday night on route from Charleston to New York, with cotton, was towed into port early today. The vessel is badly damaged but it is believed much of the cargo can be salvaged. The blaze started in the superstructure from a cause not yet determined.

THE SCHEDULED STRIKE
SCHEDULED, N. Y., Oct. 26.—The few electrical workers who failed yesterday to heed the strike settlement order returned to work at the General Electric company's plant today, having been directed to do so by the district council of their union. This action left only the machinists and a small number of steam fitters and plumbers still on strike for an eight hour day.

BIG SALE OF FURS

137 Silver Fox Skins Bought for \$41,500 by Montreal Firm

A despatch from Montreal states that the largest single sale of raw furs ever recorded in Canada was effected last week when the firm of A. & E. Pierce & Co., St. Paul street, paid over \$41,500 in one cheque for a lot of 137 silver fox skins. Representatives of 27 of the leading fur houses of the United States were present, yet in a period of so called local depression, Canada brought up three-quarters of the offerings.

A. Pierce showed a newspaper representative the little pile of furs which represent probably one-third of the silver foxes collected by a great corporation during the past season. The early war impression that the fur trade had been affected was a mistaken one, he said. The great consuming market for furs is on this side of the Atlantic. Germany, while not a fur-producing country, had practically cornered the fur market; both in Russia and in Canada, re-selling to the countries 75 per cent. of the furs bought in them after being dressed. The fur industry has now adapted itself to the new conditions and Canada is taking a bigger place in the trade than heretofore. The German fur agencies are eliminated for good.

It is the first time in the local fur market that home dealers have predominated over the big American buyers to such an extent. Inside the last month, A. & E. Pierce & Co. has paid over \$300,000 for raw furs.

Their new stock of silver fox skins alone represents over \$45,000. One skin picked up and examined by a prospective buyer the other day, was valued at approximately \$2250, the best skin in the pile. Nearly half a pile of skins of white fox, red fox and skins from a cross between silver and red, which are quite common in the St. James Bay district.

WALSH TO WIN

McCall Already Beaten, Says Matthew Hale, Progressive Leader

BOSTON, Oct. 26.—"It's useless to vote for McCall for the sake of beating Walsh and forcing the democrats out, for McCall is already beaten and you can't get rid of Walsh, for his re-election is practically assured," declared Matthew Hale, progressive party leader, in a speech to the progressives in Greater Boston from the cities and towns in Greater Boston at a meeting held last night at the progressive state committee headquarters, 257 Washington street.

Chairman Hale, against the wishes of his physician, exhorted the progressives to remain steadfast, urging them to exhaust their every endeavor to get out at least 13,000 votes, that the party might retain its legal standing.

"But whatever you do, don't vote for McCall, as was the case last year when many forsook Walker for the sake of the republican candidate, for the sake of the fielding Walsh. You can't do it this year. Walsh cannot be defeated, for no matter which way the vote is figured, Walsh will win by at least 4000 votes over McCall. And those are ultra conservative minimum figures."

The meeting was called by Leon T. Fadden, acting chairman of the progressive state committee, a perfect plans for getting out the maximum number of progressive votes on election day and to hear reports from the delegates of the neighboring cities and towns.

SERVICE DISCONTINUED
PARCEL POST SERVICE FROM BERLIN TO AMERICA SUSPENDED TILL FURTHER NOTICE

BERLIN, Oct. 25, via London, Oct. 25, 11.15 a. m.—The parcel post service to America has been discontinued until further notice. No official reason for the discontinuance is given.

Last April several thousand parcel post packages mailed from Germany to the United States via Switzerland, were returned to the senders by the Swiss postal authorities because the British and French governments had given notice that parcels addressed to German citizens in the United States would be seized whenever they were found on shipboard. Parcels sent from Germany to Spain and Portugal have met a similar fate.

On April 7 the German postal officials suspended the parcel post service to various parts of South America.

TRY THIS FOR A COLD—IT'S FINE!

"Pape's Cold Compound" ends severe colds or grippe in few hours.

You can get grippe and break up a severe cold either in head, chest, body or limbs, by taking a dose of "Pape's Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops nasty discharge or nose running, relieves sick headache, dizziness, feverishness, sore throat, sneezing, coughing and stiffness.

Don't stuff up! Quit blowing and snuffing! Quit coughing and sneezing! The cold gives you such prompt relief as "Pape's Cold Compound," which costs only 25 cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Be sure you get the genuine.

The Better Way

WINTER begins and you are at the parting of the ways.

Are you going to stick to coal and pay the penalty of \$2.50 a ton more than Lowell Coke would cost you?

Are you going to stand the dust, dirt and poisonous coal dust? The clinkers and ashes? The heavy lifting and all the other nuisances of coal?

Take the better way this winter and use Lowell Coke, the modern fuel, the ideal fuel—economical, light, clean and every way satisfactory.

Insist on Lowell Coke
